The following Notification No. 1440, dated the 30th August 1905, issued by the Government of India, Home Department, *re* the pilgrimage to the Hedjaz during the season of 1905, is republished for general information:—

"By the Home Department Notification, No. 1309, dated the 12th September 1904, the Governor General in Council, under the powers conferred by section 2, sub-section (1), of the

Epidemic Diseases Act, 1897 (III of 1897,) directed that pilgrimage to the Hedjaz during the season of 1905 might be permitted to any resident of India, subject to certain precautions, from the Port of Bombay in the Presidency of Bombay.

2. The Haj will be open during the ensuing pilgrim season to any resident in India, subject to the regulations hereinafter stated.

3. The orders contained in the Home Department Notification No. 1309, dated the 12th September 1904, are hereby cancelled.

4. The Governor General in Council is pleased to direct—

(1) that no person shall be permitted to embark with the object of making a pilgrimage to Mecca except at the Port of Bombay in the Presidency of Bombay;

(2) that no person shall be permitted to embark for such purpose at such port unless he has been kept under observation in a place appointed for the purpose at or near the port of embarkation until such time as the Medical officer in charge shall be satisfied that all risk of such person conveying the infection of plague has completely abated;

(3) that no passage tickets for the Hedjaz shall be sold except at the place appointed for the detention of intending pilgrims under observation.

5. Although they have decided that, subject to the foregoing precautions, the pilgrimage to the Hedjaz may be permitted, the Government of India think it necessary to repeat the warning given last year, that intending pilgrims will be well advised in deferring the fulfilment of their purpose until another season in view specially of the stringent quarantine rules imposed by the Turkish Government and of the inconvenience and harassment to which it is likely that they will be subjected on arriving in Arabia."

No. 3398—San. (92-05)-6, dated 26th September 1905.

The following letter No. 224 P., dated the 28th August 1905, from the Secretary to the Government of Bombay, regarding the pilgrimage to the Hedjaz during the season of 1905, is republished for general information:—

"I am directed to state that the Committee recently appointed by this Government to consider certain questions connected with pilgrim arrangements in Bombay, strongly recommend that pilgrims should be advised to come to Bombay as early as possible, if they wish to secure cheap passages. If they defer their arrival till after the Ramzan, the cost of deck tickets will be very high. I am to request, therefore, that the attention of all intending pilgrims may be drawn to this point in the notification to be issued by the Government of India announcing the arrangements for the ensuing pilgrim season."

JUDICIAL DEPARTMENT.

IN THE CHIEF COURT OF MYSORE AT BANGALORE

CIVIL SIDE.

Rule of Practice No. 122, *dated* 26*th September* 1905.

In supersession of the Rules of Practice noted in the margin, the following rules are prescribed by the Chief Court in regard to the arrangement of records and the destruction of useless papers in all the Civil Courts in the State.

No. 1 dated 1st May 1878.
No. 33 dated 5th October 1880.
No. 35 dated 21st February 1881.
No. 53 dated 15th September 1884.
No. 68 dated 28th October 1887.
No. 71 dated 17th January 1888.
No. 80 dated 14th March 1890.

1. These rules shall come into force from the 1st November 1905.

2. A Pherist (Index) of the form marked A in the Appendix will be put up with the record of every case on its first institution and each paper as it is filed with the record will be entered in that Index. When the parties produce lists with documents filed by them it will be enough to note in the Index those lists stating the number of documents included in them.

3. Every record shall, after its completion and immediately before it is sent to the Central Record Room under Rule 13, be divided into parts as shown in the Table given in B of the Appendix.

4. To facilitate this division, each paper will, as soon as it is filed with the record, be numbered, and will be marked off in column 4 of the Index as appertaining to one or another of such parts.

5. The clerk concerned will enter at the head of the Index the nature of the suit or proceeding with reference to Schedule C, referred to hereafter. Thus, if the suit is for foreclosure he will write at the top of the Index on the right hand side in large hand C (1)c ; if insolvency proceedings C (3)b and so forth. Below such entry the date of the final decree or order will be entered and below that the date on which Part III can be destroyed. In the event of an Appeal or Review, the date of final order therein will also be entered.

6. When an Exhibit has become void or useless in consequence of a decree and is not returnable under the provisions of the Code, a note will be made against it in the Index in the Column "Remarks", that it is superseded by decree.

7. Each paper will be marked with its serial number on the top right hand side and at the bottom on the same side with the Part to which it belongs, in red ink, in English characters, not less than quarter of an inch in length.

8. Records will ordinarily be retained for periods shown in Table C of the Appendix. But the presiding Judge may in any case direct, for reasons to be recorded in writing, that any paper be transferred, to any other Part for which a longer period is prescribed, in which case, the fact will be noted in the Remarks column of the Index. That paper will then be dealt with as if it belonged from the commencement to the Part to which it was so transferred. Any document may, with the express and written consent of the parties concerned, be destroyed at an earlier stage at the discretion of the Presiding Judge or kept filed in a sealed cover for such period as the Judge may direct, the fact being noted in the Remarks column of the Index.

9. The Court Registers, books and papers, described in the Table given in D of the Appendix will ordinarily be retained for the periods respectively specified against them, reckoning from the dates on which they respectively close. But the District Judge may, in his discretion, direct the retention, for a longer period or permanently, of any Register, book or paper which he may consider likely to be useful in the future, as containing the results of enquiries or other information, or the opinions of experienced officers in matters connected with the General Administration of Justice; and no Court subordinate to the District Judge shall cause any papers to be destroyed without having first obtained from such District Judge permission in writing to do so.

10. To enable parties, who have filed documents in Courts, to withdraw the same before the period appointed for their destruction, a notice prepared by the Central Record-keeper will be published in the *Mysore Gazette* in January of each year stating that all documents filed in the suits (to be therein enumerated) will, unless previously re-claimed, be destroyed at the expiration of the period indicated in the notice; and the following note will also be entered at the foot of every copy of a decree or order granted to any of the parties to the suit or proceeding in which such decree or order was made or to the Pleaders or authorized agents of such parties. "The parties should apply as soon as possible for the return of all Exhibits which they may wish to preserve, as the record will be liable to be destroyed after * years from this date."

11. Every Court shall maintain a Register in the following form of applications for return of documents.

REGISTER OF APPLICATIONS FOR RETURN OF DOCUMENTS.

Court of
Year :—

Date of application	No. of Application	No. of Connected Suit	Name of applicant and his connection with the suit	Nature of document, and whether produced by applicant. Also its serial number in the Index		Court's order returning document or rejecting application with date	Signature of party or pleader with date of return
1	2	3	4	5	6	7	8

12. When any Exhibit is returned the fact and the date should be recorded in the Remarks column of the Pherist.

13. All Courts subordinate to the District Court will send to the Central Record Room within a month from the close of every quarter the records of all suits, Original, Small Cause and Appeal including the records in Execution and Miscellaneous Proceedings disposed of by them in the previous quarter. On receipt of the records, the Central Record-keeper will satisfy himself that the papers of each case are arranged, and the Index prepared, in the mode prescribed, and if they are not so arranged or prepared they will be returned to the Court which sent them to be re-transmitted with the omissions supplied or the necessary corrections made either at once or with the next batch of records.

14. The Record-keeper shall, as soon as practicable, compare the papers in each case with the lists appertaining thereto and if any paper is missing, report the matter to the District Judge who will hold such enquiry as may be called for and pass such orders as he may deem fit.

15. The Record-keeper will, by glancing at the serial numbers at the top of each paper in the case, verify that Rule 3 has been properly attended to and that Parts I to III are tied separately.

16. The Record-keeper shall not open the seal of any packet received, till he is prepared to examine its contents.

17. When Part III or any other Part has been destroyed the fact should be noted on the Index (Pherist).

18. The records liable to be destroyed will be burnt in the presence of the Head Record-keeper and the Sheristadar of the District Court who will certify the same in the pherist.

19. The District Judge will inspect once a year the records of his own Court and of those subordinate to the District Court and state in the Annual Report how far effect has been given to these Rules

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

No. G.-Legis. 25-04-41, dated Camp Mysore, 13th October 1905.

NOTIFICATION.

The following Draft of a Regulation to remove certain disabilities arising from change of religion or deprivation of caste, which has been submitted to Government by the Committee appointed to consider the subject in Government Order No. 2510-18—Legis., dated the 3rd March 1905, is published for general information.

All persons interested in the subject are invited to send their opinions to the undersigned within two months from this date.

By Order,
B. K. VENKATA VARADA IYENGAR,
Secy. to Govt., Gen. & Rev. Dept.

DRAFT REGULATION.

WHEREAS it is expedient to remove certain disabilities arising from change of religion or deprivation of caste, His Highness the Maharaja of Mysore is pleased to enact as follows :—

(*i*) This Regulation is called a Regulation for the Removal of Religious and Caste Disabilities. It extends to the whole of Mysore and will come into force at once.

2. No person and no heir or representative of such person shall, merely by reason of his having renounced or being excluded from any Religion or of his being deprived of Caste,

(*i*) be divested of any vested interest to or in property;

(*ii*) be deprived of any right of inheritance or personal right.

Provided that no person and no heir or representative of such person shall by reason of this enactment be entitled to retain or acquire any property or right or to exercise any right peculiar or only appropriate to the Religion which he has renounced or from which he has been excluded or peculiar or only appropriate to the Caste of which he has been deprived.

Illustrations.

(*a*) A is a trustee for an endowment of his Religion. Out of that endowment he is entitled to provide for his own residence and maintenance. On being converted to another Religion, he will cease to retain his interest in the endowment.

(*b*) A, a Hindu with vested interest in joint family property, is converted to Christianity. He will, on conversion, retain his interest in that property, but without the incidents peculiar or only appropriate to members of a joint Hindu family.

(*c*) A, a Hindu, dies intestate, leaving him surviving a legitimate son B, a converted Christian. B will succeed A as heir, not by survivorship as a Hindu co-parcener.

(*d*) A, a Hindu, dies leaving him surviving a legitimate son B, a converted Christian. A, before his death, has disposed of his property by a valid will. A's property will follow the dispositions of that will.

(*e*) A, a Mussalman, with four legally married wives, is converted to Christianity. A, after his conversion, will not be able to divorce them by Mussalman ceremonies.

(*f*) A, a Hindu with Hindu sons, becomes a Mussalman. After conversion, he will not be able to exercise the right of a Hindu father to give one of his Hindu sons in adoption to a Hindu.

(*g*) A Hindu Brahmin voluntarily renounces his caste rules and becomes an ascetic. He will not be affected by this Regulation.

3. No person and no heir or representative of such person shall, by reason merely of another person's having renounced or being excluded from any Religion or being deprived of Caste,

(*i*) be divested or deprived of any property right of inheritance or personal right which he would have held had such other person remained in that Religion or Caste;

(*ii*) be forced to any act or to suffer any act inconsistent with or not appropriate to his own Religion or Caste.

Explanation.—The Religion or Caste of any person shall be presumed to be that in which he was born. A Court shall, till the contrary is shown,

presume that it is for the advantage of a minor to remain in the Religion or Caste in which he was born.

Illustrations.

(*a*) A and B are Hindu full brothers and C their half-brother. A becomes a Christian. B's right of inheritance to A will not be affected by C becoming a Christian.

(*b*) A, a Hindu, having a share and a right to live in the joint family house, becomes a Christian He cannot, contrary to the will of the Hindu members of the family, enforce his right to live himself in the joint family house.

(*c*) A, a Christian man, has a Christian wife B. A becomes a Mussalman and marries a second wife by Mussalman ceremonies. A will remain liable for the maintenance of B, and B will retain her right to divorce him, if she chooses, according to the law applicable to Christians. But A cannot enforce against her any conjugal rights, nor divorce her, except for reasons and in the manner allowed by the law applicable to Christians.

(*d*) A, a Christian man, with minor Christian children, becomes a Mussalman. He will remain liable for their maintenance. But he cannot enforce against them any right of guardianship inconsistent with their religion, such as circumcising his minor sons or giving his minor daughters in marriage to Mussalmans with ceremonies which subject them to Muhammadan law.

(*e*) A, son of B, a Hindu, becomes a Christian, and is consequently deprived of Caste. B will have the same right of adoption as he would have held if A had become an out-caste or disqualified son while remaining a Hindu; but the adoption, if made, will not operate to deprive A of property or rights to which A is entitled under Section 2 of this Regulation.

(*f*) A, son of B, a Hindu, becomes a Christian. After the conversion of A another son C is born to B. C will have the same rights in respect of ancestral property as he would have had if A had remained a Hindu; but the birth of C will not otherwise affect the rights of A under Section 2 of this Regulation.

No. 3142—*San.* (95-05)-2, *dated* 21*st September* 1905.

The following Notification No. 58, dated the 19th September 1905, issued by the Chief Commissioner in Coorg, is republished for general information:—

"Whereas the Officiating Chief Commissioner of Coorg is satisfied that there is danger of an outbreak of plague at Bhagamandala, a village in Tavunad-Sampajinad of Padinalknad Taluk in Coorg, if persons from the Mysore State, the district of South Canara and other plague-infected areas are permitted to assemble at that place on the occasion of the ensuing Talakaveri jatra during the Tula Shankramana.

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Officiating Chief Commissioner prohibits the attendance at the said jatra of persons from Mysore, South Canara, and other plague-infected areas from the 7th October to 20th November 1905.

No. 3180—*San.* 92-05-3, *dated* 20*th*—22*nd September* 1905.

The following Notification No. 1440, dated the 30th August 1905, issued by the Government of India, Home Department, *re* the pilgrimage to the Hedjaz during the season of 1905, is republished for general information:—

"By the Home Department Notification, No. 1309, dated the 12th September 1904, the Governor General in Council, under the powers conferred by section 2, sub-section (1), of the

Epidemic Diseases Act, 1897 (III of 1897), directed that pilgrimage to the Hedjaz during the season of 1905 might be permitted to any resident of India, subject to certain precautions, from the Port of Bombay in the Presidency of Bombay.

2. The Haj will be open during the ensuing pilgrim season to any resident in India, subject to the regulations hereinafter stated.

3. The orders contained in the Home Department Notification No. 1309, dated the 12th September 1904, are hereby cancelled.

4. The Governor General in Council is pleased to direct—

(1) that no person shall be permitted to embark with the object of making a pilgrimage to Mecca except at the Port of Bombay in the Presidency of Bombay;

(2) that no person shall be permitted to embark for such purpose at such port unless he has been kept under observation in a place appointed for the purpose at or near the port of embarkation until such time as the Medical officer in charge shall be satisfied that all risk of such person conveying the infection of plague has completely abated;

(3) that no passage tickets for the Hedjaz shall be sold except at the place appointed for the detention of intending pilgrims under observation.

5. Although they have decided that, subject to the foregoing precautions, the pilgrimage to the Hedjaz may be permitted, the Government of India think it necessary to repeat the warning given last year, that intending pilgrims will be well advised in deferring the fulfilment of their purpose until another season in view specially of the stringent quarantine rules imposed by the Turkish Government and of the inconvenience and harassment to which it is likely that they will be subjected on arriving in Arabia."

No. G.—Legis. 25-04-41, *dated Camp Mysore,* 13*th October* 1905.

The following Draft of a Regulation to remove certain disabilities arising from change of religion or deprivation of caste, which has been submitted to Government by the Committee appointed to consider the subject in Government Order No. 2510-18—Legis., dated the 3rd March 1905, is published for general information.

All persons interested in the subject are invited to send their opinions to the undersigned within two months from this date.

Draft of a Regulation to remove certain disabilities arising from change of religion or deprivation of caste.

WHEREAS it is expedient to remove certain disabilities arising from change of religion or deprivation of caste, His Highness the Maharaja of Mysore is pleased to enact as follows :—

1. This Regulation is called a Regulation for the removal of Religious and Caste Disabilities. It extends to the whole of Mysore and will come into force at once.

2. No person and no heir or representative of such person shall merely by reason of his having renounced or being excluded from any Religion or of his being deprived of Caste,

(*i*) be divested of any vested interest to or in property;

(*ii*) be deprived of any right of inheritance or personal right.

Provided that no person and no heir or representative of such person shall by reason of this enactment be entitled to retain or acquire any property or right or to exercise any right peculiar or only appropriate to the Religion which he has renounced or from which he has been excluded or peculiar or only appropriate to the Caste of which he has been deprived.

Illustrations.

(*a*) A is a trustee for an endowment of his Religion. Out of that endowment he is entitled to provide for his own residence and maintenance. On being converted to another Religion, he will cease to retain his interest in the endowment.

(*b*) A, a Hindu with vested interest in joint family property, is converted to Christianity. He will, on conversion, retain his interest in that property, but without the incidents peculiar or only appropriate to members of a joint Hindu family.

(*c*) A, a Hindu, dies intestate, leaving him surviving a legitimate son B, a converted Christian. B will succeed A as heir, not by survivorship as a Hindu coparcener.

(*d*) A, a Hindu, dies leaving him surviving a legitimate son B, a converted Christian. A, before his death, has disposed of his property by a valid will. A's property will follow the dispositions of that will.

(*e*) A, a Mussalman, with four legally married wives, is converted to Christianity. A, after his conversion, will not be able to divorce them by Mussalman ceremonies.

(*f*) A, a Hindu with Hindu sons, becomes a Mussalman. After conversion, he will not be able to exercise the right of a Hindu father to give one of his Hindu sons in adoption to a Hindu.

(*g*) A Hindu Brahmin voluntarily renounces his caste rules and becomes an ascetic. He will not be affected by this Regulation.

3. No person and no heir or representative of such person shall, by reason merely of another person's having renounced or being excluded from any Religion or being deprived of Caste,

(*i*) be divested or deprived of any property right of inheritance or personal right which he would have held had such other person remained in that Religion or Caste;

(*ii*) be forced to any act or to suffer any act inconsistent with or not appropriate to his own Religion or Caste.

Explanation.— The Religion or Caste of any person shall be presumed to be that in which he was born. A Court shall, till the contrary is shown, presume that it is for the advantage of a minor to remain in the Religion or Caste in which he was born.

Illustrations.

(*a*) A and B are Hindu full brothers and C their half-brother. A becomes a Christian. B's right of inheritance to A will not be affected by C becoming a Christian.

(*b*) A, a Hindu, having a share and a right to live in the joint family house, becomes a Christian. He cannot, contrary to the will of the Hindu members of the family, enforce his right to live himself in the joint family house.

(*c*) A, a Christian man, has a Christian wife B. A becomes a Mussalman and marries a second wife by Mussalman ceremonies. A will remain liable for the maintenance of B, and B will retain her right to divorce him, if she chooses, according to the law applicable to Christians. But A cannot enforce against her any conjugal rights, nor divorce her, except for reasons and in the manner allowed by the law applicable to Christians.

(*d*) A, a Christian man, with minor Christian children, becomes a Mussalman. He will remain liable for their maintenance. But he cannot enforce against them any right of guardianship inconsistent with their religion, such as circumcising his minor sons or giving his minor daughters in marriage to Mussalmans with ceremonies which subject them to Muhammadan law.

(*e*) A, son of B, a Hindu, becomes a Christian, and is consequently deprived of Caste. B will have the same right of adoption as he would have held if A had become an out-caste or disqualified son while remaining a Hindu; but the adoption, if made, will not operate to deprive A of property or rights to which A is entitled under Section 2 of this Regulation.

(*f*) A, son of B, a Hindu, becomes a Christian. After the conversion of A another son C is born to B. C will have the same rights in respect of ancestral property as he would have had if A had remained a Hindu; but the birth of C will not otherwise affect the rights of A under Section 2 of this Regulation.

OFFICIAL PAPERS.

ADDRESS

OF THE

DEWAN OF MYSORE

TO THE

REPRESENTATIVE ASSEMBLY,

11th October 1905.

GENTLEMEN,

Before proceeding to the business of the day I cannot help recalling to mind the mournful event that afflicted the ruling family since we met on the last occasion. The second Maharaja Kumari passed away in November last, while still young, after a long illness, and the whole country at the time mingled its sorrow with that of those dear to her. From our place here, when we meet for the first time after the sad event, we can but offer our tribute of respectful sympathy and sorrow for the loss of so amiable a member of the family.

By command of His Highness the Maharaja, I shall now place before you an account of the past year's administration.

Rain-fall and Season.

The year, as many of you are already aware, was not very favorable to agricultural operations.

The average rain-fall was 29·16 inches, which was 24·53 inches less than that for the preceding year and 16 inches less than the average since 1870. According to monsoons the south-west showed a deficiency of about 8 inches and the north-east of about 11 inches. The rains after Mrigasira and Aridra were a great disappointment, much to the injury of growing crops. Ragi, paddy and other food-crops suffered considerably, and the yield from Kartika harvest especially, was much less than usual. His Highness the Maharaja in his tour in the T.-Narsipur and Nanjangud Taluks personally noticed the poor condition of ragi, horse gram and other dry crops in some of the parts of these Taluks.

Drought.

On account of the drought, various measures were adopted for the relief of men and cattle. Permission was granted to the raiyats of the Chitaldrug District and o the taluks of Sira, Tiptur and Chiknayakanhalli in the Tumkur District, and of Arsikere and Channarayapatna Taluks in the Hassan District to cut and remove date leaves. The free grazing of cattle in some of the State Forests and Amrut Mahal kavals was allowed. Special attention was drawn to the provision for granting tank beds for temporary cultivation ; and in the Kolar and Tumkur Districts this concession was largely availed of.

I may also say that in the months of July and August last, in parts of the Kolar District a crisis appeared to be approaching. The tracts most affected were the Kolar Taluk, portions of the Malur and Bowringpet Taluks, the Mulbagal and Bagepalli Taluks and the Gudibanda Sub-Taluk. The cattle appeared to be suffering more than men. Besides the concessions referred to above, various others were ordered to be shewn to the raiyats. A sum of Rs. 15,000 was sanctioned for granting loans to encourage the sinking of wells in suitable areas for growing fodder and for securing drinking water supply and to assist the importation of fodder and the purchase of seed grains by the raiyats. Additional funds were sanctioned for carrying out the restoration of minor tanks on a more comprehensive scale. But the necessity to open test works or poor houses was happily averted by a copious rainfall towards the end of August.

On the occasion of my recent visit to the Shimoga District I found the standing crops in some places suffering from want of rain, and suitable instructions have been issued to the Deputy Commissioner regarding the matter.

Finance.

The total income and expenditure of the year amounted to Rs. 216,10,486 and Rs. 216,84,799, respectively. There was thus a small excess of Rs. 74,313 in expenditure over the receipts against a deficit of Rs. 4,49,716 in the previous year and of an estimated deficit of Rs. 5,10,000 in the budget of the year under review.

The receipts included Rs. 3,18,977, being the interest on investments, Rs. 7,90,003 from Railways, Rs. 16,90,660 from Gold Mining and Rs. 12,10,886 from Cauvery Power Scheme.

The receipts were better than those of the previous year by Rs. 52,000 The statement in your hands shows the fluctuations in the several items. The decrease under

Land Revenue is shown as Rs. 1,31,590; a little more than Rs. 42,000 of this, however, is only nominal on account of the tax on vacant building sites having been transferred, as explained last year, to the head of "Mohatarfa." The season being, as you know, unfavorable to agricultural operations, the decrease due to relinquishments of lands amounted to about Rs. 28,000, while the same cause affected the sales of occupancy of lands and of proceeds under "Amaroyi" to the extent of about Rs. 37,000. The collections of revenue also had to be somewhat relaxed in the interests of the agricultural population.

Under Gold Mining, almost the whole of the decrease shown was due to the credit during the year of the Royalty from two of the Mines, on the production of only 11 months as against 13 months in the previous year. The decrease under Cauvery Power Scheme, *viz.* Rs. 2,60,354, is accounted for, by some of the companies not having paid the cost of Power supplied to them during March last till after the close of the year, and by the recovery in 1903-04, under the terms of the contract with the Companies, of the cost of Power for 4 months at £29 and for the remaining months at £18 as against the uniform rate of £18 during the year. Against this has to be set off an increase of Rs. 42,000 from a new source of revenue, *viz.*, the cost of water supplied to the Gold Mines for 4 months from Bethamangala Water-works. The receipt would have been more but for the breaching of the tank in the previous year due to heavy rains, and its not filling on account of the long drought that subsequently prevailed.

There was an increase of Rs. 1,18,153 under arrack, but there were decreases under toddy and beer amounting to nearly Rs. 40,000. The revenue under toddy, however, would have been more but for the assignment of the 1/17th share of the toddy shop rental amounting to Rs. 72,492, to Local Funds General. The net increase under Excise was a little more than Rs. 92,000.

The increase of Rs. 1,27,000 under State Investments and Bank Deposits was due to an additional investment of 22 lakhs and to the Madras Bank having credited the interest due for the year on the last day of June instead of on the 1st July of the succeeding year as was the case in previous years.

Now taking the expenditure, there was on the whole a decrease of Rs. 3,23,339 as compared with that of the previous year. The decrease of 3 lakhs under Public Works was mainly due to a smaller grant. The absence during

the year of any heavy charges of an unusual nature account for the large decrease we notice under the head Miscellaneous. *Per contra* there was an increase of one lakh on account of pension to the Yuvaraja. The increase of Rs. 63,550 in the Land Revenue charges is partly to be accounted for by the transfer to this head of the charges amounting to Rs. 41,483 on account of the Revenue Commissioner and his establishment from the head of "General Administration," and is partly due to the promotions in the usual course of some of the Deputy and Assistant Commissioners and the increase under salaries and establishments in the Revenue Survey Department.

The increase of Rs. 1,95,128 in the expenditure under Cauvery Power Scheme was chiefly on account of the Bangalore Electric Lighting.

The opening balance on the 1st July last was Rs. 142,50,958 against Rs. 134,74,685 in the previous year. Of the former balance, Rs. 64,87,700 was in Government of India Securities and the rest in cash, Rs. 37,38,531 being in the State Treasuries, Rs. 38,22,677 in the Madras Bank and Rs. 2,02,050 with Messrs. Coutts & Co., London. The Government surplus was Rs. 43,66,320.

According to the budget estimates of the current official year, the total receipts are estimated to amount to Rs. 227,43,000 and the total expenditure to Rs. 213,40,000, leaving a surplus of Rs. 14,03,000. The large expenditure of Rs. 213,40,000 contains several extraordinary items, such as contribution to the Mysore Trust Board, Rs. 3,00,000; Shimoga drainage, Rs. 30,000; Plague charges, Rs. 1,25,000; and reception of important personages, Rs. 1,50,000. Under Public Works may be mentioned, Rs. 3,75,000 for Marikanave Project, Rs. 3,00,000 for Palace reconstruction, Rs. 1,20,000 for the Bangalore City Improvement, Rs. 50,000 for the Victoria Hospital, Rs. 1,00,000 for the restoration of Ramasagara tank, and Rs. 1,00,000 for Minor Irrigation works.

You remember that in my address of 1903, I have analysed the circumstances affecting our finance and have stated that there was need to exercise economy in ordinary expenditure, and to embark with caution on large outlays. The question has since been examined by the Comptroller, and his report has just reached Government. It largely confirms what I said two years ago that the increase of expenditure has been somewhat disproportionate to the increase of revenue. The Government, however, are quite alive to the importance of maintaining the expenditure well within the means. The completion of almost all the large projects in hand has already enabled us

to turn our attention to gradually build up a sufficient reserve, and a beginning has been made in this direction by securing a surplus of 14 lakhs this year.

Savings Bank.

The deposits of the year amounted to Rs. 41,39,359 and the withdrawals to Rs. 33,62,322. The opening and closing balances were Rs. 78,78,573 and Rs. 89,04,800, the latter including Rs. 2,49,000, being the interest which accrued during the year. There was an increase of 2,586 in the number of depositors, the total number in the beginning of July last being 22,800. It is under contemplation to restore the limit which existed prior to 1898 on future deposits.

State Life Insurance.

During the year 1,408 proposals were dealt with, and 1,018 effective policies were issued, assuring a bonus of Rs. 4,56,704 for a monthly premium of Rs. 1,650.

The closing balance at the credit of this fund at the end of the year was Rs. 11,41,132-2-6. The benefits of Insurance were extended to the employees on the Palace permanent establishment.

Local Funds.

Seven new village unions were formed in the course of the year.

The income under District Funds amounted to Rs. 7,03,935-8-1, and including the opening balance of Rs. 4,56,206-15-11, the sum available for expenditure was Rs. 11,60,142-8-0. The actual expenditure was Rs. 7,47,492-14-9, of which Rs. 5,49,779 was on Public Works, Rs. 34,174 on Sanitation, Rs. 87,211 on Medical aid, Rs. 23,070 on accommodation for travellers, and the rest on miscellaneous items.

The income under *Local Funds General* amounted to Rs. 1,60,303, and the opening balance was Rs. 2,32,551. Out of the total of Rs. 3,92,854, Rs. 2,30,728 was spent; chiefly,—on Public Works Rs. 1,79,830; Industrial schools, Rs. 33,795; Engineering schools, Rs. 7,983; Vaidyasalas and Unani Hospitals, Rs. 3,772; and Maintenance of Agricultural Farms, Rs. 4,828. Of the amount under Public Works the expenditure on wells was Rs. 44,800 and on drains Rs. 16,900.

Municipal.

The number of Municipalities was 87 and the receipts amounted to Rs. 8,18,408. Including the opening balance, out of a total of Rs. 10,37,082, the expenditure amounted to Rs. 6,91,063, of which Rs. 1,72,105 was on Conservancy and Sanitation, Rs. 14,492 on the Registration of Births and Deaths, Rs. 53,573 on Lighting, Rs. 21,411 on Water Supply; Rs. 35,311 on the construction of drains, etc.; Rs. 1,51,073 on Roads and other public works; Rs. 46,131

on the maintenance of Dispensaries, Hindu and Unani Vaidyasalas and Midwives ; and Rs. 36,393 on Education. A grant of Rs. 13,425 was also given from the Local Funds General for sanitary improvements in Chitaldrug and certain other municipalities in that District.

The levy of a subsequent duty on unsold articles taken to another Municipality after the duty had been levied in one Municipality had hitherto formed a source of constant trouble to the trading classes, and there was also much discussion on the subject in this Assembly in the past year. It has now been ordered that in the case of cloths which alone are easily identifiable, no duty should be subsequently levied by any other Municipality within a period of three months from the date of first payment of duty, but that a transfer of the duty may be obtained from the first Municipality.

Agriculture, Industry and Trade.

An experiment is being tried with some success in the Kunigal Stud Farm of introducing Patna rice and also some fine Guzerat rice.

Rubber and Fibre plants were extensively propagated in the Lal-Bagh at Bangalore to meet the growing demands for the same from different parts of India. Of the fibre plants, the introduction of caravonica cotton from Australia is noteworthy.

The establishment of an experimental farm consisting of about 30 acres near the Hebbal village in the Bangalore Taluk has been taken in hand by the Agricultural Chemist. Notwithstanding the comparatively uniform nature of the soil, it is likely that there is considerable difference in the present productiveness of the various plots, owned as they were by several people who had necessarily treated their fields differently, and in order to test the extent of these differences a portion of the area is under a trial crop. On the rest of the area, different varieties of garden crops and paddy are being grown ; also some cholam for fodder.

On the experimental plot in the Laboratory compound at Bangalore, principally ragi and sugar-cane were grown. The sugar-cane was a ratoon crop and although it lodged much more than it did last year, the crop was about as good. The chief part of the experiment in sugar-cane lay in the manufacture of jaggory and raw sugar. Some very good samples of raw centrifugalled sugar were produced, one of these contained 98½ per cent of cane sugar and less than ½ per cent of reducing sugar instead of 70 to 75 per cent of cane sugar and 7 to 12 per cent of reducing sugar usually contained in Mysore jaggories. This sample of

raw sugar was very light in color and in all respects appeared to be an exceptionally good sample.

A plant house in which pot cultures are to be carried on, is in course of construction, and a building containing a room for permanently exhibiting agricultural implements, is nearly complete.

A Mycologist and Entomologist for the investigation of insect pests and plant diseases has been selected in Canada, and the sanction of the Government of India sought for. Two Probationary Assistant Chemists have also been appointed.

In this connection it is necessary to say a word of caution as regards Scientific Agriculture. It has yet to grow in India, and the principles settled in European countries and America cannot be bodily imported into India on account of differences of climate, soil and other conditions. Yet these principles are not without value to us, and their successful application to the various soils in Mysore naturally presupposes a great deal of experiment and original work requiring much time and thought. I make these observations merely with a view to obviate unnecessary disappointments at the results achieved.

Messrs. Arbuthnot & Co. have been granted about 5,000 acres of land under the Marikanave Reservoir, under the ordinary Kandayam tenure. On this land, the Company intend to grow sugar-cane applying the methods of high scientific farming. It is expected that these methods will serve as an object lesson to the people of Mysore and in other ways also benefit them. The Marikanave is thus already showing its practical usefulness.

You will also be interested to hear how the experiment of rubber cultivation which this enterprising firm is making in the Shimoga District, and to which I referred last year, is progressing. The plantation is situated on the bank of the Bhadra river, 17 miles from Shimoga, and I had the pleasure of visiting it recently. It covers an area of 250 acres, out of which 200 acres contain ceara rubber, 10 acres mulberry and one acre cotton. The planting operations were commenced in January 1904 and many of the plants appear already to have come up very well. Mr. Strickland who supervises the operations in behalf of the company believes ceará will prove itself to be the variety best suited to the conditions of Mysore. The experiment is full of possibilities, being useful as a model to the surrounding raiyats.

Another rubber plantation of a different species which also I saw is that at Hebbe near Yedahalli in which 2,000 para rubber plants have recently been planted by the Forest Department.

Revision Settlement. Revision Settlement was introduced during the year into the three taluks of Jagalur, Holalkere and Chitaldrug. The increase in assessment on occupied lands in Jagalur Taluk was only 24 per cent, being much below the maximum limit of 33 per cent prescribed by Government. The increases in the average dry and wet rates were from Re. 0-6-2 to Re. 0-8-0, and from Rs. 1-12-0 to Rs. 2-0-11 respectively; while the garden average decreased from Rs. 2-8-0 to Rs. 1-11-3. This taluk was first settled in 1867, and at the time of the Revision Settlement, the population had increased by about 17,000 and the occupied area by about 33,000 acres. The increase in the number of cattle was 10,000. There was no re-classification of the soil, the water classification alone of wet and garden lands being revised.

The increase on the former assessment in the Holalkere Taluk was about 18 per cent. There were indications of similar prosperity in this taluk also but the great famine of 1877-78 had committed the greatest havoc in this tract and it was found to have recovered from the depression only during the last ten or twelve years. The low percentage of increase is intended to give a further impetus to agricultural expansion for which there is very great scope here.

In the Chitaldrug Taluk the increase of assessment was only 15 per cent, and this must be regarded as exceedingly moderate allowing the agricultural classes to enjoy a good portion of the advantages arising from the increased value of land and higher prices resulting from the increased facilities of communication.

The taluks of Chellakere, late Budihal, and Sorab are now ready to have the rates announced next cold weather.

The form of Survey guarantee was revised so as to define in clearer terms the customary obligations of the raiyats in regard to irrigation works.

The procedure of inviting objections, if any, to the grouping of villages and the maximum rates of assessment to be levied, within two months before a revision settlement is formally introduced, was found to give to the raiyats no clear ideas as to how their holdings were individually affected. It has therefore been ordered that appeals may be submitted to Deputy Commissioners within

three months from the introduction of the Revised Settlement. These appeals will be considered by Government after report by the Deputy Commissioner and after reference, if necessary, to the Survey Commissioner. This modification has the merit of pointing out to the raiyat the exact position in which he stands, before he makes any representation.

Revenue.

The scheme for the improvement of the Shekdari service has been fully introduced into the Kolar District, and is in various stages of introduction in the other Districts, the new Hoblis having been constituted throughout the State.

Agricultural Banks.

The loans granted during the year amounted to Rs. 62,080 and the recoveries to Rs. 1,10,837. Out of a total of 23¼ lakhs, there still remains a debt of 13¾ lakhs due to Government which has to be gradually recovered.

In my address of last year I referred to the advances granted to the members of Coffee Banks at Saklespur and Chikmagalur for meeting the working expenses of their estates. As all efforts to revivify these Banks and keep them in existence failed, they have been wound up. Excepting a few estates which it is hopeless to maintain, all have been left to be worked by their owners who have individually undertaken to pay their share of the debt due to Government in equal instalments within a period of twenty years.

The loans granted to thirteen other Agricultural Banks were ordered to be collected, two in Kolar, eight in Shimoga and three in Mysore. The total amount due from these Banks was Rs. 1,51,958, out of which only Rs. 50,395 had been recovered, leaving still Rs. 1,01,562 to be recovered. Although time was given for payment in easy instalments, there was much indifference on the part of the members and Government had to resort to coercion though with reluctance. In all these Banks, the office bearers themselves were found mostly to be the greatest borrowers and the greatest defaulters. At Issur and Gogga in Shikarpur Taluk, the president, agent and one or two members were found to have taken all the money borrowed from Government. Similarly at Mandya, the ill-success of the Bank was due to the questionable conduct of the agent. The remaining Banks have been paying up their dues with fair punctuality, although as working institutions they are far from fulfilling their primary objects.

Co-operative Societies.

In this connection, I may mention that the Co-operative Societies Regulation to which I referred in my last

address was passed in June this year. The Regulation is intended to be helpful to all classes of people for the furtherance of thrift and providence among them. To the agriculturists and artizans especially, the Regulation affords an easy means of combination by which they can obtain the credit they need for their business and derive benefit in other ways also. The Society can act in behalf of the members for the supply to them of raw material, seed or manure, for the purchase of articles of consumption or of animals, implements or other stock required in agriculture or industry, for the purchase of machinery and its use in common, for the building of houses or purchase of lands, for the carrying out of agricultural and industrial improvements or for any other approved object calculated to promote their economic benefit.

The minimum number of members required to start a Society is ten, and it can be on a basis of limited or unlimited liability. The funds are to be derived from shares, from deposits and from loans. No share or interest of a member in the capital of the Society is liable to attachment or sale under decrees of Civil Courts. Subject only to any prior claim of Government in respect of land revenue or similar dues, a Society is entitled to priority in enforcing its claim upon the crops or other agricultural produce of a member. Similarly, the Society has a prior claim upon any cattle, agricultural or industrial implements or raw material for manufactures supplied by it or purchased with money lent by it. The Society also has a charge upon the shares, deposits or other sums belonging to a member and can set off any debt due to itself from such member.

No charges are made for registering a Society and it is open to Government to exempt any Society or class of Society from taxation, stamp duty, and fees under the Registration Act. The Regulation also provides for the appointment of a Registrar with large powers for the control and guidance of these Societies. He will audit the accounts of each Society free of charge once at least in every year. The Registrar may be empowered by Government to settle any disputes touching the business of a Society, or refer them to arbitration.

The advantages of this enactment, if properly utilized, are manifold. The problems of agricultural and industrial indebtedness and of the material advancement of our cultivators and artizans have come to be recognised as too important to be left to themselves in these days, and

intelligent guidance has become an absolute necessity. An experienced and earnest officer has been appointed Registrar, chiefly to bring home to the minds of the people the advantages of the new enactment. I must, however, repeat, gentlemen, what I said last year, that in any case, without the interested sympathy and initiation of the leading men of the country, the movement cannot succeed, and it is for you who are the trusted leaders of the people, to advise and guide them to move forward, and to profit by this benevolent measure of Government.

The new Registrar has also been charged with the duty of acquainting himself with the present condition of the various industries in the State and seeing in what ways they can be developed. There is at present scanty information in the possession of Government regarding the trade of the country. The Registrar will also, therefore, collect and systematise commercial statistics for the information of Government and for the use of business people.

Technical Education.

The Engineering school at Mysore made good progress. Several of the pupils of the Institution obtained high places at the Madras Technical Examinations. Some of the subjects taken up were building, drawing and estimating, mensuration, earthwork and road making, carpentry, bridge-work, free-hand and model-drawing, and in these subjects some of the successful students occupied the foremost places in the list. The Mysore Industrial School has considerably improved in efficiency, and the pottery department has been able to turn out at cheap rates roofing and flooring tiles which within a short time may lay claim to be equal in quality to the best productions of that kind. The Industrial school at Melkote and the Weaving school at Dodballapur were able to send to the Exhibition held at Bombay in the beginning of this year excellent specimens of silk and cotton cloths which won medals and diplomas. The Weaving school at Hole-Narsipur has now been provided with a small laboratory and dye-house, and experiments have been successfully carried out to dye cloths cheaply with vegetable and artificial dyes. Altogether there were eighteen Industrial schools, of which six were weaving schools. Some of the subjects taught in the other schools were carpentry, blacksmith's work, drawing, rattan work, pottery and modelling, brick-laying and rope-making. All these schools did good work.

During the year ten village schoolmasters who were trained in Mr. Tata's Silk Farm at Bangalore were

appointed as Sericultural Inspectors in the mulberry-growing taluks of the State to instruct the people in improved methods of silk-worm rearing and mulberry planting.

In addition to the usual Medical and Engineering scholarships, 27 technical scholarships were granted. Of the scholarship-holders 10 are studying Mechanical Engineering and 15 Electrical Engineering in the Victoria Institute of Bombay. Of the remaining two, one is studying engraving and the other metal-work and engraving in the School of Arts at Madras. There were also 5 scholars studying in the Veterinary College of Bombay and 2 in that of Madras.

Demonstration Farms for imparting instruction in practical agriculture were established in connection with eight Government schools in different parts of the State. His Highness the Maharaja visited one of these gardens in his tour in November last and remarked that, to be of practical value, a garden should contain more than poor specimens of common country vegetables and that the encouragement of a taste for flower gardening in non-cultivators and the demonstration of improved methods and results to cultivators would be valuable. The teaching of practical agriculture was inaugurated in the Mysore Normal school in order to enable the teachers of Primary and Lower Secondary schools to have gardens and farms in connection with their schools.

Bombay Exhibition.

A separate Mysore section was organized in connection with the Bombay Agricultural and Industrial Exhibition held in December last. The number of articles exhibited was 727, of which 329 articles obtained a ready sale on the spot. 6 gold, 11 silver and 7 bronze medals and 6 certificates of merit were secured. A number of exhibitors and artizans from some of the chief centres of manufacture were sent to Bombay to study the exhibits and the working of some of the Industrial Institutions there. A few influential raiyats were also sent from the Shimoga District to acquaint themselves with the several improved patterns of agricultural implements exhibited there.

You remember, I referred last year, to a measure for the holding of agricultural shows at selected places in the State. A cattle and agricultural show was held at Hiriyur in the Chitaldurg District on the occasion of the last Thyara Malleswara Jatra. Besides the local cattle and articles produced in the district, paddy from Seringapatam, silk and silk cocoons from Closepet and Tumkur,

arecanut from Birur were exhibited. The Indian Fibre Company of Pavagada exhibited fibre and the agent of Messrs. Binny & Co. at Davangere sent specimens of Egyptian, American and other varieties of imported cotton. A simple machine for extracting plantain fibre was exhibited from Molakalmuru and worked in the exhibition. There was also a collection of several varieties of manure the composition and nature of which the exhibitor explained to the visitors. At the ploughing competition different kinds of ploughs were at work and much interest was manifested in their success. Kapile gear was fully exhibited and there was also a Kapile-driving competition. A blacksmith from Bommagondanakere in the Molakalmuru Taluk sent a number of iron and steel implements used in agriculture. It is reported that the assembled raiyats seemed to enter into the spirit of the undertaking and appreciate its advantages.

In January next it is proposed to hold an Industrial and Agricultural Exhibition at Mysore. This exhibition is intended to convey a fairly accurate idea of the agricultural and industrial arts of Mysore and of the resources we possess for their further development. I trust, gentlemen, in your own spheres, you will use your influence to make known the objects of the Exhibition, secure a representative collection of exhibits and make the exhibition a success worthy of the name of Mysore.

Excise.

The retail arrack shops were 923 against 931, but the consumption rose from 348,087 gallons to 367,106 gallons. This increase was chiefly in the Kolar and Shimoga Districts. In the former, it was due to the diminution in the consumption of beer and to greater success in the prevention of smuggling. In the latter, the detection of many cases of illicit distillation of arrack by Lumbanies and the close watch kept against such distillation have evidently suppressed clandestine manufacture and led to the greater consumption of licit arrack. Even with this increase the consumption was well within the annual average (410,900 gallons) of the quinquennium previous to 1896-97.

There were six toddy shops less than in the previous year. The toddy trees tapped in and outside the State for the local shops numbered 450,530 as against 422,855 in the previous year. The increase was chiefly in the Kolar, Kadur and Chitaldrug Districts. In Kolar it was due partly to the indifferent working of the beer shops, and partly to the execution of a number of public works. The number of trees tapped in Mysore for British shops was 25,359 as against 14,923 of last year.

Country-made foreign spirits of weaker strength were introduced during the year to meet the requirements of the people who were found in their absence to have recourse to inferior foreign stuff, but the new liquor has to compete with the great cheapness of the European article. The quantity of ganja consumed inclusive of majim was 8,331 seers against 15,595. This large fall by nearly one-half was due to the doubling of the retail price of 1 anna per tola.

The incidence of excise revenue per head of population was 11 annas against 10 annas and 9 pies in the previous year.

Forests.

The area of State Forests was increased by the addition of six blocks with an extent of 40·3 square miles. Two blocks, about 12½ square miles, were newly notified, and these as well as 15 others previously notified, in all measuring 82·26 square miles, were brought under settlement. About 356 miles of new demarcation lines were cut, and about 905 miles of old lines were maintained in order or widened to the standard width of 66 feet. An aggregate area of about 1,100 acres was pitted and planted chiefly with teak in the high forests of Mysore, Kadur and Shimoga Districts. Besides, indigenous species to provide nurses for sandal were planted over a total area of 596 acres in the Maidan districts. Cultural operations chiefly consisting of dibbling of sandal seeds were carried out in exploited coupes and scrub jungles over an area of 11,350 acres.

The area of State Forests and Plantations attempted to be protected from fire was 1,832 square miles, of which 1,686 are reported to have been successfully protected.

The Special Forest Survey party referred to in my address of last year surveyed 7 State Forests in the Mysore District and 16 in the Bangalore District, of the extent of 720 square miles The cost amounted to Rs. 20,247 or Rs. 28 per square mile. Considerable sums were also spent on roads, buildings, demarcation and planting and sowing.

The ghaut forests had hitherto remained unexplored, unworked and unutilized except by the Kumri cultivators. Their examination has now been taken up systematically in hand. All of them, with the exception of a few in the extreme north of the Shimoga District, have been explored in order to ascertain their timber resources. It is proposed to work out the present mature and exploitable stock within the next 15 or 20 years.

For the renovation of the valuable teak and mixed forests of Mysore, Kadur and Shimoga a system of periodical fellings on a rotation ranging from 40 to 60 years according to the condition of the stock, has been introduced. During each period only a fixed proportion of the unsound and unpromising stock will be exploited The selection of exploitable trees is carefully scrutinised by the higher officers of the Department and no trees that are not above certain prescribed girths will be permitted to be felled. After the extraction of marketable timber is completed, all unpromising poles and saplings will be coppiced in order to secure healthy shoots; all inferior trees interfering with the growth of teak and other valuable timber will be destroyed by girdlings; and climbers entwining trees will be cut, the whole area being then planted up with nursery-raised teak seedlings. The method of treatment in the case of Maidan forests is to coppice with standards on a rotation of 30 years. The exploited coupes are closed against grazing, rigidly fire-protected, and dibbled with sandal.

At the same time the importance of preparing regular working plans for these valuable forests has not been lost sight of. The collection of statistics for the Heggaddevankote forests is nearly completed, and the compilation of plans will be taken in hand as soon as the maps, which are now under preparation, are ready. Statistics for the same purpose are being collected in the Lakkavalli forest also.

Efforts to combat the spike disease in sandal trees were continued and 17,500 diseased trees were uprooted chiefly in the Mysore District, where, notwithstanding the drastic measures, the disease continues to make progress, though it is not very virulent in the previously affected tracts, and is reported to be confined to localities where the soil is unfavorable to the vigorous growth of vegetation.

Under the arrangement with Mr. Haji Ismail Sait, mentioned last year, timber of the value of Rs. 1,72,196 was sold to him for supply at the Gold Field, which was mainly extracted from the remote and hitherto unexploited forests of Shimoga and Kadur. Nearly the whole of this timber had absolutely no local demand hitherto, and had remained unworked except by villagers and iron-smelters for their own consumption. About one-fourth of this supply consisted of dindiga (*Anogeissus latifolia*) which, owing to the absence of demand, had hitherto been suffered to crowd out the more valuable species of timber in the forests.

The Conservator who is bringing much vigilant attention, knowledge and experience to bear upon this work is quite alive to the importance of effectually conserving these forests. It is only the mature trees which would otherwise decay that are removed so as to derive revenue, and it is believed that under his able and intelligent direction, the character and composition of the forests will be greatly improved.

Two forest scholarships were granted last month, and two students have now gone to England to undergo a course of Forestry in the Oxford University. After two years, they will proceed to Germany for a year's training in that country.

A better redistribution of the grades of Forest Rangers was lately sanctioned. The service, for sometime past, is being recruited by a better class of men than formerly, and as an incentive to continued good work it became necessary to improve their prospects. The number of appointments in the higher grades has therefore been increased by 7, while a corresponding diminution has been made in the lower grades.

Geological.

Five Mining, 18 Prospecting and 4 Exploring licenses were granted during the year under the new rules. Five applications for Mining leases still await the completion of the necessary formalities in regard to Survey and Demarcation of the Mining blocks.

The number of Mining Companies actually at work at the end of the year was 11 as against 13, the Road Block and Nine Reefs having temporarily ceased to work. The number of those that paid dividends rose from 5 to 7.

Development operations are being vigorously carried on on the newly-granted prospecting and mining blocks by the lessees and license-holders.

The total quantity of bar gold produced in all the Mines was 607,574 ozs. of the value of Rs. 348,47,745, as against 598,519 ozs. of the value of Rs. 342,61,080.

The total number of persons employed in the mining industry was 29,495 as against 27,355. The death rate per 1,000 persons was 1·52 as against 2·52.

For more effective control and supervision of the mining area, it was found necessary to recast and amend the provisions of the Mining Regulation in several important respects, and a draft of this Regulation is now under the consideration of Government.

The new Schist belt discovered last year in the Chitaldrug and Tumkur Districts was traced further

towards the north to the borders of Mysore, and in the south was found a continuation of it south of Kunigal-Nelligere road. It consists of a great bulk of rock with about 50 per cent of iron, and as it is very thick and situated within 45 miles of Sivasamudram, the conditions appear favorable to the establishment of a steel industry. The quartz reefs in this area all show gold, the rocks of the new belt being similar to those of Kolar. Preliminary Geological Survey of Kunigal and portions of Mandya and Malvalli Taluks was also conducted with a view to locating bodies of iron-ore and a very large mass of it was discovered. A large area in the north of Chitaldurg was mapped with great detail. The survey of Shimoga District commenced last year, was continued to the Kadur District. The manganese ores of the Shimoga District were worked and the licensees have already collected more than 5,000 tons of the ore. They are now met with the difficulty of finding sufficient carrying power to transport the collection, and are contemplating to have a steam tramway for a distance of 18 miles from the Shimoga Railway Station to the mineral tract. Numerous short excursions in connection with building stones, mica, corundum and green quartzite were made and their occurrence located. The entire lateritic area in Bangalore and Kolar Districts was examined and mapped, and some analyses are being made to see whether the percentage of aluminium is sufficiently large to be of economic importance.

The total number of assays and analyses of minerals and rock specimens, etc., made in the Chemical Laboratory was 88 as against 56 and numerous microscopical examinations were also made of the various specimens previously collected by the officers of the department.

Public Works.

The total expenditure amounted to Rs. 62,11,500, of which about Rs. 18,00,000 was on irrigation works, about Rs. 32,00,000 on Civil Works, and about Rs. 12,00,000 on Cauvery Power Scheme.

The restorations of breached tanks in the Kolar Division which were in progress were practically completed during the year, with the exception of those of the terminal Ramasagara tank and a few others which are now in rapid progress.

On the Marikanave Project the main dam at Marikanave was raised from R. L. 109·40 to R. L. 135·00. The water level in the reservoir is now at R. L. 84·00. The subsidiary anicut at Katrikenahalli was practically completed and there was good progress on the channels therefrom. The outlay during the year was Rs. 3,75,000.

The reconstruction of the Hemagiri anicut in the Krishnarajapete Taluk was sanctioned at an estimated cost of Rs. 97,000, and the dam was raised to full height in one working season, and water given for irrigation this year. The work was done by task work agency at low rates and a saving of Rs. 39,000 was effected on the estimated cost.

The reconstruction of the Chikdevarayasagara anicut in the Mysore District was practically completed. The other works including civil buildings and communications mentioned in my previous addresses made satisfactory progress, and require no special mention.

Referring to Famine Protective Irrigation Projects, surveys and levels in connection with the two alternative projects for reservoirs on the Nugu river were taken. Three of the projects already completed, *viz.*, of tanks at Thippaganahalli in the Goribidnur Taluk, at Nidsale in the Kunigal Taluk, and at Sowlanga in the Honnali Taluk, estimated to cost in the aggregate Rs. 2,93,586, were sanctioned, the remaining projects being still under scrutiny.

Serial maps and tank registers were completed in the rough for all tanks in the North Pennar and Shimsha basins. In the Vedavathi basin maps were all completely prepared and three-fourths of the number of tanks were inspected. Roughly speaking, it may be stated that till now, maps and registers have been completed for one-half of the State.

The special grant of Rs. 1,00,000 given for restoration of minor tanks was worked out as below :—

District.	*Allotment.*	*Expenditure.*
1. Kolar	Rs. 18,000	Rs. 18,004
2. Hassan	15,000	13,259
3. Tumkur	15,000	16,479
4. Mysore	10,000	8,068
5. Chitaldrug	10,000	6,550
6. Bangalore	15,000	5,254
7. Kadur	7,000	3,097
8. Shimoga	10,000	36
	1,00,000	64,747

You will observe that in the Kolar District the Deputy Commissioner Mr. Puttanna Chetty was most successful in securing the hearty co-operation of the raiyats and working out the whole of the allotment. The result is doubtless very satisfactory. In the Hassan and Tumkur Districts also the operations may be said to be encouraging.

In the Bangalore, Chitaldrug and Kadur Districts, there existed much scope for improvement. In the Shimoga District the operations were a complete disappointment. This allotment has again been repeated this year, and I trust, gentlemen, that there will be no lack of effort on your part to induce the people concerned to come forward early and obtain the full benefit of the gracious concession of His Highness the Maharaja.

The supply of water to the Kolar Gold Field from the Bethamangala Tank was commenced in January last, but the quantity given hitherto was only half of that stipulated for. From this month, however, the full supply of one million gallons per day is being given.

The Electric Lighting Scheme for the Bangalore City having been completed, the inaugural ceremony was performed by the Hon'ble Mr. Hewett, Member of the Viceroy's Council in charge of the Department of Commerce and Industry on the 3rd August last. You will be glad to hear that the Hon'ble gentleman who believed that Bangalore was the first city in India to be lighted by electricity, highly complimented His Highness' Government for "the far-seeing intelligence and wisdom" which as he said, "have marked the administration of the Mysore State." I need not say that it should be our endeavour to continue to deserve this compliment by further developments of our natural resources.

It is gratifying to note that other industries also have begun to utilize electric power for their purposes. Among these may be mentioned the Bangalore Woollen Cotton and Silk Mills Company and Mr. Haji Ismail Sait's Saw Mill at the Gold Field.

Railways.

The percentage of working expenses to gross earnings was 65·7 against 60·80. The net earnings amounted to Rs. 8,07,093 as against Rs. 8,52,795. The percentages of net earnings after deduction of expenditure to capital outlay work out as follows:—

	1903-04	1904-05
Mysore-Harihar	3·74	3·35
Bangalore-Hindupur	4·88	5·75
Mysore-Nanjangud	2·21	2·14
Birur-Shimoga	1·10	1·03
Gold Field Railway	6·96	6·39

The percentage of net earnings on all the Railways to capital outlay was 3·49 against 3·71. But if account is taken of the payment of ¼th share of divisible profits payable to the Southern Mahratta Railway for their manage-

ment, and of interest on the sterling loan of £1,200,000 raised in England, the result will be an excess charge during the year of Rs. 3,02,349 on the general revenues of the State against Rs. 2,55,256 of the previous year.

Detailed plans and estimates for constructing the Bangalore-Chikballapur Light Railway were received from the company, and are now under the consideration of Government. Proposals for constructing a Metre Gauge line to connect the Kolar Gold Field with Marmugao were received from the Agent of the Southern Mahratta Railway, and after consideration Government have authorised him to proceed with the necessary surveys, and to collect traffic statistics for a line from the Kolar Gold Field *via* Kolar town, Vemgal, Jangamkote, Devanhalli and Dodballapur to Dodbele Station. It is under contemplation to make an annual allotment from the State revenue for railway extensions.

Mysore City Improvement.

The Trust Board of Mysore expended Rs. 4,66,470 on various works of improvement. A set of rules for the grant of loans to persons, not being Government servants; to enable them to build houses and make other improvements was framed. The rules provide for the recovery of the loans advanced by quarterly instalments of easy payments, extending up to a maximum period of 10 years. The Stamp duty on documents executed by applicants for loans under these rules has been remitted and the registration fee also reduced. The loans granted during the year amounted to Rs. 5,180. It is expected that the facilities created by these rules will enable the poorer inhabitants of the city to build for themselves suitable houses without having to pay usurious rates of interest, and possibly involving themselves in inextricable debt.

A set of bye-laws relating to the construction of houses was also sanctioned.

Judicial.

The total number of Civil Original and Small Cause suits filed was 9,796 and 8,458 respectively as against 10,190 and 8,567 of the previous year, showing a decline of 2·6 per cent. The total number disposed of were :— Regular 10,034, Small Cause 8,603, total 18,637 against 18,757, being slightly more than the number filed, though less than the disposals of the previous year.

The total number of regular and second appeals filed was 1,096 and the number pending was 993. The number disposed of was more than the number filed, being 1,311 against 1,186.

The Chief Court Regulation was amended in order to make it clear that a single Judge could deal with cases in

which there were applications for revision by the parties as well as with those initiated by the court itself.

Two second Additional Munsiffs' Courts were temporarily established, one at Bangalore and the other at Mysore, with jurisdiction concurrent with the Principal and Additional Munsiffs of those places, in order to relieve the congestion of work in their courts.

The Civil jurisdiction over the taluk of Mulbagal was transferred for the convenience of the people of that taluk from the Munsiff's Court of Kolar Gold Fields to that of Kolar. Experience also showed that a Sub-Judge's Court was more needed at Shimoga than at Chitaldrug to assist the District Judge, the transfer of appeals to the Sub-Judges of Chitaldrug and Chikmagalur being attended with much inconvenience, delay and expense. The people of Davangere Taluk also had been put to inconvenience as they had to cross the Tungabhadra river to attend the Munsiff's Court at Honnali. The Sub-Court at Chitaldrug was therefore transferred to Shimoga with original Civil jurisdiction over the Districts of Shimoga and Chitaldrug and with reduced Small Cause jurisdiction up to Rs. 100 and the Munsiff's Court at Honnali took the place of the Sub-Court at Chitaldrug. The Sub-Judge at Shimoga was also invested with the powers of an Assistant Sessions Judge as a tentative measure, his jurisdiction being confined to the Shimoga District.

The Central Nazirs and their establishments were placed under the direct control of the District Judges and other improvements in their working were effected.

The number of heinous and ordinary offences that came up before the Courts and the number of persons involved were 12,243 and 25,554 respectively, as against 11,009 and 22,638, showing an increased percentage of 11·20 in offences and 12·88 in persons.

Police.

The number of cases reported to the Police was 5,600 as against 5,211 or 7·4 per cent more than in the previous year. The increase was mostly under minor offences against property and under the Arms Act, Village Police Rules, etc. The constant evacuation of villages on account of plague also afforded facility for this increase. A few dacoities occurred in the Mysore District, but the prompt preventive measures adopted were effective in checking the crime from spreading.

The whole of the Special Reserve Police was concentrated at Bangalore instead of being scattered at five different places, as hitherto. Detachments will be sent to Mysore, Shimoga and Kolar Gold Fields periodically

and to other districts as occasion arises. The new scheme is expected to secure increased efficiency of the force.

The absence of a proper prosecuting agency before Magistrates having been much felt, 8 prosecuting Inspectors, one for each district, were appointed.

A scheme for the re-arrangement of the Police force in the Shimoga District, was also lately sanctioned. The main features of this scheme are an increase in the number of investigating centres, and a better redistribution of the men. It has been ruled that no officer drawing less than Rs. 20 a month should be placed in charge of an investigating centre or empowered to investigate cognizable crimes,—a reform on which the Police Commission in British India have laid much stress.

Registration.

The total number of documents registered was 59,989 against 56,900 in the year previous.

Some additional duties were entrusted to Sub-Registrars during the year, such as charge of lock-ups, and inspection of Agricultural Banks and Joint Stock Companies. They were also made members of Municipal and Taluk Boards.

The free minimum of 300 words was abolished and a reduced uniform charge of two annas per 100 words ordered to be levied. The fee for the retention of documents was reduced from one rupee to eight annas. This reform is the result of the representations made by the members of this Assembly.

Education.

Last year I referred to a slight fall that had taken place in the number of pupils attending schools, and said that the decline did not appear to be due to any permanent causes. I am now glad to say that this belief has been confirmed by the rise in the strength of the schools which we notice. The percentage of boys at school to boys of school-going age rose from 21·28 to 22·68 and that of girls from 4·05 to 4·31. The number of all institutions increased and the rise in their strength shows that the revised scale of fees brought into force from January 1904 has not had any discouraging effect on the growth of education.

The Shimoga College was reduced to the status of a High School from January of this year. The F. A. classes were small and the students who were not all of the Shimoga District, could obtain superior education in the First Grade Colleges of Bangalore and Mysore, which are

now within easy reach and have excellent hostels. To lessen any possible hardship from the change, Government have established ten district scholarships tenable in Bangalore or Mysore to be given to poor students.

The grants-in-aid of the three Mission High Schools of the State were increased to enable the managers to alter the working hours from morning to mid-day, a change which was greatly desired for the efficiency of these schools. The construction of a Students' Home for the Tumkur High School was sanctioned at a cost of Rs. 14,437.

In accordance with the policy to encourage private efforts in the field of education, the Marimallappa's School which hitherto was a Lower Secondary Institution was recognized as a High School and an increased grant given.

The education of widows had till recently been helped by scholarships from the Devaraja Bahadur Fund. To give further encouragement, thirty scholarships, under the direct control of the Education Department, were sanctioned, costing Government Rs. 2,736 a year.

A general educational conference was held at Bangalore for the first time in the month of March last which was attended by some of the distinguished educationists of the State. Many important questions tending to promote the cause of sound education were discussed and the Report of the Conference is now under the consideration of Government.

The Inspecting staff which stood in need of strengthening and improvement was reorganized by the appointment of two Circle Inspectors and of eight additional Assistant Deputy Inspectors. This strengthening of the Staff will, it is hoped, render inspection and control more effective than hitherto, and further improve the state of primary and secondary schools.

Eight Mahomedan boys of respectable families in the State have, as a special case, been granted liberal scholarships tenable in the Mahomedan Anglo-Oriental College at Aligarh, where they are receiving High School or College education.

The question of granting one-fifth of the income from the Damodar Dass Charity Fund which yields annually about Rs. 20,000, for scholarships to Gujarati students was taken up this year; and the Vaisya Sabha of Ahamadabad, the Hon'ble G. K. Parekh of Bombay, and Mr. C. T. Dalal,

Raja Sabha Bhushana, who is now Chief Engineer of Baroda, were consulted, with the result that rules were issued in May last granting annually 11 scholarships varying from Rs. 10 to Rs. 20. Nine of these scholarships are to be given to those studying for the Bombay University Examinations, one to a student studying for Engineering or Agriculture, and one for Medicine. The selection of students is entrusted to a committee of Khadayata gentlemen to be appointed from time to time. The rules for granting post-graduate scholarships out of the remaining four-fifths are under revision. A scholarship of £265 annually for a period of three years has been granted to a Mysore student N. S. Subba Rao, B.A., who had a distinguished University course here, to study for History and Economics Tripos in the Cambridge University, and he very recently left for England.

A scholarship of £100 annually for three years was granted from State Funds to J. V. Karve, son of Mr. V. H. Karve of the Mysore Public Works Department, to study for M.B. and C.M. of the Edinburgh University. While at the University, this student has been asked to devote special attention to practical microscope work in which our staff is said to require strengthening.

In this connection, it will give you pleasure, I hope, to hear that it is settled that the Tata Institute is to be established in Bangalore ere long. His Highness the Maharaja has in consideration of the high usefulness anticipated of the Institute, been pleased to raise the annual grant from Rs. 30,000 to Rs. 50,000.

Muzrai.

The number of local committees appointed to supervise the working of Muzrai institutions was 15. Scales of expenditure were revised in the case of nine institutions, and fixed according to present requirements. Repairs were sanctioned to 104 institutions at a cost of more than Rs. 89,000. A special grant of Rs. 10,000 was sanctioned for the reconstruction of the Annachattram at Agumbi on the road to Udupi, one of the important places of pilgrimage in Southern India. New cash grants were made in favor of two institutions, and laud endowments which had been resumed or attached owing to the disrepaired condition of the buildings were restored in the case of five institutions.

The scale of expenditure in connection with His Highness the Maharaja's charities at Tirupati was improved. The repairs immediately required to the Chattram buildings and to some of the costly paraphernalia offered to the deity by the former Maharajas of Mysore were ordered,

and sanction given for the construction of additional buildings for the accommodation of non-Brahmin Hindu pilgrims.

A grant-in-aid of Rs. 50 per mensem was sanctioned to the Hindu orphanage at Mysore which is under the management of some of the leading men of the city.

Medical and Sanitary.

The total number of patients treated was 1,165,610 as against 1,131,250 of last year, showing an increase of 34,360 patients. The number of midwives who were at work was 115 as against 93. The total number of cases performed by the vaccinators in the State was 70,393 against 57,376 in the year previous.

The total number of births was less by 4,991 and the total mortality showed a satisfactory diminution of 11,893. While there was an increase in the number of deaths from cholera and small-pox, 445 and 2,170 respectively, the decrease in the number of deaths from fever was no less than 7,597. The number of plague cases and deaths diminished from 26,851 and 19,972 to 24,375, and 17,503, respectively.

The Railway Stations at Mysore and Bowringpet were continued as Inspection Stations.

The rat tribe being considered as the principal agency for disseminating plague, special measures were adopted for their extirpation in Mysore.

A special contact camp was constructed on the Kolar Gold Fields for the use of Europeans and Eurasians.

General sanitation which is known to be the foremost preventive and remedial measure to be resorted to in combating plague and which is also so essential to the growth and health of human life, engaged the earnest consideration of Government. Each District has now a Medical and Sanitary Officer. A Personal Assistant has also been appointed to help the Sanitary Commissioner. A special sanitary staff, having professional training, has been ordered to be employed. In the Municipal cities of Bangalore and Mysore there are to be a Chief Inspector and four or five Sanitary Inspectors. In other Municipal towns, if the population exceeds 5,000, there are to be a Sanitary and an Assistant Sanitary Inspector; if below 5,000, there is to be a Sanitary or an Assistant Sanitary Inspector. The District Medical and Sanitary Officers of Mysore and Bangalore are to be the Sanitary Officers of the respective Municipalities. In every other Municipal town where there is a

Medical Officer located, he is to be the Sanitary Officer. Every Taluk Board is also to employ a Sanitary Inspector. The Inspectors and Assistant Inspectors before appointment should have passed at least the Matriculation examination and undergone training in Sanitation and Engineering. A number of men are already under training in the King Institute at Madras.

Conclusion.

Before concluding, I am commanded by His Highness the Maharaja to announce to you the happy news of the gracious acceptance by Their Royal Highnesses the Prince and Princess of Wales of His Highness' invitation to honor this State with a visit. This is the first time that Mysore will have the proud privilege and satisfaction of welcoming the Heir-apparent to the British Throne and his royal consort. Their Royal Highnesses are expected to arrive towards the end of January next and spend about ten days here. His Majesty the King-Emperor has, by according his gracious sanction to this visit, given us a signal proof of his love to Mysore and its people. We cannot be too grateful for these acts of great condescension. The British Throne, as you know, gentlemen, is the symbol of unity and progress for the Empire, and His Highness the Maharaja is sure that, while in the cordiality of welcome, Mysore will be second to none, it will always occupy a foremost place in the sincerity and intensity of its loyalty to that imperial Throne.

P. N. KRISHNA MURTI,
Dewan of Mysore.

EMIGRATION.

Clause (*m*) of Section 3 of the Australian Immigration Restriction Act, 1901, exempts from the category of "prohibited immigrants" a wife accompanying her husband, if he is not a prohibited immigrant, and all children apparently under the age of eighteen years accompanying their father or mother, if the father or mother is not a prohibited immigrant; but it is provided that these exemptions shall not apply if suspended by proclamation. The Government of India have now been informed that the Government of the Commonwealth have, by a proclamation issued on the 28th March 1903, suspended the operation of the clause. The admission into the Commonwealth of the wives and children of Indians who have acquired an Australian domicile, is therefore, under the operation of this proclamation, prohibited unless these persons do not themselves fall within the category of "prohibited immigrants."

The sale will commence at 11 A.M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case, to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tender the full amount of the arrears of revenue with the interest and other charges, before the property is knocked down, or give satisfactory proof that the amount of arrears, etc., has been paid up, or furnish security under Section 170 of the Mysore Land Revenue Code.

7. Purchaser having completed the payment of the purchase money, will, as soon as the sale has been confirmed, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale, signed and sealed by the Deputy Commissioner, will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

8. Provided, parties deeming themselves aggrieved by the sale, shall be at liberty to appeal to the Government within ninety days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

(151-05), dated 5th September 1905, forwarding for the opinion of the Board, a copy of letter No. 4627, dated 19th August 1905, from the First Assistant to the Resident, about the Madras Railway Company offering a lump sum of Rs. 1,600, including all Municipal taxes on their buildings at the Bangalore City Station for a period of ten years.

Resolved that a lump sum of Rs. 2,000 made up of lighting and water rates and house-tax will be the fair amount to be paid to this Board annually for a period of ten years, commencing from 1st July 1904. This sum does not include the actual conservancy charges. The memorandum of the President on this subject will be forwarded to the Government with this resolution.

3. Read the General and Revenue Secretary's docket No. 1958—Ml. (140-05)-2, dated the 25th August 1905, calling for further opinion of the Board regarding the proposed remission of Rs. 324, being the arrears of taxes on the Medical Officer's quarters in St. Martha's Hospital.

Proposed by Mr. Krishna Murti that in the light of the information furnished by the Collector, there does not seem to be any written demand made on the Lady Superior prior to 1903-04; but this omission will not entitle the Lady Superior to withhold the taxes, especially considering she was formerly paying these taxes. The Board resolves therefore that the remission of Rs. 324 ought not to be granted.

Seconded by Mr. Appajiah.

The proposition was put to the vote.

NOTICE.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

Charges of private advertisements must be forwarded to this office.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

Explanatory Memorandum on the Annual Agricultural Statistical Returns A to E and instructions for compiling them. (Vide Government Proceedings No. 3473-80—R. 1100, dated 6th October 1897, No. 8108-15—R. 2657, dated 3rd March 1898, No. 7601-615—R. F. 46-97-98, dated 24th April 1899, and No. 4574-83—R. 1451, dated 22nd December 1899.)

—:o:—

These Statistical Tables are based upon returns compiled in the forms annexed talukvar for the whole district, in each district Office from data furnished by Amildars in their annual Jamabandi and other accounts.

2. They relate to the Revenue year ending on 30th June, and are submitted by each Deputy Commissioner on or before the 15th August following.

3. *Table A.*—Table A consists of four sections. Section 1 gives the total area of each taluk, the areas for which statistics are and those for which they are not available being distinguished.

4. *Table A, Section* 1.—Column 2 shows the gross area as ascertained by the Survey and Settlement Department. The figures were communicated to Deputy Commissioners in Government Proceedings of 28th January and 4th and 28th December 1896 and are subject to correction of course according as errors are discovered in resurveys of tracts.

Column 3 shows the survey areas of alienated tracts (such as jahgir, jodi, sarvamanyam and kayamgutta villages) for which the statistics required for the other sections of the table are not at present forthcoming in whole or in part. As surveys extend and the organization of village statistical establishments develops, the area in this column is reduced and that in Column 4 correspondingly increased.

Column 4 gives the remainder which is dealt with in the other sections of Table A and includes the area of State Forests and Plantations.

5. *Table A, Section* 2.—The first part of this section deals with the classification of the area shown in the last column of Section 1 and gives the areas—

(*a*) withdrawn from cultivation by inclusion in forests or for some other reason (Columns 2 and 3)—

(*b*) cultivable but not yet taken up (Column 4),

(*c*) land occupied but not under crop during the year (Column 5), and

(*d*) the net area under crops (Column 6), *i. e.*, after deduction of the area cropped more than once in the year.

The total of these five columns will of course equal the figure shown in Column 4 of A-1.

Column 2, "Forest" means any land classified or administered as forest under the Forest Rules, and includes District Forests and State Forests and Plantations separately mapped. Details of these should be invariably noted at foot of the return.

Column 3 includes land absolutely unfit for cultivation, land reserved as pasture (gomal lands and kavals of sorts), public topes and Government plantations, and also all lands covered by buildings, roads, water, &c., or otherwise devoted to uses other than agriculture. When with due sanction any of these areas are made available for cultivation, they should of course be transferred from this column to Columns 5 and 6. The extent of "Pot Kharab" forming part of survey numbers should be included under this column, the same being excluded from Columns 4, 5 and 6.

Column 4 shows the area of assessed unoccupied land.

Columns 5 and 6 show the areas of assessed occupied land not cultivated ("Kabulibanjar)" and cultivated, as will appear in the abstract at foot of the Pahani Account (Village Account Form No. 7). Minor Inams in Government villages are included herein. In Mysore there is no system of fallows properly so called. Column 5 will therefore show land in occupation kept uncultivated from whatever cause.

Columns 8 to 12 show only the actual area of irrigated land, areas (if any) cropped more than once being reckoned but once.

Columns 14 to 17 should contain the actual area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

6. *Table A, Section* 3.—The 3rd Section of Table A, which is based entirely on the Pahani Account (Village Account Form No. 7), shows the gross cultivated area under each crop irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in Column 42. The area dealt with is that shown in Column 6 of Section A—2. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate should be made by the shanbhog either on his own judgment or according to formulæ which may be hereafter prescribed by Government. The areas comprised in this return are the areas actually sown, whether the crop comes to maturity or not. The failure of the crop should affect not its area but its outturn. Where fields owing to the failure of the first sowings have been devoted to other crops, the area sown by the first sowings should be omitted.

The crops to be selected for inclusion in certain heads of this table are as follows:—

9. *Gram* (pulse) should include horse-gram, Bengal-gram, green and black grams.

10. *Other food grains including pulses.*—Same, haraka, navane, avare or ballar, tuvar or togari, tadagani or alasandi, &c.

15. *Others* (*Oil seeds*).—Castor oil-seeds, inferior sessamum (hutchellu), ground-nut or nelakadalekayi, honge, ippe, &c

17. *Condiments and spices.*—Pepper, cardamom, chillies, cummin seeds, coriander seeds ginger, mustards, turmeric, onions, garlic, mentya, &c.

22. *Others* (*Fibres*).—Pundi, Sanabu, &c.

27. *Others* (*Dyes*).—Rangumale, &c.

29. *Coffee* should be both malnad and maidan. The area covered by both mature and immature plants should be entered.

36. *Fodder crops.*—Kaki jola, &c.

37. *Orchards and garden produce.*—Mango, apple, figs, plantain, oranges, pomegranate &c. The area of cocoanut, areca and betel-leaf gardens should also be included.

38. *Miscellaneous food crops.*—Vegetable gardens, potatoes, &c.

39. *Miscellaneous non-food crops.*—Mulberry, &c.

7. *Table A, Section* 4.—This table deals with agricultural stock and is based upon the Khaneshumari Account (Village Account Form No. 11). It should include live-stock in Municipalities for which the Khaneshumari Account should be written up by the shanbhog or a Municipal official. Oxen and buffaloes not old enough for work or to produce young should be treated as "Young stock" in this return.

8. Stock in Municipalities is included since 1896-97.

9. Until 1898-99, Statistics of Live-Stock were collected every year by the shanbhog and patel of each village by inquiry and inspection, as a part of the year's Jamabandi routine. It was decided by the Government Order of the 24th April 1899 to take a quinquennial census and to repeat the figures of such census as statistics for the ensuing four years. There, it was also ordered that results of the first such census taken in June 1899 as nearly as possible simultaneously throughout the State should be adopted for the table of 1898-99. These figures are repeated for the years up to 1903-04.

10. *Table B.*—This is a statement * showing the average for the year of the prices current of certain articles, reports of which are now furnished twice a month.

* Not printed in the present collection.

Section 1 relates to Wholesale prices and Section 2 relates to Retail prices in all the districts of the State.

11. *Section* 1.—As to Section 1 (Wholesale prices)—

(*a*) It should cover the same articles and the prices should be collected fortnightly on the same days and by the same staff as for Section 2 (Retail prices).

(*b*) It need not quote a price for an article which is not a staple article of local trade.

(*c*) It need not quote a price for an article in which transactions have not actually taken place.

(*d*) The wholesale prices should be rendered in terms of rupees for a unit of quantity. They should be those paid for quantities of ten maunds of food stuffs, seeds, grass and straw, for a score of sheep, and for a pair of bullocks, the maund being taken to be the equivalent of 82⅔ lbs.

12. *Section* 2.—As to Section 2 (Retail prices)—

(*a*) The remarks *a*, *b* and *c*, above made in regard to Section 1 are applicable to Section 2 also.

(*b*) The prices quoted should in one column be in terms of seers and chattaks available per rupee (one seer=16 chattaks=80 tolas), and in another column the equivalent value of one seer in annas and pies.

13. *Table* C.—This table indicates the relation between area, population and land revenue or in other words the mean burden of the State assessment on the land assessed to it and on the community at large. The tenure to which this table (for the Mysore State) relates is entirely raiyatwari and the words "area fully assessed" in columns 3 and 4 mean area on which the "survey kamal or standard assessment" is leviable in full except that the area of minor inams will not be included in the figures to be entered in column 3 (*a*) inasmuch as a proportionate deduction cannot be made in the corresponding population.

Column 3 (*a*) represents the area of alienated villages, plus the area of unoccupied assessed waste land in Sirkar villages (head 4 of Table A—2).

Column 3 (*b*) represents the area withdrawn from cultivation and should therefore exhibit the total of the areas shown against headings 2 and 3 of Table A—2.

Column 4 (*a*) exhibits the area of occupied lands (Sirkar and minor inam) in Government villages and should therefore equal "Heading 5 + Heading 6" of Table A—2 (current fallows + net area cropped during the year).

Column 4 (*b*) exhibits the area actually cultivated. The figure under heading 6 of Table A—2 will therefore be repeated here.

Column 5 should exhibit the total realizable Land Revenue including Miscellaneous Land Revenue of the whole district for the year after excluding arrears for past years. The figure to be entered here will therefore be that which represents the fixed demand under these heads plus Miscellaneous Land Revenue and minus remissions under defined rules, and minus also irrigation cess merged in the assessment as shown in the list appended to Government Proceedings No. R. 212, dated 30th July 1894.

Columns 6 *and* 11.—The population according to the most recent decennial census will here be entered until further orders (See Proceedings No. 331-9, dated 6th April 1892) subject of course to such alteration as may be necessitated by alteration in the area of "fully assessed land" by the resumption of alienated villages, or other causes.

Column 7 to be Column 5 divided by Column 6.

Column 8 to be as in Column 5, but Miscellaneous Land Revenue and Land Revenue on alienated villages to be excluded.

Column 9 to be Column 8 divided by Column 4 (*a*).

Column 10 to be Column 8 divided by Column 4 (*b*).

Column 12 to be Column 8 divided by Column 11.

14. *Table* D.—The form prescribed by the Government of India is intended to show the principal varieties of tenure held direct from Government. For Mysore (where the prevailing tenure is raiyatwari and the accounts are kept villagevar), the first four Classes and Classes VII

219

and VIII will be left blank, all raiyatwari holdings will be included in Class V, the heading thereof being altered from "Peasant proprietors paying separately" to "Small holdings held separate and direct from Government (raiyatwari tenure)" and all inams (Jahgirs, whole inam and kayamgutta villages and minor inams in Sirkar villages) will be entered in Class VI. Leaseholders of gold mines will be shown under class IX "Others."

1. (Number of estates) represents practically the number of separate pattas issued or khates recorded in the Land Revenue Register. Two or more estates belonging to the same proprietor, if they are separately recorded in the Revenue Ledgers and form the subjects of separate pattas, will be separately reckoned for this return.

2. (Number of villages) will show the total number of villages (primary, of course) populated and unpopulated, *i. e.*, the areas constituted as villages by the Survey and Settlement Department.

3. *Item* 4.—One proprietor may be reckoned twice or oftener as the owner of two or more estates separately recorded according to the number of pattas held by him.

Item 5½.—Between items 5 and 6 of the Government of India form, an item numbered 5½ should be opened to show "gross assessment." This in the case of raiyatwari lands will be the survey assessment and water-tax, and in the case of alienated lands it will be the combined quit-rent and water-rate (if any) payable to Government: in both cases without deducting remissions and other deductions, if any.

15. *Table E.*—This table is intended to show the number of voluntary and compulsory transfers of ownerships of lands and the area so transferred. By "voluntary transfers" are meant transfers made by actual contract or gift. Transfers by inheritance are not to be taken into account, nor non-permanent transfers such as leases, mortgages, etc. Only permanent transfers (for instance by sale or gift) should be included when the parties concerned apply for and obtain transfer of "Revenue Registry." These voluntary transfers will be entered in Columns 7 to 11 and Columns 17 to 21 (Private contract or gift). On the other hand under heading "By order of Court" Columns 2 to 6 and Columns 12 to 16 are included—

(*a*) changes of registry under decrees of Civil and Revenue Courts whether the decrees were passed on disputes regarding title or by reason of debts incurred by the judgment-debtors, and

(*b*) all cases in which lands are sold for arrears of revenue due to Government and purchased by private parties. Cases in which lands sold for arrears of revenue due to Government are bought in by Government will be excluded from this table.

The particulars contained in Columns 2 to 21 should be entered for each district opposite to details under Column 1 "Class of tenure," *viz.*, (*a*) Revenue paying and (*b*) wholly or partially revenue free.

The information contained in Table E will be entirely based upon that *furnished for each village* in Village Account Form No. 9 (Statement of Increase and Decrease) and its enclosure. In Column 48 of the said village account, "Private transfers" and "Transfers by decrees of Civil Courts" are mixed up. But for the purposes of this return and pending revision of the Village Account forms, these details should be obtained separately by special arrangement.

16. *Appendix I.*—This is intended to contain a brief notice of remarkable variations or discrepancies which require explanation between the figures of the year of report and those of the previous year All differences in excess of ten per cent should (except in cases of ordinary fluctuations in cultivation) be explained. Where general causes sufficiently account for the differences, detailed explanations need not be given.

17. *Appendix II.*—Shows the effect of changes in taluk boundaries and calls for no remarks.

FINANCIAL DEPARTMENT.

Circular No. 2081, *dated* 23*rd October* 1905.

To—All Heads of Departments and Offices and Treasury Officers.

The Abstract Contingent bills of many offices, in the way in which they are prepared at present, do not contain sufficient details to indicate that the charges incurred, for the payment of which money is intended to be drawn from the Treasury, are really of a contingent nature, and are on *bonâ fide* public purpose. It is not till the receipt of the Detailed Contingent bills in support of them that the objectionable nature of some of them is disclosed.

To enable the Treasury to see as far as possible that the money claimed on any Abstract Contingent bill is for authorised public service, and to bring the procedure with regard to the preparation of such bills, into strict conformity with the rules on the subject, the Comptroller has the honour to request all officers drawing Abstract Contingent bills on the Treasury, to classify the charges according to the detailed heads of contingencies, given in the budget estimates of the Department or office concerned. In the case of Departments or offices for which no details are given in the budget, the classification given in Note 2 to Article 80 of the Civil Account Code should be adopted as far as possible. The object of the classification is simply to show that, as stated above, the charges incurred are really of a contingent nature and are on *bonâ fide* public purpose.

The Officers in charge of Treasuries are requested to refuse payments in future on Abstract bills that do not furnish these details.

The Detailed Contingent bills of many offices are not at present received in time. It is therefore requested that the Heads of Offices will see to the punctual submission of this important account in time and thus prevent the Audit Office from having recourse to special measures to enforce their submission.

FINANCIAL DEPARTMENT.

Circular No. 2081, *dated* 23*rd October* 1905.

To—All Heads of Departments and Offices and Treasury Officers.

The Abstract Contingent bills of many offices, in the way in which they are prepared at present, do not contain sufficient details to indicate that the charges incurred, for the payment of which money is intended to be drawn from the Treasury, are really of a contingent nature, and are on *bonâ fide* public purpose. It is not till the receipt of the Detailed Contingent bills in support of them that the objectionable nature of some of them is disclosed.

To enable the Treasury to see as far as possible that the money claimed on any Abstract Contingent bill is for authorised public service, and to bring the procedure with regard to the preparation of such bills, into strict conformity with the rules on the subject, the Comptroller has the honour to request all officers drawing Abstract Contingent bills on the Treasury, to classify the charges according to the detailed heads of contingencies, given in the budget estimates of the Department or office concerned. In the case of Departments or offices for which no details are given in the budget, the classification given in Note 2 to Article 80 of the Civil Account Code should be adopted as far as possible. The object of the classification is simply to show that, as stated above, the charges incurred are really of a contingent nature and are on *bonâ fide* public purpose.

The Officers in charge of Treasuries are requested to refuse payments in future on Abstract bills that do not furnish these details.

The Detailed Contingent bills of many offices are not at present received in time. It is therefore requested that the Heads of Offices will see to the punctual submission of this important account in time and thus prevent the Audit Office from having recourse to special measures to enforce their submission.

N. G. BASU,
Comptroller.

Resolution.—Passed for submission to Government.

II. Read the list of District Fund incomplete works of the Hassan District for the year 1904-05.

Resolution.—Passed with the following observations :—

Well near Chikmallenahalli musafirkhana.—As water in the well has dried up, it is necessary to provide for a revised estimate for deepening it, together with completion of the parapet wall, etc., and the same should be called for, for Government sanction being obtained, the extra cost being met out of the provision of Rs. 225 provided for sinking a well at Chikkadlur, which may be deferred.

Hittalaldahalli well.—As a portion of this well collapsed, it is necessary to provide for a revised estimate, which may be met out of Rs. 888 provided for "incomplete and other works."

Rajansiriyur well.—As there are two contradictory measurements in the bill, dated 21st April 1905, and the subsequent bill prepared by the Work Inspector, D. Krishnappa, the Senior Assistant Commissioner may be requested to have the well work measured in his presence and after recording the explanations of the Amildar (Mr. S. Krishna Iyer) and the previous Work Inspector (Kuppusami Mudaliar) to report the correct measurements of work done by the raiyats and the contractor respectively, with his opinion as to the amount that may be paid to the contractor.

Hirihalli Koppal well.—A revised estimate for Rs. 276 was sanctioned at the last meeting of the Board, the excess of Rs. 34 has to be met from Rs. 888 provided for incomplete and other works.

Resolution.—Recorded.

V. Read Government Proceedings, No. 2180-9—San. (37-05)-3, dated 30th August 1905, ordering that the pay of Sanitary Inspectors employed in the taluks on frontier protection, should be charged one-half to the Plague Funds, so long as they exist, and the other half to the District and Municipal Funds, in equal proportions.

Resolution.—Recorded.

VI. Read Government Proceedings No. 2598-609—San. (70-05)-2, dated 11th September 1905, modifying for a period of six months, the rule requiring that Sanitary Inspectors should pass the Engineering branch before they are employed, provided that the applicants are sent to the Mysore Engineering School for the requisite training instead of to Madras.

Resolution.—Recorded.

The number of patients admitted and discharged was—

Tarikere	... 1,450	1,412
Total	... 3,124	3,071

III. The following Government Orders were read and recorded :—

(1) Government Order No. 12000-12—L. B. (364-04)-2, dated 29th June 1905, requesting the Presidents of District Boards to arrange for the purchase of copies of "Notes on Ancient Sanitation in the Light of Modern Science" by Col. W. G. King, Sanitary Commissioner of Madras, from Mr. L. Ananthier, Manager of the *Arya*, Madras, and to distribute the same among subordinate officers.

(2) Government Proceedings No. 812-20—L. B. (128-04)-8, dated 19th July 1905, confirming the provisional rates fixed for the levy of house-tax in the Village Unions of the Province.

(3) Government Notification No. 2455—L. B. (109-05)-4, dated 1st September 1905, appointing Mr. Hugh Watson, Manager of the Chikmagalur Planters' Supply Company, as a member of the District Board, in place of Mr. C. H. Godfrey, who resigned his seat on the Board.

IV. Read docket No. 653, dated 1st August 1905, from the Secretary to the Government, Muzrai Department, requesting to take necessary action *in re* Subject No. 570 of the Dasara Representative Assembly Proceedings of 1904, requesting that the Annachattram at Tarikere or Benkipur may be transferred to Koppa.

The District Board is of opinion that a rest-house is necessary to accommodate persons that come to Koppa to transact business in the Taluk Cutcherry and as no funds are available, the Government may be requested to sanction the construction of a rest-house for the purpose from the Provincial Funds.

V. Read Kadur Division Executive Engineer's docket No. 207, dated the 2nd August 1905, forwarding a plan and estimate for Rs. 486 for widening the bund of Hirekatur Doddakere tank Registered No. 1127 of the Tarikere Taluk.

As the bund was originally broad enough for carts to pass and as the Public Works Department at the time of restoration reduced the width to six feet, the raiyats of this village and surrounding villages have been prevented from taking the carts on the bund, and as no other road is available, they prayed for the widening of this bund. The Board is of opinion that as the villagers had the right of way over the bund before the tank was repaired, this work should be carried out by the Public Works Department from the Provincial Funds, and the Chief Engineer addressed accordingly.

VI. Read Secretary's docket No. 1388—L. B. (71-05)-1, dated the 8th August 1905, forwarding the representation brought forward at the Representative Assembly of 1904, that a musafirkhana may be erected on Bababuden Hills for the many Hindus that visit the Dattatreya Peeta there, and directing to report about the want of it.

Resolved that the Government be addressed to provide funds from the Muzrai Department as people that visit the place are mostly pilgrims.

VII. Read Secretary's docket No. 1386—L. B. (69-15)-1, dated the 8th August 1905, forwarding for the consideration of the District Board, the representation brought forward at the Representative Assembly of 1904, that a Hindu musafirkhana may be constructed at Solleybyle, Koppa Taluk. Read also Koppa Amildar's report No. 63, dated 26th August 1905, stating that a musafirkhana at Sollebyle is absolutely necessary.

The Board is of opinion that a musafirkhana is absolutely necessary and that Government be addressed to sanction the work from Provincial Funds as per Government Order No. 10705—L. F. 260-96, dated 3rd March 1898.

VIII. Read Secretary's docket No. 2216—L. B. (109-05)-3, dated the 31st August 1905, enquiring if it is not convenient to appoint the Assistant Commissioner in charge of the District Treasury as the Vice-President of the District Board, as this officer will always remain at head-quarters.

The Board elects under the circumstances the Treasury Assistant Commissioner to be the Vice-President.

IX. Read Secretary's docket No. G. 1239—G. R. (2-05)-38, dated the 4th September 1905, forwarding copy of docket No. G. 665, dated the 1st August 1905, addressed to the Chief Engineer, Mysore, and a copy of his reply No. 5645, dated the 26th August 1905, in the matter of the extension of the Bababuden Hill road towards Pandravalli, and requesting to place the matter before the District Board and to communicate their views to Government.

As the extension of the Bababuden Hill road from below Sithalianagiri to join Muthodi on the Chikmagalur-Yedahalli road, will open out several native coffee estates in the Jagar valley, it was resolved to address the Government to sanction the construction of this road from Local Funds General, as was done in the case of the road from Kavikal to Lingadahalli.

X. Read Mudgere Taluk Amildar's report No. 68, dated 14th September 1905, forwarding the proposal of the Mudgere Taluk Board to extend the musafirkhana at Mudgere by building four rooms and stables.

As the extension of the building is very necessary, the Board resolved to address the Executive Engineer to prepare an estimate for the additions approved by the Board and have the work executed from the Provincial Funds.

XI. Read Mudgere Amildar's report No. 66, dated 14th September 1905, stating that the Chikanahalli-Chikmagalur road, if opened, will be found very useful to the public of the Mudgere Taluk.

This is considered very necessary, as it will open up the country between Chikmagalur direct to Saklespur and will be very useful to the planters and villagers of both the Chikmagalur and Mudgere Taluks. Executive Engineer will be asked to prepare an estimate for the same as per tracing furnished by him.

XII. The following subjects which will be represented at the ensuing Dasara Representative Assembly are placed for the opinion of the Board :—

(1) Shanbhog Mr. Kalasappaiya proposes that a midwife for Kalasa be appointed.

The Board is of opinion that there is no necessity for the appointment of a midwife at Kalasa.

(2) Messrs. Sabju Sab and Timmasetti propose that a foot-bridge across the Hemavati near Phalguni be constructed.

The Board is of opinion that this is necessary, but that the work be taken up when funds permit.

(3) Mr. Javali Ganesh Rao proposed that a native kitchen be constructed to the third class travellers' bungalow at Sampigekan on the Kotegehar-Kalasa road.

Resolved that as this bungalow is situated on the Provincial fund road, the work of constructing a native kitchen will have to be carried out from Provincial Funds as the District Board is not at present in a position to provide funds for this work, which is necessary.

XIII. Read letter dated 22nd May 1905, from Mr. Aird of Mallarasangudda, requesting that Government be pleased to grant a new dhoni for the Bhadra crossing at Ambinkodgi as the public are extensively using this crossing.

The Board requires information whether Mr. Aird recovers any fees from the people other than his own estate coolies, and the Amildar also should be asked to furnish information on the subject.

XIV. Read extract of report No. 326, dated the 20th August 1905, from the Amildar, Chikmagalur Taluk, stating that Bilekalhalli is a central place and that crops now on lands and those to be raised are being eaten up by cattle let loose, and therefore requesting that a cattle-pound may be established at Bilekalhalli as the villagers have promised to get up a pound.

The Board is of opinion that this is not necessary as there is a pound at Gungarhalli one mile from this village.

XV. Proposed by the President that the Local Fund Dispensary at Hariharpur may be closed, the number of patients attending the dispensary being only 9·7 per day.

Mr. M. Ganesh Rao represented that the dispensary at Hariharpur was the first of its kind established in the Koppa Taluk as it was then the head-quarters of the taluk. As there are dispensaries at Koppa, Sringeri, Sollebyle, which are only a few miles from this place, the Board is of opinion that it may be removed to Aldur or Balur after ascertaining the relative importance of these two places and necessity for its establishment.

XVI. Read Senior Surgeon's docket No. 1563, dated the 9th September 1905, requesting opinion as to the necessity of keeping the Sakrepatna Dispensary open as the work turned out is not worth the outlay.

The Board is of opinion that as the daily attendance on an average was about 29·9 patients in 1903-04, and 13·08 in 1904-05 and as it is an unhealthy place, the dispensary should not be closed.

XVII. Read Government Order No. 2351-3—L. B. (51-05)-4, dated 5th September 1905, recording the District Board's resolution of 24th September 1897, that the river Sitha in the Baggunji hobli is not of such importance as to require a foot-bridge across it and communicating this resolution to Mr. H. Devar Sastri, who mooted the question at the Dasara Representative Assembly of 1904.

Recorded.

XVIII. Read docket No. 249, dated 20th September 1905, from the Executive Engineer, forwarding a list of District Fund works which stood incomplete at the end of last year, requiring an appropriation of Rs. 864 for their completion during the current year.

Resolved that the lists of incomplete works of the Public Works and Revenue Departments be submitted to Government for sanction, funds being made available for the works in the supplemental budget.

XIX. Read petition dated 10th September 1905 of Gonibid hobli villagers, requesting that the remaining two miles of the Hanbal-Devarunda road be opened.

Resolved that the petition be referred to the Taluk Board for a detailed report as to the necessity of this road.

XX. Proposal of the President to revise the list of members of the "Finance Committee" as only one non-official member and one or two official members were present throughout the year to examine the monthly and periodical accounts.

Resolved that the Treasury Assistant Commissioner, Mr. Watson and Mr. C. Srinivasa Rao be appointed as members of the "Finance Committee."

XXI. Read the consolidated annual accounts of District Funds for the year 1904-05, as prepared by the Finance Committee with a report explaining the causes of difference under the various heads on the lines indicated in Government Order No. 3366-75—L. F. 105-03, dated 5th March 1904, with appendices.

Resolved that the report and accounts be submitted to Government.

XXII. *Resolved* that the next meeting of the District Board be held on Wednesday the 20th December 1905.

BANGALORE, THURSDAY, NOVEMBER 9, 1905.

PART III.

Legislative Measures and Rules thereunder.

No. J. 1260—*Courts* 76-3, *dated 4th November* 1905.

In exercise of the powers conferred by sub-section (3) of Section 565 of the Code of Criminal Procedure, Regulation II of 1904, the Government of His Highness the Maharaja of Mysore are pleased to issue the following rules to carry out the provisions of the said Section relating to the notification of the place of their residence by released convicts :—

1. When an order has been passed under section 565 of the Code of Criminal Procedure, Regulation II of 1904, that a convict shall notify his residence and any change of residence after release for a specified term, the Court or Magistrate passing such order shall attach a copy thereof to the warrant of commitment issued under section 383 of the Code in respect of such convict.

2. A convict in respect of whom such an order has been passed shall, when called upon by the officer in charge of the Jail in which he is confined, state before his release the place at which he intends to reside after his release, naming the village or town and the street therein. Intimation of such place of residence shall be given by the officer in charge of the Jail with the least practicable delay to the Inspector General of Police.

3. After release and on arrival at his residence, the convict shall, within twenty-four hours, notify at the nearest Police Station that he has taken up his residence accordingly.

4. Whenever he intends to change his residence, he shall, not less than two days before making such change, notify his intention at the nearest Police Station, giving the date on which he intends to change his residence and the name of the village or the town and the street in which he intends to reside, and, on arrival at such residence, he shall, within twenty-four hours, notify at the nearest Police Station that he has taken up his residence accordingly.

5. The officer recording a notification under either rule 2 or rule 4 shall appoint such period as may be reasonably necessary to enable the convict to take up his residence in the place notified. If the convict does not take up his residence in such place within the period so appointed, he shall, not later than the day following the expiry of such period, notify his actual place of residence to the officer in charge of the Police Station within the limits of which he is residing.

6. Every notice required to be given by the foregoing rules shall be given by the released convict in person, unless prevented from doing so by illness or other sufficient cause, in which case the notice required shall be sent by letter duly signed by him or by an authorised messenger on his behalf.

7. Whenever the released convict gives any notice required by the foregoing rules, he will be furnished with a certificate to the effect that he has given such notice by the officer to whom he gives it.

8. A copy of the order specified in rule I shall be served on the convict before his release from Jail. A copy of these rules in English and in Kannada shall at the same time be given him, and the substance thereof fully explained to him in a language he understands. He shall also be informed for what period he is bound to observe these rules, and that any neglect or failure to comply with them will render him liable to punishment as if he had committed an offence under section 176 of the Indian Penal Code.

9. If a convict in respect of whom an order has been passed under section 565 of the Code of Criminal Procedure shall have been released from Jail without a copy of the said order having been served upon him, and the other formalities specified in these rules having been complied with, he may at any time while the order remains in force, be called upon by the Police to report himself on a given day at a Police Station near the place where he is found, and on his reporting himself, the copy of the order shall be served on him and the other formalities prescribed in rule 8 shall be complied with.

Note.—In applying the above rules to the case of a wandering man who has no "*residence*" in the sense of a fixed place of abode, they may be reasonably interpreted as meaning that he resides at the place where he sleeps, even if he remains there only one night. On his release he may therefore be asked under rule 2 where he is going to stay, and he may be told that if he moves about the country he must always notify the place of his temporary abode to the Police.

By Order,

B. K. VENKATA VARADA IYENGAR,
Secy. to Govt., Gen. & Rev. Dept.

FINANCIAL DEPARTMENT.

Circular No. 2081, *dated* 23*rd October* 1905.

To—All Heads of Departments and Offices and Treasury Officers.

The Abstract Contingent bills of many offices, in the way in which they are prepared at present, do not contain sufficient details to indicate that the charges incurred, for the payment of which money is intended to be drawn from the Treasury, are really of a contingent nature, and are on *bonâ fide* public purpose. It is not till the receipt of the Detailed Contingent bills in support of them that the objectionable nature of some of them is disclosed.

To enable the Treasury to see as far as possible that the money claimed on any Abstract Contingent bill is for authorised public service, and to bring the procedure with regard to the preparation of such bills, into strict conformity with the rules on the subject, the Comptroller has the honour to request all officers drawing Abstract Contingent bills on the Treasury, to classify the charges according to the detailed heads of contingencies, given in the budget estimates of the Department or office concerned. In the case of Departments or offices for which no details are given in the budget, the classification given in Note 2 to Article 80 of the Civil Account Code should be adopted as far as possible. The object of the classification is simply to show that, as stated above, the charges incurred are really of a contingent nature and are on *bonâ fide* public purpose.

The Officers in charge of Treasuries are requested to refuse payments in future on Abstract bills that do not furnish these details.

The Detailed Contingent bills of many offices are not at present received in time. It is therefore requested that the Heads of Offices will see to the punctual submission of this important account in time and thus prevent the Audit Office from having recourse to special measures to enforce their submission.

N. G. Basu,
Comptroller.

PART III.

Legislative Measures and Rules thereunder.

No. J. 1260—*Courts* 76-3, *dated* 4*th November* 1905.

In exercise of the powers conferred by sub-section (3) of Section 565 of the Code of Criminal Procedure, Regulation II of 1904, the Government of His Highness the Maharaja of Mysore are pleased to issue the following rules to carry out the provisions of the said Section relating to the notification of the place of their residence by released convicts:—

1. When an order has been passed under section 565 of the Code of Criminal Procedure, Regulation II of 1904, that a convict shall notify his residence and any change of residence after release for a specified term, the Court or Magistrate passing such order shall attach a copy thereof to the warrant of commitment issued under section 383 of the Code in respect of such convict.

2. A convict in respect of whom such an order has been passed shall, when called upon by the officer in charge of the Jail in which he is confined, state before his release the place at which he intends to reside after his release, naming the village or town and the street therein. Intimation of such place of residence shall be given by the officer in charge of the Jail with the least practicable delay to the Inspector-General of Police.

3. After release and on arrival at his residence, the convict shall, within twenty-four hours, notify at the nearest Police Station that he has taken up his residence accordingly.

4. Whenever he intends to change his residence, he shall, not less than two days before making such change, notify his intention at the nearest Police Station, giving the date on which he intends to change his residence and the name of the village or the town and the street in which he intends to reside, and, on arrival at such residence, he shall, within twenty-four hours, notify at the nearest Police Station that he has taken up his residence accordingly.

5. The officer recording a notification under either rule 2 or rule 4 shall appoint such period as may be reasonably necessary to enable the convict to take up his residence in the place notified. If the convict does not take up his residence in such place within the period so appointed, he shall, not later than the day following the expiry of such period, notify his actual place of residence to the officer in charge of the Police Station within the limits of which he is residing.

6. Every notice required to be given by the foregoing rules shall be given by the released convict in person, unless prevented from doing so by illness or other sufficient cause, in which case the notice required shall be sent by letter duly signed by him or by an authorised messenger on his behalf.

7. Whenever the released convict gives any notice required by the foregoing rules, he will be furnished with a certificate to the effect that he has given such notice by the officer to whom he gives it.

8. A copy of the order specified in rule I shall be served on the convict before his release from Jail. A copy of these rules in English and in Kannada shall at the same time be given him, and the substance thereof fully explained to him in a language he understands. He shall also be informed for what period he is bound to observe these rules, and that any neglect or failure to comply with them will render him liable to punishment as if he had committed an offence under section 176 of the Indian Penal Code.

9. If a convict in respect of whom an order has been passed under section 565 of the Code of Criminal Procedure shall have been released from Jail without a copy of the said order having been served upon him, and the other formalities specified in these rules having been complied with, he may at any time while the order remains in force, be called upon by the Police to report himself on a given day at a Police Station near the place where he is found, and on his reporting himself, the copy of the order shall be served on him and the other formalities prescribed in rule 8 shall be complied with.

Note.—In applying the above rules to the case of a wandering man who has no "*residence*" in the sense of a fixed place of abode, they may be reasonably interpreted as meaning that he resides at the place where he sleeps, even if he remains there only one night. On his release he may therefore be asked under rule 2 where he is going to stay, and he may be told that if he moves about the country he must always notify the place of his temporary abode to the Police.

By Order,

B. K. VENKATA VARADA IYENGAR,

Secy. to Govt., Gen. & Rev. Dept.

The following Rules for the regulation of water-supply and for house-connections from the water-works of the Chitaldrug town are published for general information :—

I. The supply of water from the Chitaldrug water-works being intended exclusively for *bonâ fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purposes whatsoever.

II. A supply of water for domestic purposes shall not include a supply thereof for any trade, manufacture or business or for fountains or for ornamental or mechanical purposes or for watering gardens or roads.

III. Water which has been used for washing, bathing or other domestic purposes may be collected and used for gardening or other non-domestic purposes.

IV. The water may, however, be used for purposes prohibited, with the special permission of the Municipal President.

V. Until further orders, private connections to houses will be limited to houses whose value is ordinarily Rs. 300 and upwards and to localities where the capacity and pressure of the public water-mains permit of such connections being made without detriment to the street service. On the latter point, the opinion of the Executive Engineer shall be final.

VI. All pipes, taps and other works required for a house-connection, shall be of such dimensions, character and material as the Municipality may approve, the pipe not exceeding half an inch in diameter, and they shall always be under the control of the Municipality and shall in no case be interfered with by any others. They shall be supplied, renewed or repaired by the Municipality.

VII. The cost of all pipes and taps and works required for a house-connection shall be borne by the house-holder applying for or desiring the connection, who shall pay in advance the estimated cost. The whole cost should be fully paid for before the house-connection is permitted to be used. All subsequent repairs to such pipes, taps and other works shall be executed at the cost of the householder.

VIII. The Municipal Board shall determine the size of each house-connection with due regard to the capacity and pressure of the public water-mains.

IX. The house-connection in any case is liable to be stopped or the supply reduced by the Municipality, without assigning any reason. When stoppage is due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances will be given by the Municipality. If the Municipality has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, such connection shall be liable to be stopped forthwith under this rule.

X. Every householder possessing a house-connection shall pay a tax of eight annas per mensem and deposit with the Municipality the amount of such tax for twelve months in advance.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case, to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on their behalf or claiming an interest in the land, tender the full amount of the arrears of revenue with the interest and other charges, before the property is knocked down, or give satisfactory proof that the amount of arrears, etc., has been paid up, or furnish security under Section 170 of the Mysore Land Revenue Code.

7. Purchaser having completed the payment of the purchase money, will, as soon as the sale has been confirmed, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale, signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

PART III.

Legislative Measures and Rules thereunder.

No. J. 1260—*Courts* 76-3, *dated* 4*th November* 1905.

In exercise of the powers conferred by sub-section (3) of Section 565 of the Code of Criminal Procedure, Regulation II of 1904, the Government of His Highness the Maharaja of Mysore are pleased to issue the following rules to carry out the provisions of the said Section relating to the notification of the place of their residence by released convicts :—

1. When an order has been passed under section 565 of the Code of Criminal Procedure, Regulation II of 1904, that a convict shall notify his residence and any change of residence after release for a specified term, the Court or Magistrate passing such order shall attach a copy thereof to the warrant of commitment issued under section 383 of the Code in respect of such convict.

2. A convict in respect of whom such an order has been passed shall, when called upon by the officer in charge of the Jail in which he is confined, state before his release the place at which he intends to reside after his release, naming the village or town and the street therein. Intimation of such place of residence shall be given by the officer in charge of the Jail with the least practicable delay to the Inspector-General of Police.

3. After release and on arrival at his residence, the convict shall, within twenty-four hours, notify at the nearest Police Station that he has taken up his residence accordingly.

4. Whenever he intends to change his residence, he shall, not less than two days before making such change, notify his intention at the nearest Police Station, giving the date on which he intends to change his residence and the name of the village or the town and the street in which he intends to reside, and, on arrival at such residence, he shall, within twenty-four hours, notify at the nearest Police Station that he has taken up his residence accordingly.

5. The officer recording a notification under either rule 2 or rule 4 shall appoint such period as may be reasonably necessary to enable the convict to take up his residence in the place notified. If the convict does not take up his residence in such place within the period so appointed, he shall, not later than the day following the expiry of such period, notify his actual place of residence to the officer in charge of the Police Station within the limits of which he is residing.

6. Every notice required to be given by the foregoing rules shall be given by the released convict in person, unless prevented from doing so by illness or other sufficient cause, in which case the notice required shall be sent by letter duly signed by him or by an authorised messenger on his behalf.

7. Whenever the released convict gives any notice required by the foregoing rules, he will be furnished with a certificate to the effect that he has given such notice by the officer to whom he gives it.

8. A copy of the order specified in rule I shall be served on the convict before his release from Jail. A copy of these rules in English and in Kannada shall at the same time be given him, and the substance thereof fully explained to him in a language he understands. He shall also be informed for what period he is bound to observe these rules, and that any neglect or failure to comply with them will render him liable to punishment as if he had committed an offence under section 176 of the Indian Penal Code.

9. If a convict in respect of whom an order has been passed under section 565 of the Code of Criminal Procedure shall have been released from Jail without a copy of the said order having been served upon him, and the other formalities specified in these rules having been complied with, he may at any time while the order remains in force, be called upon by the Police to report himself on a given day at a Police Station near the place where he is found, and on his reporting himself, the copy of the order shall be served on him and the other formalities prescribed in rule 8 shall be complied with.

Note.—In applying the above rules to the case of a wandering man who has no "*residence*" in the sense of a fixed place of abode, they may be reasonably interpreted as meaning that he resides at the place where he sleeps, even if he remains there only one night. On his release he may therefore be asked under rule 2 where he is going to stay, and he may be told that if he moves about the country he must always notify the place of his temporary abode to the Police.

No. Fl. 3116--*B.* 3-05, *dated* 15*th November* 1905.

In exercise of the powers conferred by Section 9 of the Mysore Stamp Regulation of 1900, it is hereby notified that the Government of His Highness the Maharaja of Mysore have been pleased to remit stamp duty on the fresh bonds to be executed in favor of Government, by the members of the late Agricultural Banks at Sakiespur and Chikmagalur.

The following Rules for the regulation of water-supply and for house-connections from the water-works of the Chitaldrug town are published for general information :—

I. The supply of water from the Chitaldrug water-works being intended exclusively for *bonâ fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purposes whatsoever.

II. A supply of water for domestic purposes shall not include a supply thereof for any trade, manufacture or business or for fountains or for ornamental or mechanical purposes or for watering gardens or roads.

III. Water which has been used for washing, bathing or other domestic purposes may be collected and used for gardening or other non-domestic purposes.

IV. The water may, however, be used for purposes prohibited, with the special permission of the Municipal President.

V. Until further orders, private connections to houses will be limited to houses whose value is ordinarily Rs. 300 and upwards and to localities where the capacity and pressure of the public water-mains permit of such connections being made without detriment to the street service. On the latter point, the opinion of the Executive Engineer shall be final.

VI. All pipes, taps and other works required for a house-connection shall be of such dimensions, character and material as the Municipality may approve, the pipe not exceeding half an inch in diameter, and they shall always be under the control of the Municipality and shall in no case be interfered with by any others. They shall be supplied, renewed or repaired by the Municipality.

VII. The cost of all pipes and taps and works required for a house-connection shall be borne by the house-holder applying for or desiring the connection, who shall pay in advance the estimated cost. The whole cost should be fully paid for before the house-connection is permitted to be used. All subsequent repairs to such pipes, taps and other works shall be executed at the cost of the house-holder.

VIII. The Municipal Board shall determine the size of each house-connection with due regard to the capacity and pressure of the public water-mains.

IX. The house-connection in any case is liable to be stopped or the supply reduced by the Municipality, without assigning any reason. When stoppage is due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances will be given by the Municipality. If the Municipality has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, such connection shall be liable to be stopped forthwith under this rule.

X. Every house-holder possessing a house-connection shall pay a tax of eight annas per mensem and deposit with the Municipality the amount of such tax for twelve months in advance.

XI. The Government reserves to itself the power, whenever it deems fit, to alter or modify the foregoing rules or to abolish altogether the system of house-connections to be established hereunder.

XII. Every house-connection shall be regarded as established subject to the conditions and regulations contained in the rules as above, or as they may be altered or modified for the time being by order of Government.

XIII. No water-cart shall be allowed to take water from a public fountain, except at such places as may be specially set apart by the Municipality for that purpose. The Municipality shall cause notice-boards to be put up at particular fountains, indicating that water-carts are allowed to take water therefrom.

GOVT. OF H. H. THE MAHARAJA OF MYSORE, GENL. AND REV. SECRETARIAT,

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Referred Case No. 7 of 1903-04.

Petitioners. { 1. Subbaiya, patel.
2. Venkataramaiya, shanbhog of Jodi Devarayasamudra village, Mulbagal Taluk

Subject.

Claim for enhancement of their remuneration in accordance with the scale fixed for Government villages.

Facts of the case.

In May 1903 the petitioners complained to Government of the inadequate remuneration fixed by the jodidars for their services as patel and shanbhog respectively of the said jodi village and prayed for the enhancement of the remuneration as per scale in Government villages. After some correspondence the Deputy Commissioner, in his letter No. 1114, dated the 27th February 1904, to the Revenue Commissioner, reported that the village was a large one and that the remuneration of Rs. 30 now fixed for the patel by the jodidars was inadequate and recommended that, as a special case, the jodidars might be compelled to pay the same percentage of remuneration to the patel as in Government villages. The Revenue Commissioner, in forwarding the above letter for the orders of Government, observes that he does not see his way to approve of the Deputy Commissioner's recommendation on the ground that as the jodi village has not undergone a detailed survey and settlement, he is aware of no orders justifying such interference by Government.

Decision.

The petitioners are the patel and shanbhog respectively of an unsettled jodi village. They are not entitled to ask Government to compel the jodidars to pay them remuneration at the rates fixed for settled villages. That being so, they have no case at all. Their petition are accordingly rejected.

No. R. 2368—Mis. 273-03-7, dated Bangalore, 15th September 1904.

Copy of the above is forwarded to the Revenue Commissioner in Mysore, together with the original papers received with his letters Nos. 7894 and 8257, dated the 8th June and the 17th June 1904, respectively.

Appeal No. 121 of 1903-04.

Appellant		*Respondent*
Naranappa	*Versus*	Seshappa.

Subject.

Appeal against the decree of the Deputy Commissioner of the Bangalore District, dismissing the appellant's suit for the registry of his name as shanbhog of the Virupakshipura village in the Channapatna Taluk, on the ground that he was illiterate and hence debarred from being appointed.

Facts of the case.

Banaiya and after him, his eldest son Surappa were the registered shanbhogs of the village in question. The latter was succeeded by his son, Subbaiya, who, it is said, was not attending to the duties himself and that Naranappa and after him his brother Seshappa the respondent, both sons of Bhaskaraiya, the third son of Banaiya, looked after the duties as gumastas of Subbaiya. In 1887, the respondent was removed from the office of gumasta on account of certain irregularities, and the appellant who is the son of Subbaiya was permitted to look after the work which he conducted till 1892, with the help of a gumasta, being himself illiterate knowing only how to sign his name. As it was, however, found necessary in the public interests, to appoint a competent person for the office instead of the appellant, correspondence ensued, of which respondent took advantage and tried to be re-instated as gumasta, but the Sub-Division Officer in May 1893 declined to allow him to do the work having been dismissed previously. The Deputy Commissioner affirmed this order. On the appeal of the respondent, the Government in their Proceedings No. 24773—P. 1911, dated the 25th June 1895, ordered that if the registered shanbhog (Subbaiya) was unable to discharge the duties himself and his son the appellant was disqualified to hold the office, the Deputy Commissioner should appoint the next heir-in-law competent to hold the office, taking into consideration also the claim of the respondent set upon the score of his belonging to the family of the barawarddar shanbhog Subbaiya. The Sub-Division Officer thereupon recommended the appointment of the respondent to the shanbhogi in question on the ground that the barawarddar shanbhog was old and his son the appellant was illiterate and the Deputy Commissioner approved of it in June 1896. The appellant thereupon filed a regular suit for the registry of the shanbhogi office in his name. Both the

Assistant Commissioner and the Deputy Commissioner rejected the suit on the ground that he was illiterate and hence unfit to hold the office. Hence the present appeal to Government.

The appellant urged at the time of hearing that he had an adopted son and the Deputy Commissioner with his report dated the 12th August 1904, submits the finding of the Assistant Commissioner that the appellant has an adopted son, Seshappa, now a minor.

Decision.

The office in question belonged to Banaiya's eldest son Surappa, from whom it descended to his son Subbaiya. Owing to the latter being illiterate his uncle's son Seshappa the respondent was doing the duties of the office for a few years. Seshappa was removed from the gumastaship in 1887 on account of certain irregularities and Subbaiya's son the appellant was allowed to look after the duties which he did with the help of a gumasta. Subbaiya having subsequently died, his son Naranappa, the appellant, now claims the office. The respondent opposes the claim chiefly on the strength of the Government order of the 25th June 1895. But that order did not amount to a condonation of his past shortcomings or a declaration of his title or eligibility. It would appear that the appellant Naranappa is illiterate. He cannot therefore be appointed to the office. That disqualification does not however extend to his legal heirs as well. It has been found on overwhelming evidence of reliable character, both oral and documentary, that the appellant has a minor adopted son named Seshappa aged thirteen years. Government do not see how this lad can be postponed to the respondent. Under these circumstances, the Deputy Commissioner's order is reversed and minor Seshappa appointed to the office. A competent gumasta should be appointed in trust for him during his minority.

No. R. 2668—*Mis.* 265-03-11, *dated Bangalore, 24th September* 1904.

Copy of the above is forwarded to the Deputy Commissioner, Bangalore District, together with the vernacular records received with his letter No. 113, dated the 12th August 1904.

Appeal No. 14 *of* 1903-04.

Appellants		*Respondents*
Sitaramaiya and sixteen other vrittidars of Gonibid Agrahar, Mudgere Taluk	*Versus.*	1. Kasaiya (patel). 2. Ramanna (shanbhog) (also vrittidars).

Subject.

Appeal against the order of the Deputy Commissioner of the Kadur District, declining to set aside the sale of the entire Gonibid Agrahar in the Mudgere Taluk, held for arrears of jodi due by some of the vrittidars of the said Agrahar.

The facts of the case appear sufficiently from the following :—

Decision.

The Agrahar in question consists of forty-nine vrittis. To the Inam title-deed relating to it is attached a schedule showing the distribution of the vrittis and the amount of quit-rent payable by each of the vrittidars. The respondents admit that the lands too have, for the most part, been divided between the vrittidars concerned. On certain previous occasions the vrittis of the defaulting vrittidars were separately proceeded against for the arrears due by them. The Baki pattis, khate and other papers in the file show that there has never been any doubt in regard to the severality of the liabilities of the vrittidars. On the present occasion some of the vrittidars requested that in accordance with precedent, proceedings be taken only against the shares of the persons who had fallen into arrear. This request was, however, refused and the whole Agrahar sold "*en bloc.*" There was a paucity of bidders and the respondents who are themselves two of the vrittidars purchased the Agrahar for much below its estimated value. Hence this appeal by some of the other vrittidars prejudicially affected by the sale. This, in the opinion of Government, is a case in which "the shares have already been separately registered as vrittis." It therefore falls under the latter portion of clause (*c*) of Rule 99 of the Land Revenue Rules, even should there be any doubt as to its coming within the purview of the first portion of it. The shares of the defaulters should have been first sold as laid down in that rule. The sale of the entire Agrahar was opposed to rules and cannot be upheld. In reversal of the Deputy Commissioner's order that sale is set aside and fresh action directed to be taken in accordance with law.

No. R. 2719—*Mis.* 117-03-16, *dated Bangalore, 24th September* 1904.

Copy of the above is forwarded to the Deputy Commissioner of the Kadur District, together with the vernacular records received with his letter Nos. 460, 468 and 59, dated the 4th April, the 8th April and the 3rd August 1904, respectively.

Appeal No. 161 *of* 1903-04.

Appellant		*Respondents*
Kaveramma	*Versus*	1. Venkatalakshmamma. 2. Venkatasubbaiya.

Subject.

Claim to the shanbhogi office of Hosaholalu, Krishnarajpete Taluk.

The facts of the case appear sufficiently from the following :—

Decision.

Ramaiya, the registered shanbhog of the Hosaholalu village, died in 1877 without issue. His widow Kaveramma is the present appellant. Subramannaiya, Ramaiya's cousin (uncle's son) succeeded to the office but was dismissed in 1884. The appellant was appointed in his place in 1887. It was subsequently brought to notice that she had by her bad character become an outcaste and the Deputy Commissioner held that she had in consequence forfeited the hak to the shanbhogi office and he accordingly removed her name from the baraward. Rule XLIII of the Land Revenue Rules of 1890, relied upon by the Deputy Commissioner, is not applicable to the case in question inasmuch as her bad character at the time of succession disqualifies a hereditary claimant but not such subsequent conduct as is now attributed to the appellant. The order of the Deputy Commissioner is therefore reversed and Government direct that Kaveramma's name be registered to the shanbhogi office and she be given an opportunity of appointing a competent gumasta to look after the duties. In default the Deputy Commissioner will make a suitable appointment of a gumasta.

No. R. 2777—*Mis.* 40-03-9, *dated Bangalore,* 26*th September* 1904.

Copy of the above is forwarded to the Deputy Commissioner, Mysore District, together with the vernacular records received with his letter No. 706, dated the 9th June 1904.

Appeal No. 157 *of* 1903-04.

Appellant		*Respondent*
Narasappa	*Versus*	Kiritaiya.

Subject.

Appeal against the order of the Deputy Commissioner of the Bangalore District, declining to recognize the appellant's claim to the shanbhogi office of Challaghatta and Konana Agrahar in the Bangalore Taluk.

Facts of the case.

Atchappa, the paternal grand-father of the respondent, was the last registered holder of the office. In July 1874, he prayed that as he was very old and as his sons were incompetent to perform the duties, his daughter's son, the appellant, might be appointed his gumasta, and subsequently prayed further that the office itself might be registered in the name of the appellant. On the 6th October 1874 the Deputy Commissioner ordered that the registry as it stood should not be altered, that the appellant might be appointed gumasta, and that after Atchappa's death the registry might be transferred to the names of his sons or those of his sons' sons. The registerdar Atchappa died in October 1896; and the appellant, the respondent's father Ramaiya and Savitramma, widow of the appellant's uncle, claimed the office, the first under a will alleged to have been executed by the deceased registerdar and the other two by right of succession. The Divisional Officer held that under law as well as under the order of the Deputy Commissioner, dated the 6th October 1874, the respondent, who was competent to discharge the duties, had the best claims to the office and directed the registry in his name. On appeal, the Deputy Commissioner upheld the Divisional Officer's order. Hence the present appeal.

Decision.

Under the orders of the 6th October 1874, the appellant was distinctly made to understand that he was nothing more than Atchappa's gumasta, and that on the latter's death the office would go to one of his sons or sons' sons if found competent. That being so, the appellant's contention that he is entitled to hold the office as against the respondent is clearly unsustainable. The office being inalienable, the will relied on by him cannot help him in any way. The Deputy Commissioner's order is correct and must be affirmed. The appeal is dismissed.

Venkataramaiya	*Versus*	Puttamma *alias* Lakshamma

Subject.

Appeal against the order of the Deputy Commissioner of the Mysore District, dismissing the claim of the appellant to the shanbhogi office of one of the two circles of Mandakalli and Kuppalur, Mysore Taluk.

The facts of the case appear sufficiently from the following :—

Decision.

Venkataramanaiya, the registered shanbhog of Mandakalli firka, was dismissed in 1898 on account of incompetency and certain irregularities which he committed in connection with the discharge of his duties, but before he was relieved of his charge he was prosecuted and convicted for criminal breach of trust. Subsequently he is reported to have died. In succession to him the respondent's (his widow) name was registered for the office. Though no express order on the latter point is forthcoming in the file, her appointment was recognised by the local authorities and two gumastas in her brothers were appointed to look after the work of the two firkas, *viz.*, Mandakalli and Kuppalur, into which the original Mandakalli circle was split up during the Potgi Settlement. Appellant is the paternal uncle of the deceased baravarddar and has been acting as gumasta off and on during the minority of his late nephew. He now claims the office as being the nearest surviving male member of the family and also on the ground that the deceased's family has forfeited the hak to the office on account of his conviction for criminal breach of trust. In the view that the offence committed by the deceased is not of a serious nature though technically called criminal breach of trust and that it occurred in a firka other than the one in which he was officiating and after his dismissal, the Government consider that the most equitable and fair arrangement would be to grant a firka to each of the parties without depriving the deceased's family wholly of the hak, and accordingly order the confirmation of the respondent as the registered baravarddar of the Mandakalli firka and the appointment of the appellant as shanbhog of the Kuppalur firka.

Subject.

Claim to the pateli office of Kollangi in the Arkalgud Taluk.

Facts of the case.

The respondent was registered as patel in succession to her husband in 1898. The claim preferred by the appellant thereupon on the ground of his father having been the joint patel of the said village prior to 1879 was finally rejected by Government in Appeal No. 34 of 98-99 after hearing both parties. Thereupon the appellant brought a regular suit to recover the office. The Assistant Commissioner who tried the case dismissed the suit as barred by the Law of Limitation. On appeal the Deputy Commissioner recognised the appellant's right to the office and directed the registry of his name as a hakdar, but held that he was not entitled to possession before the death of the respondent (a sonless widow). From this order the appellant appeals to Government.

Order.

The decision passed by the Government in Appeal No. 34 of 1898-99 was a final pronouncement in favor of the respondent and is not open to revision in a regular suit. On this ground Government hold that the present claim is unsustainable. The appeal is therefore dismissed. In this view Government do not consider it necessary to go into other points raised in the pleadings.

Subject.

Appeal against the order of the Deputy Commissioner of the Hassan District, declining to appoint the appellant as shanbhog of either of the Belagumba and Adihalli firkas in the Arsikere Taluk and referring him to a regular suit to establish his hak.

The facts of the case appear sufficiently from the following :—

Decision.

The appellant and respondent represent respectively the elder and younger branches of a family, the members of which have, for a considerable time past, held the office of shanbhog of Belagumba and Adihalli Circles in hereditary succession. The appellant's father Ramaiya held charge of both the circles until the year 1853, when in pursuance of a family arrangement, he transferred Adihalli to the respondent's father, Puttasimmaiya, and retained the other for himself. Ramaiya continued to be in possession of Belagumba until 1859, when he was dismissed on suspicion of having connived at certain individuals enjoying, on Bengar tenure for some years and until the refusal by them of an illegal gratification demanded from them by his brother, a piece of land in respect of which adequate irrigation facilities were forthcoming and which therefore ought long since to have been charged with wet assessment. That no deprivation of the family, of its right to the office thus vacated by Ramaiya, was intended, is evident from the fact that the nomination of a competent *varasdar* of Ramaiya's was called for, that Puttasimmaiya was nominated accordingly by the Amildar of the Taluk and appointed by the Superintendent of the Division, and that in answer, to a subsequent representation made by a brother of Ramaiya, *viz.*, Venkataramaiya *alias* Venkatappa, who was unconnected with the transaction which had culminated in Ramaiya's removal, an order was made that since one of the hakdars had been appointed to the shanbhogi, the petitioner had no real grievance. Puttasimmaiya held charge of both Belagumba and Adihalli for some time and then died. His son, the respondent, succeeded him and somehow, though in a most unsatisfactory manner, managed until 1897 to look after the duties of both the circles in addition to those of another (Tirupati) which he seems to have come by otherwise than by inheritance from a paternal ancestor. In the year abovementioned, *i.e.*, 1897, the respondent was called upon to suggest suitable arrangements, conformably to rules and standing orders, for the proper performance of the duties of shanbhog of Belagumba and Adihalli. In response to that requisition, he named certain gumastas. At the same time, however, the appellant asked for the recognition of his own title by his appointment to one of the circles. The respondent repudiated the appellant's claim which nevertheless was supported by the Amildar who, on grounds which appear untenable, was overruled by the Assistant Commissioner and the Deputy Commissioner, both of whom concurred in holding that, owing to the long absence of possession on his part, the appellant's only remedy lay in a regular suit in which he should seek to establish his hak. Dissatisfied with this order the appellant has preferred the present appeal.

2. Government have heard both the parties and given the case their best consideration with the result that the materials before them are sufficiently ample to enable them to arrive at a satisfactory decision, and that no useful object would be gained by the appellant being relegated to a formal suit.

3. The rules do not contemplate a permanent forfeiture of hereditary hak in such cases. The arrangements made in 1859 shows that nothing more than the removal of the delinquent Ramaiya without prejudice to his succession by his heirs was intended. There was no adverse possession in spite of long enjoyment until 1897-98 when for the first time the respondent asserted his sole title to the exclusion of Ramaiya's son and heir, the appellant, who till then had no reason to apprehend, much less to know, that his hak was in jeopardy. It is significant that his father Ramaiya's name as also his own name continued to be borne in the registers for several years after Ramaiya's dismissal and even demise The appellant was moreover a minor until a few years before the date of the proceedings which have led up to this appeal. In a matter of this kind, the rigid rules of limitation should not be strictly applied unless hostile enjoyment is proved beyond all reasonable doubt. There is further the fact that the respondent is under the Potgi Rules unfit to hold more charges than one and that for the surplus charge "one or more new officiators will be appointed by the Government. The new officiator or officiators will be appointed from the family in which the hak has been hitherto vested if a competent person can be found."

4. Government are accordingly of opinion that the appellant is not debarred from advancing his claim to one of the two circles under advertence. They are at the same time quite willing that the choice should be given to the respondent in consideration of his long possession. The record shows that the potgi attached to Belagumba is Rs. 75-4-0 while that attached to Adihalli is Rs. 85-8-0. At the hearing, the respondent declined to exercise his choice, his only contention being that he was himself entitled to both the circles and that the appellant could claim neither. In these circumstances, Government direct that the less

remunerative of the two circles, *viz.*, Belagumba, be registered in the appellant's name and put in his possession unless the respondent in his own interests elects to retain that circle and to give up Adihalli to the appellant, in which latter case the respondent's wishes may be given effect to.

Subject.

Appeal against the decree of the Deputy Commissioner of the Tumkur District, disallowing the claim of the appellants to the shanbhogi office of the Honnavalli firka in the Tiptur Taluk.

The facts of the case appear sufficiently from the following :—

Decision.

This is a claim for a shanbhogi office. One Shamia and Venkatappa jointly held it for some time. The names of both of them were entered in the Register of 1861, Shamia being shown as officiator. In 1863-64 Shamia tried, without success, to have Venkatappa's name removed from the Register. Under the Superintendent's order dated the 31st August 1864, the registry continued in the names of both Shamia and Venkatappa. On Shamia's death in 1879, Venkatappa's son Suryanaranappa claimed the office, but the Deputy Commissioner held in 1883 that that claim could not be admitted so long as Shamia's widow Lingamma was alive and he directed that the latter's name be registered accordingly. On Lingamma's demise in 1897, Suryanaranappa's son, the respondent, claimed the office, but the Deputy Commissioner rejected the claim and gave the office to the first daughter of Shamia and Lingamma, namely, Thimmamma. The respondent, not satisfied with this order, instituted a regular suit which was decreed in his favor by Assistant Commissioner, Mr. Subramanya Iyer, whose decision was modified in appeal by the Deputy Commissioner who held that the respondent could only succeed to the office on the death of Timmamma. The respondent appealed to Government with the result that they held that as a joint holder he was entitled to be inducted into the office in preference to Shamia's heirs, other than male. The plaintiffs (sons of Thimmamma and her sister), who were not parties to that suit, instituted a fresh suit asserting that the respondent had no right to the office and that they were entitled to succeed to it in preference to the respondent. The Assistant Commissioner, Mr. Paramasiva Iyer, decreed the claim, but the Deputy Commissioner, on appeal, rejected it. The plaintiffs preferred an appeal to Government who remanded the case to the Deputy Commissioner for a decision *de novo*, with certain observations. The Deputy Commissioner again went into the case and affirmed his original decision. Hence the appeal. Government have given the case the best consideration and are of opinion that the appeal is not entitled to prevail. The bestowal of the office first on Shamia's widow Lingamma and then on his daughter Thimmamma was a mistake, and Government hold that this mistake should not be perpetuated by the appointment of Thimmamma's or her sister's son in preference to joint hakdar Venkatappa's grand-son in the male line—to wit the respondent. That Venkatappa was a hakdar has been established beyond all reasonable doubt and there is no reason why his descendants in the male line should be superseded by his co-sharer's descendants in the female line. That being so, it is clear that the appeal cannot prevail.

The appeal is accordingly rejected.

Appeal against the order of the Deputy Commissioner of the Shimoga District, declining to set aside the sale of Survey No. 42 of Kannekoppa village in the Shimoga Taluk, held for arrears of revenue.

Facts of the case.

On account of the arrears of kandayam due for the year 1902-03, the land in question in the khate of the appellant was proceeded against and sold to the respondent for Rs. 14-8-0, at a sale held by the shekdar on the 21st May 1903. The appellant tendered the full arrear on the date of sale (it is alleged before 4 P. M.) but the shekdar refused its acceptance on the

ground that the sale had already been closed. The records also show that the sale did not take place at the spot indicated in the sale notification, but was held in a hut a little distance from the village, on account of heavy rain and the consequent impossibility of holding it near the land. The sale in question is reported to have been closed earlier than usual owing to the shekdar having to attend to two or three other sales on the same day. The appellant thereupon tendered the amount to the Amildar, who held it in deposit and recommended the cancellation of the sale on the grounds that the plea urged by the appellant for non-payment of the arrear in time appeared reasonable and that the land was worth Rs. 300. The Assistant Commissioner, however, confirmed the sale on the ground that the sale had been regularly held, and the Deputy Commissioner affirmed the order on appeal. Hence this second appeal to Government.

Decision.

This is a case in which the Government feel called upon to interfere. The sale was not held in the place named in the notification. The defaulter after some pains traced the sale-conducting officer to a hut outside the village and tendered to him the arrears due, but that officer declined to accept the same on the ground that the sale had already been closed. The sale was not conducted in the proper place, and it was closed before the usual business hours. The tender was refused on insufficient grounds. The proceeds realized at the sale were wholly out of proportion to the value of the property, the former being Rs. 14-8-0 and the latter Rs. 300. It is clear that the land was worth a great deal more than the pecuniary limits of the shekdar's jurisdiction. On these grounds the Deputy Commissioner's order is reversed and the sale complained of set aside.

Appeal against the decree of the Deputy Commissioner of the Kolar District, affirming that of the Assistant Commissioner, dismissing the suit filed by the appellant to establish his hak to the shanbhogi office of, and the shanbhogi Inam lands attached to, Bhaktaravalli village in the Sidlaghatta Taluk, and recognising the hak of the respondent thereto.

Facts of the case.

One Gopal Rao was the original registered shanbhog of the village in question as well as of some other villages. He had two wives, Savitramma and Ammannemma. The appellant is the grandson (son's son) of the former, and the respondent is the latter's daughter's son. In 1879-80, Gopal Rao executed a will bequeathing to his second wife the shanbhogi office of the village in question and the Inam lands attached thereto, along with some property, and to his son Krishna Rao (by the 1st wife) the remaining property as well as the shanbhogi office of some other villages. It was also stipulated in the will that the shanbhogi office and the property assigned to his 2nd wife should go after her death to her daughter. In 1881 Krishna Rao also executed a karar agreeing to act according to his deceased father's will. On the death of Krishna Rao in 1896, his son the appellant claimed the registry of the shanbhogi of all the villages for himself while Ammannemma objected thereto and claimed that the shanbhogi baraward of Bhaktaravalli village should be made out in her name. The Assistant Commissioner thereupon ordered in August 1898 the registry of all the villages in the name of the appellant and referring Ammannemma to a regular suit for the establishment of her claim. On her appeal the Deputy Commissioner set aside the Assistant Commissioner's order and directed on the 2nd August 1899, the registry of Bhaktaravalli shanbhogi in her name on the ground that she was in possession of the office for several years according to the will and karar above referred to. On her death the appellant again agitated his claim, but the Deputy Commissioner on the 28th June 1901, ordered the registry of the shanbhogi office in question in the respondent's name on the grounds that Ammannemma was the rightful hakdar according to the order of the previous Deputy Commissioner and that the respondent was her nearest heir. The appeal preferred to Government by the appellant against the above order was rejected by Government in their Order No. Pet. 1598, dated the 20th February 1902, on the grounds that there was a division of the shanbhogi hak and properties by consent of parties so far back as 1881, that under the arrangement the shanbhogi office of the village in question had come into the possession of Ammannemma and been in her enjoyment throughout her life-time and that the appellant's father was also a consenting party to the will of his father. The appellant thereupon filed a regular suit to establish his hak in the Court of the Assistant Commissioner who, after going into the merits of the case, rejected the suit, and his decree was upheld by the Deputy Commissioner on appeal. Hence the present appeal to Government.

Decision.

This is a case relating to a shanbhogi office. It came before Government in 1902 and was decided adversely to the appellant. That decision was final and conclusive and could not be controverted by a suit. The party aggrieved, however, instituted a suit which, instead of being thrown out, was entertained by the Assistant Commissioner, who, after going into the merits of the case, passed an unfavorable decision, which, on appeal, was concurred in, and upheld by the Deputy Commissioner.

Government hold that the suit was not maintainable and should have been dismissed as soon as filed. All further proceedings not being in accordance with law, the appeal must fail and is rejected.

Appeal against the order of the Deputy Commissioner of the Hassan District, confirming the sale of the appellants' lands for arrears of Jodi due on the whole village of Gubbi in the Hole-Narsipur Taluk.

The facts of the case appear sufficiently clear from the following :-

Decision.

The jodi village of Gubbi consists of a large number of Vrittis. In addition to the lands held direct by the Vrittidars, there is in it some Madhayaka land from which they, as a body, are entitled to recover certain dues from the occupants thereof. The village was some ten years ago attached and taken under Government management under Section 165 of the Land Revenue Regulation. Certain Madhayaka lands in the possession of the appellants have now been sold, not on account of arrears (in kind or cash or both) due to the Vrittidars in respect thereof, but on account of the heavy arrears due to Government by the whole village. This action is irregular and cannot be supported. By their assumption of the management of the village, Government have entitled themselves "to manage the lands attached, and to receive all rents and profits accruing therefrom to the exclusion of the superior holder or any of the sharers thereof" (*vide* Section 166 of the Land Revenue Regulation). In other words, Government are entitled to manage the village and to enforce the payment of all moneys due to the owner of the village, *i. e.*, the Vrittidars by persons holding lands under them. The persons last mentioned are not liable to be proceeded against except to the extent of their own liability to the Vrittidars. The lands in the village seem to have been provisionally settled in 1902. The assessment then fixed cannot be given retrospective effect to. How the Amildar and the Deputy Commissioner make out that Rs. 983-3-10 represent the arrears due by the appellants, is by no means clear. The appellants seem to contend that there is no arrear outstanding against them.

2. While rejecting the appellants' contention that the lands in question which were at one time Madhayaka lands have, by an arrangement between themselves and the Vrittidars, since ceased to be such, Government hold that the procedure adopted by the local authorities was not warranted by law, that the sale held on account of the arrears due *to Government by the Vrittidars*, instead of on that of the arrears due *to the Vrittidars by the appellants*, is unsustainable and must be set aside, and that the Deputy Commissioner should proceed *de novo* after ascertaining the exact extent of the appellants' liability as the holders of Madhayaka lands in question.

3. The Deputy Commissioner's order is reversed and he is directed to take further action in accordance with the foregoing observations.

Claim to the pateli office of the Sirkar village of Motnahalli, Kolar Taluk.

The facts of the case are sufficiently clear from the following :—

Decision.

The village of Motnahalli consisted of Sirkar and Jodi villages of the same name, each in charge of a separate patel. In 1891 the last hakdar patel of the Sirkar village resigned his office and the patel of the Jodi village, *viz.*, the respondent's brother was appointed officiator of the Sirkar village as well as of the Jodi village. The respondent succeeded his brother after the latter's death. The appellant claimed the pateli office for the first time in 1901 as a cousin of the late hakdar. Government hold that after the hereditary office was resigned by the hakdar it would be at their absolute disposal and that they were at liberty to appoint whomsoever they considered competent. The Sirkar village has ceased to exist as an independent village, having been absorbed in the Jodi village during the Survey Settlement, and the necessity for a separate patel no longer exists. The appellant's claim is untenable and the Government direct that the Deputy Commissioner's order be confirmed and the appeal rejected.

2. The facts of the case appear sufficiently from the following decision :—

Decision.

(1) Venkatramanachar.
(2) Dikshitachar.
(3) Kempachar.
(4) Hambi Narasimhachar.

The Brindavana puja in question was being originally performed by four hissedars by rotation for three months each in the one year, of them (Kempachar) died issueless and his share was enjoyed by the remaining three who attended to the service for four months each. Of these, Hambi Narasimhachar transferred his huk to his sister's son Venkatasubbachar and on the latter's death his widow (Bhagamma) succeeded. She in her turn transferred her share to her deceased husband's brother (Venkata Narasimhachar *alias* Dabbannachar) who also died leaving a son. The boy did not survive the registry of the office long. His mother Kaveeramma (widow of Dabbannachar) next succeeded to the office. Thus the service passed into the possession of a strange family and had been in its enjoyment for more than twenty years. Kaveeramma, the last Barawardar, sought permission to appoint her brother, the counter-petitioner, to the office though he is already enjoying a share in it as the grandson of Dikshitachar, one of the four original hissedars. The Deputy Commissioner in his Rubkari No. 18, dated the 4th September 1903, recommended the transfer of Baraward from the name of Kaveeramma to that of the counter-petitioner and Government in their Order Muzrai Rubkari No. 739, dated the 17th September 1903, approved of the transfer. The petitioner who is a member of the family of Venkatramanachar, first of the original four hissedars mentioned above, applies for a review of the above order of Government praying that the third share enjoyed by Kaveeramma be distributed between the members of the family of the first two original hissedars.

2. Government observe on further consideration that an hereditary office such as the one in dispute should not have been allowed to be alienated to a different family as was done in this case, while there were other hukdars enjoying the office, and they cannot perpetuate the mistake once committed by permitting its repetition. It is premature to consider who should be the successor to Kaveeramma until the office becomes vacant. The petitioner however can have no manner of right to the office at this distance of time. In these circumstances Government direct that the registry of the Baraward should remain in the name of Kaveeramma and that the petitioner's claim be rejected.

Appeal against the order of the Deputy Commissioner, Kolar District, declining to interfere with the Civil Court sale of Survey No. 8 of Mushtur village in the Chikballapur Taluk.

The facts of the case appear sufficiently from the following :—

Decision.

The land in question is a service, *i.e.*, shanbhogi inam land. So far back as 1834 it was mortgaged to one Honnu Reddi by the then holder of the office of shanbhog. The land has since changed hands by division, Civil Court sale, etc. The appellant is the present occupant of the office. By purchase from the persons concerned he recently obtained possession of five-eighths of the land and also acquired the right of redeeming the other three-eighths from the respondent. He subsequently sued the respondent for the redemption of the mortgage and obtained a decree against him. He nevertheless now asks for restitution free of payment. This prayer is manifestly inadmissible. The alienation in this case was made prior to the date of the Chief Commissioner's Notification of the 9th September 1835 and is therefore not affected by that Notification, *vide* para 4 of the Chief Commissioner's General Circular No. 5 of 1872-73 which provides that the rule concerning the inalienability of service inams "will not be held to have retrospective effect, so as in any wise to injure the interests of incumbents or holders of mirasi lands which may have come into their possession by sale, gift or otherwise previous to the Notification issued from this office on the 9th September 1835." The appellant's own conduct as well as the rules in force clearly shows that he is not entitled to the relief which was once refused him in 1891 and which he has now again asked for.

The facts of the case appear sufficiently from the following :—

Decision.

Survey No. 71 of Nilkunda was declared forfeited for an arrear of assessment due thereon for the year 1897-98. The action subsequently taken proved infructuous and the land was accordingly, after certain protracted proceedings, resumed to Government. For the recovery of the said arrear and also for the assessment which accrued due on the land during the pendency of the above proceedings, the Deputy Commissioner directed that action be taken against some other land in the appellant's khate situate in another village (Chikkabemmatti). Hence the appeal. Government are of opinion that the Deputy Commissioner's order is erroneous and must be set aside. The appellant's liability is limited only to the arrear which necessitated the forfeiture above referred to. If that arrear is paid up by him, his other property ought not be proceeded against. It has not been shown that the appellant was in possession and enjoyment of Survey No. 71 notwithstanding its forfeiture. On the contrary, it would appear that the land had passed out of his hands by private alienation, some time before the date of the declaration of forfeiture. That being so, it is clear that he has a valid grievance.

Under these circumstances, Government direct that further proceedings against the appellant be dropped in case he pays up the arrear for which the forfeiture in question was ordered, *i.e.*, the assessment due for the year 1897-98.

Appellant	*Versus*	Respondents
Chennappa		1. Lakshminarasappa 2. Srinivasa Rao (since dead).

Subject.

Appeal against the order of the Deputy Commissioner of the Kolar District, decreeing the payment of miras by the appellant to the 1st respondent.

The facts of the case appear sufficiently clear from the following :—

Decision.

This is a case of some importance, and Government have given it their best consideration.

2. The plaintiff (first respondent) is the shanbhog-gumasta of the Inam village of Hemaralahalli in the Sidlaghatta Taluk. The Barawarddar-shanbhog is the second respondent, who has only a nominal interest in these proceedings, and who therefore supports the plaintiff's claim. The appellant (defendant) is a raiyat occupying certain lands in the village.

3. The plaintiff sued for the recovery of certain miras alleged to be due to him by the defendant. The Assistant Commissioner who tried the suit, decreed the claim which, in appeal, was slightly modified by the Deputy Commissioner.

4. Before Government, the defendant raises several objections, the chief of which affects the very right of the plaintiff to institute the suit, and will accordingly be first considered.

5. No privity of contract between the parties has been established. Nor has there been on their part such a long and uninterrupted course of conduct as could be taken to be indicative of the existence of any contractual relation between them. The evidence is conflicting and inconclusive, and will therefore be dismissed as unworthy of consideration.

6. The shanbhog of an unsettled Inam village is no doubt entitled to the same remuneration as that enjoyed by the shanbhog of a similar Sirkar village, the rates being determined by the rules in force or by usage. The question, however, is to whom he should look for payment, to the raiyats direct or to the Inamdar concerned ? In this matter, Government are not prepared to hold that any direct right exists in the shanbhog, or any direct obligation attaches to the raiyats. The question is one of master and servant, and it naturally follows that the latter can only claim his remuneration from the former and not from his tenants in the absence of any contract or custom to the contrary, neither of which latter has been satisfactorily made out in the present case. Whether the Inamdar would be entitled to claim reimbursement from his raiyats after meeting the shanbhog's claim, is a point which does not call for determination in this case. That the Inamdar is required by law to keep and render certain accounts, that in order to enable him to do so, he is expected to employ an accountant, and that in case of default, Government can get the accounts prepared at his cost,—all this is foreign to this litigation and cannot influence the decision of Government in regard to the maintainability or otherwise of this suit.

7. In this view, it seems to Government unnecessary to deal with the other questions raised in the appeal.

8. In the result, Government hold that the plaintiff (respondent) has no right of action against the defendant (appellant). The appeal is consequently allowed, and the decree complained of reversed.

Appeal No. 65 *of* 1904-05.

Appellant	*Versus*	Respondent
Hanumantha Rao		Krishnappa.

Subject.

Appeal against the order of the Deputy Commissioner of the Tumkur District affirming the order of the Assistant Commissioner referring the respondent and the appellant respectively to establish or disprove in a Civil Court the validity of the alleged adoption of the respondent to the last office-holder Kusamma, before allowing either of them to claim the shanbhogi office of Jalodu firka in the Pavagada Taluk.

Order.

The factum and validity of two adoptions are in question, namely, of the respondent Krishnappa by Kusamma, the last holder of the office, and of the appellant Hanumantha Rao by Kusamma's brother-in-law Dodda Ramappa. The effect of the karar of 1883 on the claims of these two persons is also a point for consideration. Neither of these two questions has been adjudicated upon either by the Assistant Commissioner or by the Deputy Commissioner. A reference to the Civil Court was not a proper order to make in the case. The questions at issue should be determined and decided by the authorities below to the best of their judgment, leaving it to the party aggrieved to prefer an appeal to Government, if so disposed. The order directing the succession to be kept open pending either party obtaining and producing a Civil Court decision cannot be supported and must be set aside. The case will be remanded for disposal on merits.

Referred Case No. 8 of 1903-04.

Parties heard.

1. Lakshminarasappa, 2. Mahadeva Rao, 3. Lakshminaranappa, 4. Hettakki Gundappa and 5. Kasaba Appajappa.

Subject.

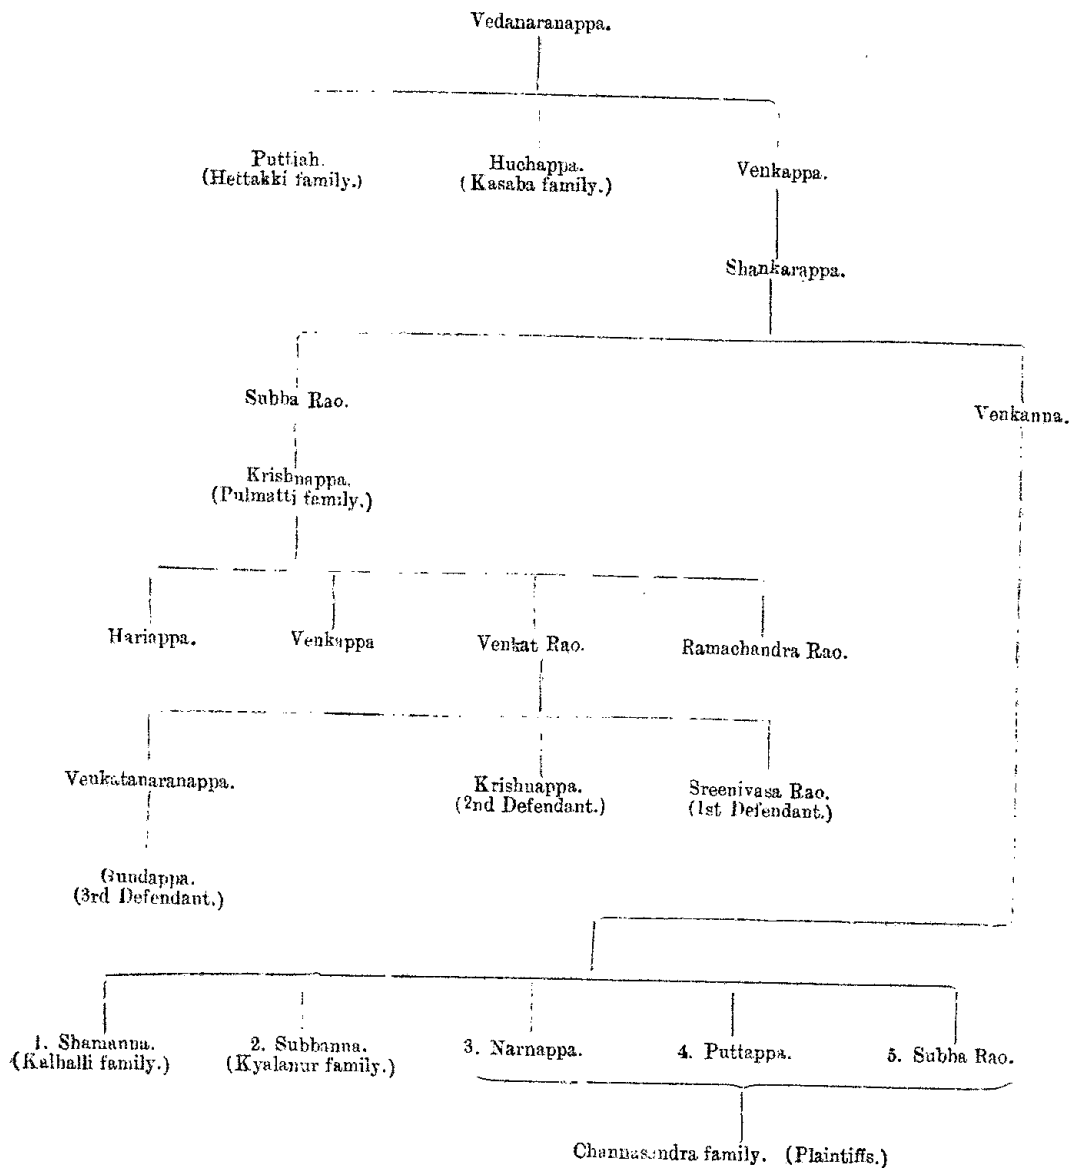
Partition of the Inam villages of Mittanahalli, Gollahalli and Venkatapur in the Sidlaghatta Taluk, among the several members of the Desakulkarni and other families of Jangamkota, Sidlaghatta Taluk.

The facts of the case appear sufficiently clear from the following decision :—

Decision.

The Desakulkarnis of Jangamkota, Sidlaghatta Taluk, are descended from one Vedanaranappa who had three sons named Puttiah, Hutchappa and Venkappa. Two separate families designated the Hettakki and Kasaba families have sprung from the first two sons of Vedanarnappa. The descendants of the third son Venkappa have branched off into several families known as Pulmatti, Kyalanur, Kalhalli, Channasandra, &c.

For a proper understanding of the case, the following genealogical tree would be of some use :—



2. The office of Desakulkarni was formerly a hereditary one intervening between the shanbhog and the Amildar in matters connected with Revenue administration. To the Desakulkarni office of Jangamkota, were attached as service Inams the three villages of Mittanahalli, Gollahalli and Venkatapura.

3. The descendants of Vedanaranappa's third son Venkappa aforesaid figure in the early litigations connected with the villages above mentioned. Venkappa's son Shankarappa had two sons named Subba Rao and Venkanna Subba Rao had a son named Krishnappa who left four sons, namely, Hariappa, Venkappa, Venkata Rao and Ramachandra Rao. Venkanna left five sons named Shamanna, Subbanna, Naranappa, Puttappa and Subba Rao.

4. By an order of the Commissioner of Mysore passed in 1834, Venkat Rao, one of the four sons of Krishnappa, became the officiator Desakulkarni.

5. In the year 1838, the last three sons of Venkanna aforesaid, namely, Naranappa, Puttappa and Subba Rao (referred to as representing the Channasandra family) instituted a suit in the Court of the Huzur Adalat against the descendants of Venkat Rao, one of the sons of Krishnappa aforesaid of the Pulmatti family, for the recovery of their share in the Desakulkarni villages and other immoveable property and in the mesne profits thereof. Neither the two brothers of the plaintiffs nor the three brothers of Venkata Rao or their descendants, nor the representatives of Puttiah of the Hettakki family or of Huchappa of the Kasaba family, were made parties to that suit. The proceedings taken, however, embraced other interests than the shares merely of the three plaintiffs as explained below.

6. The defendants urged that they alone were entitled to hold the office and enjoy the Inams. In their rejoinder, however, they stated that in accordance with customary procedure, the plaintiffs had called on the 1st defendant and, after inspecting the references in his possession, got the accounts relating to their share in the income of the villages as well as in the expenses pertaining to the office, settled up to four years prior to the suit, and that as regards the accounts of the remaining four years, if the plaintiffs agreed to abide by the practice observed by the numerous gnatis, they (the defendants) were prepared in respect to the plaintiffs to act in accordance with practice.

7. The Judges of the Court were of opinion that the documents filed, showed that the whole of the gnatis were entitled to enjoy the Inams attached to the office of Desakulkarni, and they directed in their decision dated the 28th July 1842, that the 1st defendant, Sreenivasa Rao, who was looking after the duties of Desakulkarni, should be allowed a monthly pay of 10 K. pagodas and contingencies and that the plaintiffs should receive from the defendants their share in the mirasi and other income minus their quota of the expenditure. The Commissioner of Mysore on appeal affirmed the decision of the Adalat Court on the 5th June 1843, and in so doing observed in the recital of his order that the decision of the said Court was to the effect that the rents and produce of the village of Venkatapur equally with those of the other Inam villages should be divided (or shall be distributable) among all the Hissedars in the Inam, and that the first defendant as the Duftardar (officiator) should in future be empowered to deduct from the income derived from the Inam the expenses relating to the Dufter not exceeding 10 K. pagodas per mensem.

8. In 1846, the Huzur Adalat addressed a Yadi to the Commissioner regarding the best mode of carrying the above decree of the Commissioner into effect. The Commissioner thereupon desired the Superintendent of the Bangalore Division in conformity with the recommendation of the Court to appoint an impartial person on an adequate salary to take charge of the villages which formed the estate, and to collect, and pay over to the several shareholders of the Jangamkota Kulkarni Miras, the rents accruing therefrom. In conveying these instructions to the Superintendent of the Bangalore Division, the Commissioner observed as follows :— "The Judges have been requested to furnish you with a list of shareholders and of the shares to which they are entitled, and you will be pleased to issue to the Mutsaddi whom you may appoint such directions from time to time as may be required to guide him in managing the property fairly."

9. Thereupon, a gumasta appointed by the Amildar with the concurrence of the Superintendent assumed the management of the villages, and the mesne profits were disbursed to the parties concerned at the Taluk Cutcherry. The list of shareholders and shares furnished by the Court is not forthcoming, but a list of the disbursements made in Raktakshi (1864-65) and referred to in the Inam Register of 1875, gives the names of parties or families entitled to payment and the number of shares payable to each, as follows :—

(1) *In Mittarahalli village*—

Defendant Gundappa's shares	5
Plaintiffs' (Channasandra family's) shares	3
Kalhalli people's share	1
Kyalanur " "	1
Hettakki " "	10
Kasaba " "	10
	30

(2) *In Gollahalli village*—

Plaintiffs' (Channasandra people's) shares	3
Defendants' shares	5
Kyalanur people's share	1
Kalhalli	1
	10%

(3) *In Venkatapur village*—

Plaintiffs' shares	3
Defendants' "	7
	10

10. It is reported that payments were made properly up to the year Raktakshi (1864-65) and in subsequent disputes the list of that year is shown to have been relied upon by both the contending parties. There is thus sufficient ground for the belief that the distribution of shares as above was started and continued on the lines laid down by the Court.

11. It would appear that though the shares of four other families than the plaintiffs and defendants' were recorded as above in the lists of disbursement, payments were, as a matter of fact, made to the defendants in respect of those shares in addition to their own. This led to the members of the defendants' family claiming to exclude those four families from participating in the profits of the villages, and this contention was fully dealt with at the Inam Settlement in 1875.

12. The Superintendent of Inam Settlements made the following order on the 23rd July 1875:—"The settlement of this taluk has been going on for three years and I and the Assistant have been encamped here for three weeks, and the claimants to shares have had ample time and opportunity to arm themselves with ll the requisite documents and proofs. All disputes which are not proved and settled at the next hearing on the 7th proximo to be referred to the Civil Courts as the Assistant cannot delay in the taluk and has to proceed to Anekal."

13. The Inam Assistant completed his enquiry and passed orders in regard to the Mittanahalli village on the 9th August 1875. He found that the marginally noted persons had shares in the village, and accordingly recorded their names and shares in the Settlement Register. In so doing, he followed the Huttuvali Patta or disbursement list of Raktakshi (1864-65), and it is seen that the shares as ascertained and recorded by him correspond with those noted in the list as shown below:—

1. Venkat Rao 1/60
2. Mahadeva Rao (Pulmatti) 1/24
3. Krishna Rao, Devanhalli 1/24
4. Sreenivasa Rao, Sidlaghatta 1/48

14. The parties that appeared before the Inam Assistant Superintendent, the contentions raised, and the reasons for the decision arrived at, will appear from the subjoined extract from the Assistant Superintendent's order :—

"On the 7th instant at 2 P. M., one man came, and about 3 P. M., four others dropped in. A petition was received from four others to say that they have funeral ceremonies to perform and that they want a week's time to attend this office. I made enquiries till the close of the day, and not a single man's share was uncontested, and yet no reasonable evidence would be adduced by any present. I had no alternative but to adjourn the enquiry to this day, when every one promised to bring all the evidence in his favor. They appeared to-day at about 1 P. M., and all appeal to the "Huttuvali Patti" drawn up in 1864 by the Government gumasta appointed to manage the whole of the Desakulkarni property in dispute. In this Patti (copies produced by Gundappa No. 6, and the opposite party of Chidananda Rao, No. 11 represented by Sivanapura Mahadeva Rao, and Venkatappa. and admitted to be correct by all parties) this village is divided into thirty shares, out of which three are allotted to the Channasandra party, *i. e.*, Nos. 1, 6, 7, 8, 9 and 10, and 27 to Gundappa No. 6 which later allotment is particularized as follows :—

Gundappa's own share	5
Kyalanur (Nos. 11 to 14)	1
Kalhalli (No. 15)	1
Kasaba (No. 13)	10
Hettakki (No. 12)	10

and the amount due on account of these twenty-seven shares is shown as paid to No. 6, together with 15 pagodas 8 fanams from the three shares of Channasandra party, and a remark is entered opposite these two items *on account of Desakulkarni Service* (due from the sharers). Hence it is quite clear that although Gundappa enjoyed the twenty-two shares of other parties, he did so only on account of the service rendered by him as alleged by them, which having now ceased, the shares must revert to the owners; and I have accordingly registered their names. In regard to the five shares shown as No. 63 own, he admits that they are equally divided among himself and Nos. 2, 3, 4 and 5, and I have therefore registered their names ; but No. 2 contends that he should not only get a share in the five shares shown as No. 6's but also in other twenty-two shares which he enjoys besides : but No. 2 cannot prove his right, while No. 6 produces the 3rd Assistant Superintendent's (Bangalore District) Order No. 863, dated the 19th November 1868, which, though not quite specific, declares that No. 2 could have no part except in the shares inherited by No. 6 and No. 6 contends that the other twenty-two shares did not come to his family by inheritance, but from "other causes," and these "other causes" are clearly on account of service rendered on behalf of the men who owned these twenty-two shares.

"Except Nos. 2 and 6, none of the sharers present, nor of those absent, as far as I could ascertain, raise the slightest dispute to the shares I have recorded, which have been furnished by No. 1, one of the chief men of this large family and belonging to a party whose right is acknowledged by all the other parties and who may be considered neutral. All present have also signed the settlement in proof of their consent.

"Nos. 2 and 6 appeal to several Civil Court decrees, but although they have had ample time and repeated warnings, they have none to produce now."

15. As regards the Golhalli village, the Assistant Superintendent of Inams accepted the Huttuvali or disbursement register of 1864 and recorded shares as noted below :—

1. Venkata Rao } Each 1—20, and both together 1—10, representing the share of Puttappa one of the plaintiffs.
2. Madhava Rao }
3. Byata Rao } Each 1—20, and both together 1—10, representing the share of Narnappa one of the plaintiffs.
4. Srinivasa Rao }
5. Aswathanarnappa. } 1—10 representing the share of Subba Rao, the other plaintiff.

Total three shares out of ten accorded to plaintiffs, Channasandra people, in the Huttuvali list.

6. Mahadeva Rao ... 1—8 representing the share of Hariappa, a son of Krishnappa.
7. Krishna Rao ... 1—8 representing the share of Venkatappa, another son of Krishnappa.
8. Srinivasa Rao } Each 1—16, both together 1—8 representing the share of Ramachandra Rao, another son of Krishnappa.
9. Subbanna }
10. Gundappa ... 1—8 representing the share of Venkata Rao, another son of Krishnappa.

Total 4—8 or 5 out of ten shares accorded to defendants in the list.

11. Chidananda Rao } Each 1—20, both together 1—10, representing the one share out of ten accorded to Kyalanur people in the list.
12. Gopal Rao }
13. Subbanna ... 1—10 representing the one share out of ten accorded to Kalhalli people in the list.

16. As regards the Venkatapur village, the Huttuvali list gave shares only to the plaintiffs and defendants, namely three to the former and seven to the latter, and none to Kyalanur or Kalhalli people. The Inam Assistant thought that the list was incorrect in this respect as there was a difference of two shares between the entries on the Receipt side and those on the Disbursement side, and he therefore held that the Kyalanur and Kalhalli families should each have a share in this village also, in the same way as they had in the Golhalli village according to the Huttuvali list. He accordingly recorded shares in respect of thirteen persons inclusive of three representing the Kyalanur and Kalhalli families as noted above in regard to Golhalli; but on revision the Superintendent of Inam Settlements struck off the shares allotted to Nos. 11, 12 and 13, *i. e.*, to the Kyalanur and Kalhalli peoples, and added their 2—10 to the share entered against Gundappa, No. 10. Thus, it will be seen that the distribution of shares in Venkatapur was also made to accord with the allotments in the Huttuvali list.

17. In 1884, the Deputy Commissioner, Kolar, to which district the villages in question had in the meantime been transferred, reported to Government that the gumasta appointed for the management of the villages had absconded and he therefore solicited instructions as to the action to be taken. In reply he was informed that the arrangements ordered in 1846 should be enforced by the appointment of a Receiver who might be required to furnish security to the extent considered necessary, and that if all concerned agreed, one of the shareholders themselves might be appointed as Receiver. The Deputy Commissioner in 1886 replied that the shareholders did not agree to one of themselves being made a Receiver, that there were numerous disputes among them regarding their respective shares, which could not be satisfactorily settled in the Revenue Department, that the villages might be surveyed and settled and the net profit after deducting the charges of establishment, be kept in deposit and disbursed to the shareholders on their producing decrees of Civil Courts specifying their respective shares.

18. The Dewan heard the case on 26th July 1887 at Hosakota. Mahadeva Rao (No. 2 in the Settlement Register of Mittanahalli) and the representatives of Pulmatti, Hettakki and Kasaba families were present at the hearing, and Mahadeva Rao gave a list of shares excluding the Hettakki, the Kasaba, the Kyalanur and the Kalhalli families from any share in the three villages, allowing three shares in each of the villages to the plaintiffs or the Channasandra family, and claiming all the rest, *viz.*, twenty-seven shares in Mittanahalli and seven shares in Golhalli and Venkatapur for the descendants of the four sons of Krishnappa, to wit, Hariappa, Venkappa, Venkata Rao and Ramachandra Rao. After referring to the records of the case and the Settlement Registers, the Dewan passed the Order of Government No. 2475-91, dated the 29th July 1887, a reconsideration of which is now sought.

19. The order of Government referred to the enfranchisement of the villages at the Inam Settlement and the existence of disputes among the members of the family, some of these forming the subject of subsequent decrees, private partition deeds, and executive orders of Government; and stated that it was undesirable that Government should continue to manage the estate any longer, that the lands of the villages should be divided among the various members of the family, in the first instance according to the shares (specified) of the sons of Krishnappa and the sons of Venkanna, as well as those of the Hettakki and Kasaba branches, and that any disputes between the parties as to what particular shares (apparently blocks of land) should be allotted to a particular member should be decided by lottery. The shares specified are :—

	Mittanahalli out of 120 parts	Golhalli out of 120 parts	Venkatapur out of 120 parts
Hettakki Branch	40	...	...
Kasaba Branch	40	...	...
Sons of Krishnappa—			
1. Hariappa	5	15	21
2. Venkappa	5	15	21
3. Venkata Rao	5	15	21
4. Ramachandra Rao	5	15	21
Sons of Venkanna—			
1. Shamanna	4	12	...
2. Subbanna	4	12	...
3. Naranappa	4	12	12
4. Puttappa	4	12	12
5. Subba Rao	4	12	12

20. The order thus disallowed the contention of Mahadeva Rao that only the descendants of Krishnappa and those of Nos. 3, 4 and 5 of the sons of Venkanna were entitled to shares in the villages. It is in perfect accord with the Huttuvali list of 1864, the expression "Defendant" and "Defendant Gundappa" in the latter being taken as representing the whole family of Krishnappa, in regard to which there is no dispute. It further agrees with the allotments made in the Inam Settlement Register in respect of the Mittanahalli and Gollahalli villages, the individuals named in the register from among the progeny of Krishnappa, being taken as

representing those sons of Krishnappa from whom they were descended. As regards Venkatapur, it agrees with the revised order in the Settlement Register in excluding Shamanna and Subbanna (Kyalanur and Kalhalli families) from a share in the village, but differs from it as to the distribution of the shares so set free among members of the Defendant-family, the order dividing those shares (twenty-four out of 120) among the four sons of Krishnappa while the Settlement Register records the whole (two out of ten) to the representative of one of those sons, namely Venkata Rao. But this difference is not of any consequence inasmuch as in regard to the village no objection is taken to distribution of shares in accordance with the order by the parties concerned, and the Deputy Commissioner has ordered its partition in the manner laid down in the order. Thus the order of Government followed the undisputed Huttuvali list of 1864 and the accepted adjudication of claims and shares in the Inam Settlement; and in restricting division in the first instance to the established shares of the headmen of the several branches through whom the numerous members of the family claimed sub-shares, it apparently aimed at minimizing difficulties in carrying it into effect.

21. In 1890, Mahadeva Rao and others applied for a review of the order of 1887, but the application was rejected by Government.

22. In the meantime, the Assistant Commissioner, Kolar, ascertained the names and addresses of all the surviving members of the different branches of the family and issued notices to them communicating full particulars of the decision of Government and stating that within two months from the date of the service of notice, the shareholders should by mutual agreement divide the lands of the villages among themselves and report the division so made in detail to him, failing which the lands of the villages would be surveyed and broken up into numbers corresponding in extent to the shares of the respective shareholders and such numbers would be treated as minor Inams and added to the neighbouring villages as directed in the Government Order. In November 1891, the Assistant Commissioner reported that out of ninety-two members then in the family, seventy-eight were served by delivery of the notices, and fourteen by the affixing of the notices in the Chavadi of Jangamkota, and that only three of them had submitted petitions objecting to the execution of the order, *viz.*, one (Mahadeva Rao) asking that the right of only those who were receiving payments up to the action taken by the Amildar on the absconding of the Government gumasta in 1886 might be recognized and two praying that the villages be given back to the possession of Gundappa from whom they were taken over by Government. Eight others petitioned that the order of Government might be duly executed, and the remaining eighty-one remained quiescent. The Deputy Commissioner reported to Government that the prayer for the restoration of the villages to Gundappa was inadmissible, and that the villages would be broken up and the shares distributed by lottery. The Government intimated in June 1892 that measures should be adopted for the survey of the villages and their subdivision into shares and absorption as Minor Inams in the neighbouring villages as directed in the order. The Deputy Commissioner reported in August 1898 that the survey of the villages had been completed and that the Survey Records with Fysal Patrak, etc., had been sent to the Survey Department.

23. Further action to give effect to the remaining portion of the order does not appear to have been taken. In the course of the proceedings taken upon a petition presented by a representative of the Hettakki family in 1900 complaining that his share of the income of the villages had not been paid to him, the Deputy Commissioner instituted enquiries in November 1902 as to why mesne profits were distributed contrary to the order of Government and why a proper division of the lands had not been made. The detailed report submitted by the Assistant Commissioner in June 1903, shows that there were objections again to the claim of the Hettakki, Kasaba, Kyalanur and Kalhalli families to a share in the villages of Mittanahalli and Golhalli being recognized, that the local authorities were led to institute fresh enquiries and to apply for fresh orders, and that as there was no dispute in regard to the Venkatapur village, the Amildar was directed to effect the division of that village according to the respective shares of the Hissedars. The Deputy Commissioner, in submitting the report to the Revenue Commissioner, proposes that the villages of Mittanahalli and Golhalli be divided among those in actual possession and enjoyment of shares in mesne profits and that the parties aggrieved be left to establish their claims in a competent Court. The Revenue Commissioner in agreeing to this proposal observes that the Government order appears to conflict with the decree of the Court and with actual possession and enjoyment for over forty years in accordance therewith.

24. From the fact narrated above, there is no warrant for the supposition that the decree of the Adalat Court as affirmed by the Commissioner's Court awarded shares only to the Channasandra family (the three plaintiffs in the suit) and the sons of Krishnappa (the family represented by the defendants). On the other hand the decrees read with the letter addressed to the Superintendent of the Bangalore Division in 1846 show that the Courts recognized the claim "of the several share-holders of the Jangamkota Kulkarni Miras" to the rents of the villages which form the estate, while it is clear from the Huttuvali list of 1864 that the Hettakki, Kasaba, Kyalanur, and Kalhalli branches were among the several shareholders of the Jangamkota Kulkarni Mirasi.

25. Nor it is correct to say that the Channasandra party and the sons of Krishnappa had alone possession and enjoyment of the shares *in pursuance of* the decrees for over forty years. If there was any such possession and enjoyment to the exclusion of the other families referred

to, it was not in conformity with the arrangement ordered by the Commissioner on the recommendation of the Court. As regards the period during which such possession is said to have continued, two important facts appear to have been overlooked, *viz* :—

(1) the finding at the Inam Settlement in 1875 that the receipt by the defendants' family of the shares of the families now sought to be excluded was not in virtue of any right in that family, but in consideration of its performing the duties of the office; and the recognition and record of the shares of the second mentioned families following from such finding, and

(2) the mesne profits in the possession of the person appointed to manage the villages, and of the Amildar to whom they appear to have been transferred, were, so to speak, in trust for the several shareholders of the Jangamkota Kulkarni Miras; and the receipt by the defendants' family of a larger share than was due to it, was, very probably, as alleged in some of the reports, rendered possible by the collusion of that family with the person who had charge of the management of the villages.

26. On the whole, the order of Government, while recognizing rights established by previous decisions, aimed, in a practical manner, at putting an end to disputes among the rival branches of the Kulkarni family, and thereby facilitate the adjustment of the claims of the members of each branch. In other words the order, except in one particular, is based upon the Inam Settlement which is in accordance with the Huttuvali list, which in its turn gave effect to the order of the Commissioner charging the Revenue authorities with the execution of the decree of the Adalat Court as interpreted and affirmed by the decree of his own Court. The only exception above referred to is that the order directs the partition of the lands by metes and bounds without special authority in that behalf from the Court or authority whose decree and order for the collection of rents and produce and the distribution thereof among the shareholders, it professes to execute. The original arrangement was limited to the nomination of a mutsaddi to collect and distribute the rents and profits and to the exercising of supervision over him, but in course of time the moneys collected came to be lodged in, and distributed from the Taluk Treasury, and the villages came to be viewed as being under Government management after the enfranchisement of the Inam, and when the misconduct of the mutsaddi and the disputes of the shareholders were brought to notice, Government considered some better and more satisfactory arrangement than that originally made under the Court's authority was desirable. Hence the above mentioned direction, which, however, is open to the objection that it goes beyond the instructions under which the Revenue authorities became seized of the subject matter of the litigation. However unsatisfactory the original arrangement might have been, an executing authority had no power to vary it without due sanction. In this respect, therefore, the order of 1887 has to be modified. In every other respect, it is perfectly valid and needs no reconsideration. The shares have been rightly determined and laid down and all that remains to be done, so long as the authority in pursuance of which the Revenue Officers are acting continues to be what it is, is to revert to the old arrangement of management by a paid agent and of the division of net profits among all the shareholders concerned as detailed above, in preference to an actual partition of the lands as directed by the order.

Appeal No. 126 *of* 1904-05.

Appellants	*Versus*	Respondents
Savitramma		Subbanna.

Cross Appeal.

Subbanna	*Versus*	Savitramma.

Subject.

Appeals against the order of the Deputy Commissioner of the Tumkur District, directing that Subbanna, the present shanbhog of Maidala Amanikere in the Tumkur Taluk, should pay to Savitramma, wife of Narasimhappa. Rs. 24 annually for her maintenance from 1904-05, out of the potgi attached to the shanbhogi office in question. The latter (Savitramma) prays for enhanced maintenance and for payment retrospectively from 1887, while the former (Subbanna) prays for being exempted from the liability to pay any maintenance at all.

The facts of the case appear sufficiently from the following:—

Decision.

One Narasimhappa was the shanbhog of Maidala Amanikere of the Tumkur Taluk. He was dismissed in 1887 on account of his having embezzled Government money. His close relations were excluded and a remote one, *viz.*, one Subbanna, appointed as his successor. In making this appointment the then Deputy Commissioner expressed a hope that Subbanna would

give Narasimhappa's wife Savitramma a small maintenance allowance out of the potgi in case the latter should not be taken back and supported by her husband. On this point a report was called for. Subbanna made a statement that, in the eventuality abovementioned, he would pay the woman Rs. 24 a year. No orders, however, were passed. Savitramma did not move in the matter until sixteen years afterwards, *i. e.*, until December 1903, when she applied for the first time for an order directing Subbanna to give her an allowance. Subbanna agreed to give her Rs. 24 with effect from 1904-05. The Deputy Commissioner made an order accordingly. Hence these two appeals, one from Savitramma contending that she should be given an enhanced allowance with retrospective effect, and the other from Subbanna repudiating his liability to make any payment at all and alleging that his consent was due to a misapprehension. Under the potgi rules, the potgi allowance is the officiators exclusive perquisite, being his remuneration for the duties he is required to perform. It is both inalienable and indivisible. Official sanction and effect could not be given to any arrangement or agreement which the parties concerned might enter into in contravention of the rules. The Deputy Commissioner's order therefore cannot be supported. Subbanna's appeal is thus entitled to prevail. It follows from this that Savitramma's appeal must fail.

The Deputy Commissioner's order directing the payment of Rs. 24 per annum to Savitramma by a deduction from the potgi payable to Subbanna is accordingly set aside.

OFFICE OF THE DIRECTOR OF STATISTICS IN MYSORE,
Dated Bangalore, 13th September 1905.

EXPLANATORY MEMORANDUM.

The Tables issued as Supplement to the *Mysore Gazette* dated 3rd August 1905 furnish the figures for the seven years 1897-98 to 1903-04 Talukvar. The corresponding statistics for the year 1904-05 are printed in the following pages.

The Explanatory Memorandum printed with the previous Issue is applicable to the present issue also.

In the previous Issue, the proportion of the out-turn to the standard normal crop was given in terms of annas in the rupee only for the entire District for the several years of report. In the present Issue and for facility of comparison, the said proportion is given for each Taluk and the entire District for all the eight years for which the return has been made up.

T. ANANDA ROW,
Director of Statistics in Mysore.

SUMMARY OF SEASONS IN MYSORE DURING 1904.

The year's rainfall was on the whole deficient in all the Districts of the State except Shimoga where there was a slight excess over the average of past years. In the Taluks of Hoskote (Bangalore District), Malur (Kolar District), Krishnarajpete (Mysore District), Arsikere and Alur (Hassan District), Yedahalli (Kadur District), however, the fall was somewhat in excess of the average.

The pre-monsoon rains in April were more or less normal throughout the State. During subsequent months ending with September 1904, the rain-fall was more or less equally distributed and the agricultural prospects were generally hopeful. But a deficiency in the month of October and a total absence of rain in November and December set back cultivation and affected the standing crops to a great extent On account of this failure of the North-East monsoon, permission was granted by Government for the cultivation of tank beds with quick-growing crops. The year's rain-fall recorded 33·28 inches against 51·12 inches in 1903 and against 36·98 inches the average during 35 years preceding.

The following statement gives particulars of the rainfall during 1904 as compared with the average for 35 years.

The following Rules for the regulation of water-supply and for house-connections from the water-works of the Chitaldrug town are published for general information :—

I. The supply of water from the Chitaldrug water-works being intended exclusively for *bonâ fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purposes whatsoever.

II. A supply of water for domestic purposes shall not include a supply thereof for any trade, manufacture or business or for fountains or for ornamental or mechanical purposes or for watering gardens or roads.

III. Water which has been used for washing, bathing or other domestic purposes may be collected and used for gardening or other non-domestic purposes.

IV. The water may, however, be used for purposes prohibited, with the special permission of the Municipal President.

V. Until further orders, private connections to houses will be limited to houses whose value is ordinarily Rs. 300 and upwards and to localities where the capacity and pressure of the public water-mains permit of such connections being made without detriment to the street service. On the latter point, the opinion of the Executive Engineer shall be final.

VI. All pipes, taps and other works required for a house-connection shall be of such dimensions, character and material as the Municipality may approve, the pipe not exceeding half an inch in diameter, and they shall always be under the control of the Municipality and shall in no case be interfered with by any others. They shall be supplied, renewed or repaired by the Municipality.

VII. The cost of all pipes and taps and works required for a house-connection shall be borne by the house-holder applying for or desiring the connection, who shall pay in advance the estimated cost. The whole cost should be fully paid for before the house-connection is permitted to be used. All subsequent repairs to such pipes, taps and other works shall be executed at the cost of the house-holder.

VIII. The Municipal Board shall determine the size of each house-connection with due regard to the capacity and pressure of the public water-mains.

IX. The house-connection in any case is liable to be stopped or the supply reduced by the Municipality, without assigning any reason. When stoppage is due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances will be given by the Municipality. If the Municipality has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, such connection shall be liable to be stopped forthwith under this rule.

X. Every house-holder possessing a house-connection shall pay a tax of eight annas per mensem and deposit with the Municipality the amount of such tax for twelve months in advance.

XI. The Government reserves to itself the power, whenever it deems fit, to alter or modify the foregoing rules or to abolish altogether the system of house-connections to be established hereunder.

XII. Every house-connection shall be regarded as established subject to the conditions and regulations contained in the rules as above, or as they may be altered or modified for the time being by order of Government.

XIII. No water-cart shall be allowed to take water from a public fountain, except at such places as may be specially set apart by the Municipality for that purpose. The Municipality shall cause notice-boards to be put up at particular fountains, indicating that water-carts are allowed to take water therefrom.

If necessary, the allotment to Amritur-Huliyurdurga cart-track may be increased to Rs. 10 per mile as the existing cart-track is said to be much cut up. GOVT. OF H. H. THE MAHARAJA OF MYSORE, GENL. AND REV. SECRETARIAT,
Dated Bangalore, 16th November 1905.

By Order,
B. K. VENKATA VARADA IYENGAR,
Secy. to Govt., Gen. & Rev. Dept.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 130 *of* 1904-05.

Appellant		*Respondent*
Nanjundaiya, minor by guardian Kappaiya	*Versus*	Nanjamma.

Subject.

Appeal against the order of the Deputy Commissioner, Mysore District, directing the registry of the shanbhogi office of Mugur, T.-Narsipur Taluk, jointly in the names of the appellant and the respondent.

The facts of the case appear sufficiently from the following :—

Decision.

The appellant's father Nanjappa and the respondent's husband, Subbanna's father, Sreekantaiya, were the joint shanbhogs of the village of Mugur in the T.-Narsipur Taluk. A dispute having arisen between them as to how the duties of the office should be performed and the emoluments attached thereto enjoyed, the Deputy Commissioner passed an order in 1892 that "each of them should hold the office alternately every other year." Nanjappa appealed to Government, who, in Appeal No. 173 of 1892-93, disapproved of the order regarding the performance of the duties of the office by rotation and directed the Deputy Commissioner "to keep both the shanbhogs in office till the potgi settlement is made when only one shanbhog will be appointed, and to divide the duties between them as well as he can."

2. Sreekantaiya died shortly afterwards and was succeeded by his son Subbanna. In spite of the distinct order of Government quoted above, both Nanjappa and Subbanna seem to have continued to officiate by rotation both before and after the potgi settlement. These two persons died in May 1904 and June 1904, respectively. The former left several sons, of whom the appellant is the eldest, while the latter left only a sonless widow, to wit, the respondent. The appellant, who is now a minor, will shortly attain his majority. The Deputy Commissioner has conferred the office on both the appellant and the respondent and directed that they should perform the duties thereof by turns of five years each through gumastas. Dissatisfied with this order, the appellant has preferred the present appeal.

3. Under the rules and practice in force in Mysore, sonless widows can only be appointed to offices of this description in very exceptional cases. The present one is not such a case, since the other deceased officiator has left more than one son, to whose appointment there could be no valid objection. Moreover, the order of the Deputy Commissioner is clearly opposed to the direction contained in the Government Order of the 2nd December 1893 above referred to, under which only one shanbhog could be appointed for the village. The question is, not whether rotation has been ordered and is in force in certain other cases, but whether the present case is one in which such an arrangement is a proper one to make in spite of one of the claimants being a female and in contravention of an order already passed by Government. This question, Government have no hesitation in answering in the negative.

4. Under these circumstances, it is clear that the Deputy Commissioner's order cannot be supported. That order is accordingly set aside and the appellant directed to be appointed sole shanbhog.

Memo. No. R. 1375—588-04-70, *dated* 31*st July* 1905.

Copy of the above is forwarded to the Deputy Commissioner of the Mysore District, together with the records received with his letter No. 822, dated the 28th March 1905.

Appeal No. 140 *of* 1904-05.

Appellant		*Respondents*
Eregowda, son of Pommegowda of Dowdabetta, Pavagada Taluk	*Versus*	1. Sanjeevagowda 2. Chikkalamma 3. Erakyatha. 4. Naga.

Subject.

Appeal against the judgment and decree of the Deputy Commissioner of the Tumkur District, affirming the order of the Assistant Commissioner dismissing as time barred the suit filed by the appellant, claiming the pateli office of Konanakurki village in the Pavagada Taluk, now in the possession and enjoyment of the 1st respondent Sanjeevagowda.

The facts of the case appear sufficiently from the following decision :—

Decision.

Pommegowda and Nagegowda were brothers. The former is alive, while the latter died in 1878. Between them both, they were enjoying either jointly or by turns the pateli office of the two villages of Konanakurki and Dowdabetta until the year 1868, when for administrative convenience, it was decided that Konanakurki should be allotted to Nagegowda and Dowda-

betta to Pommegowda. Neither of the brothers objected to this arrangement. Pommegowda is still in possession and enjoyment of the village allotted to him, namely Dowdabetta. Nagegowda enjoyed Konanakurki until his death, which occurred shortly after the date of the said arrangement. He was succeeded by his son Doddegowda who held the office until his death, which took place in the year 1878. The question then arose as to who should be appointed patel of Konanakurki. Doddegowda left no male issue. The names of certain persons, alleged to be his *gnatees* were mentioned. but ignored. Pommegowda was passed over on the ground that he was not sufficiently fit even for the charge of the one village of which he was already in possession. Doddegowda's widow practically renounced her *hak* and left it to Government to dispose of the vacancy in such manner as they pleased. Under these circumstances, the appointment of a stranger to the office, thus at the disposal of Government, became necessary. One Bheemegowda was considered an eligible person and was appointed accordingly. After holding the office for a little over two years he died in 1881. His adopted son, the present 1st respondent, then a minor, was at once appointed his successor. The 1st respondent attained his majority in 1886 and has since been in uninterrupted possession of the office. Pommegowda who, as already observed, is still alive, has throughout been apparently contented with the introduction of a stranger, as is evident from the fact that he has never once asserted a title of his own to the office for the past twenty-seven years, *i.e.*, since the date of Bheemegowda's appointment in 1878. His son, the present appellant, preferred a claim to the office for the first time in 1903. Both the Assistant Commissioner and the Deputy Commissioner have rejected the claim on the ground that it is barred by limitation. Hence this appeal.

2. Government hold that the conclusion arrived at by the Courts below is correct and that this appeal is not entitled to prevail. In the appeal memo, a great deal has been said about fraud and illegality, for which ascertion, however, there is absolutely no foundation. The fact remains that the appellant's father was superseded by a stranger so far back as in 1878 and that the arrangement was in force without protest either from the appellant's father or from the appellant until the year 1903. It is undoubtedly too late now for the appellant to successfully assert his title. At the hearing an attempt was made to show that the rejection of the claim should have been based on the non-accrual of the cause of action instead of on the ground of the bar of limitation. Government do not see the force of this contention. It is true that Doddegowda's widow is still alive, and that in the natural course and in the absence of other circumstances, the appellant and his father could not well claim the office during her life-time. But it must be borne in mind that the widow was passed over at her own instance, and that if the appellant or his father had a right to come in, that right accrued to them at once, *i.e.*, in the year 1878. The office was lost to the family in that year and could not revert to it either now or after the demise of Doddegowda's widow.

3. For these reasons, Government uphold the decisions appealed from and direct the dismissal of this appeal.

} Minor sons of Lakshmappa by guardian Mahishi Manjappa.

Subject.

Appeal against the order of the Deputy Commissioner of the Shimoga District, dated July 1903, directing the recovery from the appellants of the assessment from 1898-99 of Survey No. 67 of Mallapur village in the Shimoga Taluk, purchased by the appellants' father Lakshmappa at a revenue sale held on 30th November 1898.

The facts of the case appear sufficiently from the following:—

Decision.

Survey Nos. 67 and 59 were sold for the arrears of kandayam due thereon and were knocked down to the appellants' father Lakshmappa (since deceased) for Rs. 66 and Rs. 14 respectively. Written intimation of the confirmation of the sale was given to the purchaser in February 1899, but he was not put in possession of Survey No. 67 which was under crop at the time, though he repeatedly applied to the authorities. The purchaser fully paid up the sale amount, but was required to pay the assessment for 1898-99 also. No action was, however, taken to put him in possession of land No. 67 until 1902, when both the numbers were sold for the arrears of kandayam due for three years, amounting to Rs. 186-13-0. For want of bidders the lands were bought in by Government for one pie. The Assistant Commissioner who enquired into the case was of opinion that the 2nd sale should be cancelled as the appellants or

their deceased father had not been put in possession of land No. 67, while the arrears due on land No. 59 had been fully paid up. But the Deputy Commissioner differed from the Assistant Commissioner and held that the appellants were responsible for the payment of the arrears on the lands in question as the purchaser had been duly informed of the confirmation of sale. The Government consider that a mere intimation of confirmation of sale was not tantamount to a delivery of possession, that there is nothing to show that land No. 67 was ever taken possession of and enjoyed by the purchaser and that consequently the Deputy Commissioner's order is incorrect. They accordingly direct that the land (Survey No. 67) should be restored to the appellants without any liability for the payment of the arrears that had accumulated thereon, (*viz.* No. 67) during the three years they were not in possession thereof.

Subject.

Appeals against the order of the Deputy Commissioner of the Bangalore District, recognizing the claim of the respondent to the pateli office of the Kayamgutta Byappanahalli village in the Bangalore Taluk, and disallowing the nomination made by the appellant Kayamguttadar.

The facts of the case appear sufficiently from the following :—

Decision.

The pateli is not a hereditary office in this village, nor are there any Inam lands or other emoluments attached to it. It would appear that the Kayamguttadar himself through his agent used to perform the duties of the office for some time. By a Sannad dated 17th July 1880, the Deputy Commissioner appointed one Munivenkatappa to the office "on behalf of Tiruvengadasami Mudaliar (Kayamguttadar)." This, in the opinion of Government, was a personal appointment which could not, and did not, create a hereditary hak in favor of the family of the holder of the Sannad. Munivenkatappa having died in 1902, the Kayamguttadar asked for permission to make his own nomination of a successor subject of course to confirmation by the Deputy Commissioner. This application was resisted by the respondent, who is a son of the deceased patel and who contended that he was himself entitled to succeed to the office by right of inheritance. The Assistant Commissioner overruled the respondent's objection while the Deputy Commissioner allowed it. Hence this appeal.

2. The view taken by the Deputy Commissioner of the rights of the respondent and of the law relating to the hereditary principle, seems to Government to be incorrect. Where there is a hereditary patel his legal heir cannot be passed over in the absence of valid grounds, but where, as in this case, the office is not hereditary, a person once appointed to it cannot *ipso facto* assert a right to transmit it to his heirs in spite of the Inamdar's opposition. The death of Munivenkatappa has caused a vacancy which the Kayamguttadar is competent to fill up by making an appointment acceptable to himself and agreeable to the Deputy Commissioner. The authority quoted by the Deputy Commissioner presupposes the existence of a hereditary office and a hereditary hak and cannot be held to apply to a case like the present where no such office and hak exist.

3. The order appealed from is set aside and the Deputy Commissioner directed to deal with the office in question in accordance with the above observations.

Appeal No. 47 of 1904-05.

Appellant ... Kaveramma by her agent Gururayachar.

Subject.

Claim of the appellant to a tract of land in the State Forest adjoining her jodi village of Kuppachar Roppa in the Maddagiri Taluk, complained of as having been encroached upon by the Forest Department.

The facts of the case appear sufficiently from the following :—

Decision.

Kuppachar Koppal (or Roppa) is a jodi village granted to one Kuppachar in the year 1813. In 1856, there was a dispute regarding some land alleged to belong to the said Koppal but encroached upon by the inhabitants of certain adjoining villages. An enquiry was held and the jodidar's complaint admitted and redressed by an order of the Superintendent of the

372

Division, dated 19th March 1859. The village was surveyed and bandhs fixed by the Revenue Survey Department in 1870. All the land included within the boundaries mentioned in the Division Superintendent's order of 19th March 1859 was then held to belong to the village in the absence of any objection—private or departmental. It would appear that shortly before the Revenue Survey, *i.e.*, in the year 1868, a State Forest was ordered to be constituted in that locality and duly notified in the Official Gazette, but that notification did not either give the area of the forest or describe its boundaries, nor are the papers relating to that forest settlement forthcoming. Shortly after the Revenue Survey, *i.e.*, in September 1870, the village came under the operation of the Inam Settlement. The Inam Department recognised the title of the then jodidar (Ramachar, son of the original grantee) to the whole of the land claimed by him and enclosed within the boundaries mentioned in the Division Superintendent's order of 1859 and affirmed by the bandhs fixed at the Revenue Survey. In the following year there was some correspondence between the Inam Commissioner and the Conservator of Forests as to the circumstances under which the latter had added on a portion of the lands of the said village and of certain other villages, to the forest which apparently was then in the process of formation. The entire correspondence on the subject is not forthcoming; but the facts which then transpired can be easily and correctly ascertained from the copy of the Conservator's letter to the Inam Commissioner, dated 3rd May 1871, and from the Inam Special Assistant's postscript to the Inam Register, dated 20th January 1872, and the Inam Commissioner's order thereon, dated the 29th idem. These papers show that this jodidar, among others, complained to the Inam Commissioner that a portion of his land had been unauthorisedly taken up by the Forest Department. The Conservator, on being asked, replied that the action taken by him was fully justified by the agreements he had obtained from the jodidars concerned, one of whom was named Venkatalakshamma. In the result the Inam Commissioner held that the holder of the village in question was not a party to the agreements relied upon by the Conservator and that therefore he was entitled to hold his jungle unmolested subject to the usual restrictions as to the felling of teak and sandal, and the transport of other trees felled. The Topographical Survey of this part of the State took place in 1878-79. The forest which by that time had presumably assumed a somewhat definite shape, was shown by dotted lines in the Topo-Survey map (old sheet No. 36 corresponding to present sheet No. 104) and in this are included the southern and western portions of Kuppachar Koppal to the extent of about 100 acres. There is absolutely nothing in the record to show that the jodidar was a consenting party to the inclusion. Notwithstanding a subsequent notification of 1883, which like its predecessor did not give the area, it became necessary in 1898, owing to certain doubts and inaccuracies which existed, and certain rights and privileges which were being indiscriminately exercised, to revise the Forest Settlement and place it on a more satisfactory basis by the promulgation of a fresh notification, which accordingly at the instance of the Conservator of Forests, was issued by Government on 5th August 1898. No lands belonging to Kuppachar Koppal found a place therein, the tract in question having apparently been regarded as taken from certain adjoining Government villages. In giving effect to this notification and to the orders accompanying it, the local authorities seem to have for the first time openly asserted the right of the Forest Department to hold the said tract as against the jodidar (Ramachar's son Srinivasachar's widow Kaveramma) and to prevent the cattle of the Koppal from grazing thereon otherwise than by the payment of a fee. Her title having thus been repudiated, Kaveramma preferred a complaint to the Assistant Commissioner in February 1902, and subsequently followed it up by numerous other petitions of protests. Local inspections and enquiries clearly supported Kaveramma's assertion that the tract in dispute formed part of her village. On the ground, however, of the jodidar having remained quiet for some thirty years after the inclusion of the tract within the forest limits, the Deputy Commissioner came to the conclusion that Kaveramma's contention was untenable. Kaveramma (petitioner and appellant) questions the correctness of this conclusion.

2. The Conservator of Forests is apparently not inclined to entertain the appellant's claim, and he lays great stress on the Forest Settlement of 1868 and the Topographical Survey of 1878-79, as also on the long existing demarcation line The Survey Commissioner on the other hand observes that when the Revenue Survey operations were being carried out in 1870-71, no trace of the forest said to have been constituted in 1868 was met with in the Koppal or any Government villages concerned, that no demarcation line was observed by any of the measurers, nor was the existence of a forest brought to notice although the usual formalities were followed when fixing the boundaries of Kuppachar Roppa and all other villages, that the Ferist of the Maddagiri Taluk does not show a single forest in that taluk, that as regards the claim now made by the inamdar of Kuppachar Roppa, the boundary of the village (with which the Topo Survey has no jurisdiction) was, in the absence of any representation by the Forest Department, correctly fixed and that as a question of boundary legally laid down there is no doubt that the Revenue Survey boundary is correct. Colonel Grant further refers to the correspondence of 1871 as clearly showing that the Conservator knew that he was taking his line through the jodidar's lands. He adds that he does not know what the agreement was between the Conservator of Forests and the jodidar. In this connection, Government note from the remark under the Inam Register that neither this jodidar nor any person authorised by him was a party to any of the agreements obtained by the Conservator. Colonel Grant concludes by giving his opinion that the jodidar is entitled to some compensation.

3. Having considered the case in all its bearings, Government are of opinion that the appellant has a valid grievance and that her claim cannot be rejected on the grounds stated by the Deputy Commissioner and the Conservator of Forests.

4. It cannot be seriously contended that the tract under advertence does not belong to the jodi village or that the jodidar surrendered it to the Forest Department by a mutchalika. In reporting upon the petitioner's complaint the Forest Range Officer stated *inter alia* that "the demarcation line runs about a furlong from the boundary line between the jodi village and the adjoining Government village lands of Kammankote and Hosahalli now included in the State Forest, encroaching upon the jodi lands as shown in the sketch plan submitted," that "the demarcation line *appears* to have been cut *some time after* 1868," that "it is not possible to ascertain why the line was not then cut along the boundary as shown in the village plans," and that "the complaint is no doubt reasonable." He adds that the extent of jodidar's land thus included in the forest is about 100 acres. The Assistant Commissioner reports *inter alia* that "a perusal of these (sketch maps) will show that there is some encroachment on the part of the Forest Department." He points out the difference between the village boundaries at the demarcated limits and observes:—"By taking the line as described above, the bamboo-grown area to the west of Oodubetta hills will have to be excluded. There are about 2,000 bamboo clumps within the area;" again "if the village boundaries are adopted, the strip of land described above, about 100 acres in extent, will have to be given up;" lastly "there is no doubt that about 100 acres of the jodi village in question has been encroached upon." The Assistant Commissioner was, however, not satisfied with the petitioner's explanation of the delay in advancing this claim. The District Forest Officer while urging, as circumstances militating against the jodidar's claim, the Forest Settlement of 1868, the broad line cut *probably* in the year 1868 when the original State Forest *appears* to have been constituted, and the Topographical Survey Map of 1878-79, observes thus: "In all probability, Kuppachar Roppa lands also have been included in the forest at the time of the settlement of the forest, but no alienation statements of lands taken up for the formation of the forest are forthcoming here to throw any light and clear up the matter." The Deputy Commissioner and the Conservator of Forests do not altogether differ from the Ranger and the Assistant Commissioner or consider that the 'probability' admitted by the District Forest Officer is devoid of foundation. The recognition of the jodidar's title first in 1859 by the Division Superintendent, then by the Survey Department in 1870, and lastly by the Inam Department both in 1870 and 1872, have already been referred to. The evidence thus is all one way and its cumulative effect is to show beyond the shadow of a doubt that the appellant's title is wholly incontrovertible except possibly on the ground of herself and her predecessors in title having knowingly slept over their rights for a considerable period.

5. On the point last mentioned, Government hold that the circumstances of the cases are not such as to preclude the appellant from now successfully asserting her title. The Forest Settlement of 1868 was more nominal than real. An attempt at something like the formation of the forest seems to have been made some two or three years after. But private rights and interests were not fully enquired into or acquired or compounded with, and as regards this particular village there was a distinct pronouncement by the Inam Department, as the result of a correspondence with the Forest Department, that the jodidar's rights were in no way to be interfered with. This is a hilly tract and consists mostly, if not wholly, of unculturable land, the only way in which it could be used being as pasture land. When the demarcation line was first cut, is a question regarding which the evidence is meagre, vague and inconclusive, but it would appear that the line in this remote corner was never so prominently in evidence as to warn the jodidar that this title was in danger. In spite of Topo boundaries, considerable uncertainty prevailed until 1898 as to which areas and of what extent constituted the forest, and as to which villagers possessed and enjoyed what rights and privileges in the so-called forest. The correspondence which led to the revised settlement of 1898 shows clearly that everything connected with the forest was till then in a state of great confusion. That being so, there is no foundation for the assumption that the jodidar of this Koppal was ever cognizant of his pasture lands having been dealt with as a part of the forest. There is no allegation, much less proof, that his people were ever excluded from the enjoyment of the pasturage; in other words, that their cattle were ever impounded, or expelled, or charged a grazing fee. In short, there was no adverse act of any kind on the part of the forest authorities, and a jodidar remained therefore in fancied security. That being so, it is unfair to the jodidar to accept the paper settlements of the period prior to 1898 as conclusive proof of possession hostile to him. As soon as the appellant found that her title was impunged, and her cattle refused free grazing as before, she lost no time in coming forward with her claim, and this shows that there was no want of reasonable diligence on her part.

6. From the above observations, it is evidently clear that the land (extent 100 acres) in question is the property of the appellant, that it was improperly taken away from the Koppal and added on to the State Forest, that the Inamdar was not aware of this until shortly before the date of her complaint, that till then there was no over tact by the Forest Department calculated to excite her suspicion nor interference of any kind with her enjoyment as usual, and that the land should now be restored to her, leaving it to the Forest Department to acquire it from her in due course if its inclusion in the forest is deemed desirable. Compensation would not be an appropriate remedy in a case like this where restitution has been rightly

claimed and where subsequent acquisition either by private negotiation or by a resort to the machinery provided by law for the purpose, is quite feasible.

Appeal No. 152 *of* 1904-05.

Appellant	*Versus*	Respondent
Subbe Gowda		Gurunanjaiya.

Subject.

Appeal against the order of the Deputy Commissioner of the Mysore District directing the appointment of the petitioner's son to the pateli office of the Mangala village in the Chamrajnagar Taluk, on the score of old age and incompetency of the petitioner; and declining to allow the claim of the petitioner or his son to be appointed as patel of the dakle villages as well, attached to the said Mangala village, in preference to the respondent, who is the nominee of the inamdars of the dakle villages.

The facts of the case appear sufficiently from the following—

Decision.

There are several hamlets or dakle villages attached to the Inam village of Mangala. In 1878, with the consent of the inamdar the appellant was for the first time appointed patel of Mangala. Some time afterwards there was a division between the several members of the inamdar's family, under which Mangala fell to the share of one member and the dakle villages to that of two others. The latter repudiated the right of the appellant to officiate as patel of their villages and proceeded to make their own arrangements. One Nanje Gowda acted for a few years and then Basavarajiah. The latter having been removed, the question arose as to who should be appointed in his place. The appellant's claim has been rejected and the respondent appointed at the instance of the inamdars concerned. The appellant admits that he has no hereditary right, and yet he contents that he is a hakdar and should have been preferred to the respondent. This contention is manifestly inadmissible. The appointment of separate patels for several villages and hamlets clubbed together at the Survey Settlement being, in exceptional cases, contemplated by standing orders (*vide* Proceedings of Government No. 10267-75—R. 1055, dated the 3rd January 1894), the appellant's further contention that the order appointing the respondent is opposed to the rules, likewise fails.

For the above reasons, Government hold that this appeal is not entitled to succeed. Rejected accordingly.

Appeal No. 149	...	Sitaramjetti	
Do 150	...	Nanjaraj Urs, Mallappaji Urs, & other residents of Amachavadi in the Chamrajnagar Taluk	Subbi

Subject.

Appeals against the order of the Deputy Commissioner of the Mysore District directing the registry of the pateli office of Amachavadi village in the name of Subbi (respondent), daughter of the previous dismissed patel, and the payment by Sitaramjetti (patel gumasta) of one-fourth of the potgi for the maintenance of the said minor registerdar Subbi.

The facts of the case appear sufficiently from the following :—

Decision.

In this case there are two appeals one from the inhabitants of the village of Amachavadi and the other from one Sitaramjetti who has been appointed to act as patel gumasta of that village subject to the payment of one-fourth of the potgi allowance to the respondent Subbi.

One Puttamada Naik was temporarily appointed patel in 1888. In 1900 he was confirmed by the Assistant Commissioner. In 1903 he was dismissed on account of certain misconduct. The office is thus not a hereditary one, and yet the Deputy Commissioner has conferred it on the dismissed patel's minor daughter. To this the villagers object. Sitaramjetti, who has been appointed gumasta, declines to act unless he is made independent of the respondent and is given the whole potgi for his own benefit Neither Sitaramjetti nor the villagers have any *locus standi*, but at the same time it must be observed that in the absence of a hereditary right, the appointment of the minor Subbi (respondent) made by the Deputy Commissioner is open to objection. What the Deputy Commissioner ought to have done was to make an unexceptionable arrangement for the satisfactory performance of the duties of patel.

With these observations both the appeals will be rejected.

Appeal No. 1 of 1905-06.

Appellant	*Versus*	Respondent
Ramakrishnaiya (Plaintiff)		Ramanna (Defendant)

Subject.

Claim to the shanbhogi office of Hulikere and Bellur villages in the Mandya Taluk.

The facts of the case appear sufficiently from the following:—

Decision.

This appeal arises out of a claim preferred to a half share in a shanbhogi office. The office is a hereditary one and stood registered first in the name of one Dasappa and then in that of his eldest son Subbanna. The defendant (respondent) is the son and the plaintiff (appellant) the younger brother of the said Subbanna. After the death of Subbanna, which occurred in the year Dhatu or Iswara, the respondent was appointed to the office which accordingly was transferred to his name. During his minority his undivided uncle, the appellant, was discharging the duties of the office until 1893, when he vacated it in his (respondent's) favor. The latter has since been in possession. Relying upon a partition deed dated August 1895, the appellant sued to have his right established to share the office with the respondent by a quinquennial rotation. The suit was resisted on the ground that the arrangement relied upon was illegal and inoperative and that as the representative of the elder branch of the family the respondent alone was entitled to continue to be in possession and enjoyment of the office. The Assistant Commissioner decreed the suit while the Deputy Commissioner dismissed it. Hence this appeal.

2. In the usual course the office was transmitted from Dasappa to his first son Subbanna and from the latter to his son, the respondent. The latter's succession was duly recognised. The office of shanbhog is not a property divisible by private arrangement. The partition on which the suit is based cannot therefore be given official countenance and sanction. Rotation moreover cannot be ordered in every case irrespective of its merits. This is an ordinary case of coparceners and not an exceptional one presenting any special features or involving any peculiar hardship, and Government must therefore hold that the appellant's prayer is not entitled to succeed.

3. The Deputy Commissioner's decision is accordingly affirmed and this appeal rejected.

Petitioner	*Versus*	Counter-petitioner

Subject.

Petition praying that her appeal in regard to the registry of land Survey No. 31 of Palavanhalli, Honnali Taluk, which was dismissed for default of prosecution, may be restored to file and disposed of on merits.

Decision.

The land in question was originally in the khate of the appellant's husband who transferred it to the Honnali Gold Mining Company. Under an arrangement with the Company, however, possession remained first with him and after his death with his widow under whom the respondent as a sub-tenant has for a few years past been cultivating the land. In other words, the

appellant was a sub-holder under the Company, and the respondent was a tenant under her. The Company having relinquished the land along with a number of other lands, it had to go back to the original holder under the Proceedings of Government No. 7590-91—R. 2631, dated the 23rd March 1901. The word "possession" in the order must be taken to mean "possession" by a tenant under the Company and not by a sub-tenant under that tenant. The respondent never denied his position of subordination to the appellant, nor did the latter ever ask that that position be converted into one of co-ordination. The Assistant Commissioner nevertheless ordered the land to be registered in the joint names of both appellant and respondent, and this order was upheld in appeal by the Deputy Commissioner. Government are of opinion that the appellant, both by law and by right, is entitled to have the registry made out in her sole name, and that the respondent's name, which has been erroneously brought on the register of occupants, must now be removed from it.

Ordered accordingly.

Appeal No. 16 *of* 1905-06.

Appellant	*Versus*	Respondent
Chikka Ankegowda		Chikka Kempegowda.

Subject.

Claim to the pateli office of Bhimanahalli village in the Nagamangala Taluk.

The facts of the case appear sufficiently from the following—

Decision.

The case relates to the pateli of Bhimanahalli of the Nagamangala Taluk. For some fifty years, this office was in the name and enjoyment of one Dodda Ankegowda, son of Chikka Kempegowda, who had another son named Javaregowda, whose son is the respondent Chikka Kempa. The appellant is Chikka Kempegowda's brother Madegowda's son. The respondent's alleged adoption by Dodda Ankegowda has not been established. The relationship then is this, *viz.*, the appellant is Dodda Ankegowda's father's brother's son while the respondent is his own brother's son.

2. In 1885, Dodda Ankegowda who was getting old and infirm, requested that the office be transferred to the name of the appellant whom he called his brother but who, as a matter of fact, was only his cousin, being his paternal uncle's son. Another son of his brother Javaregowda, that is, a brother of the respondent, name Kada, objected to the said transfer on the ground that he was more nearly related to the registerdar than the appellant. The matter was under correspondence until 1892, when Dodda Ankegowda withdrew his application with due permission. He continued in office for a year more and then died in 1893. In spite of the appellant's protest, the respondent was appointed to succeed the deceased. The appellant appears to have appealed to the Deputy Commissioner from the arrangement ordered by the Sub-Division Officer, but there is nothing to show what became of the appeal. In 1903, that is, some ten years after the appointment of the respondent, the appellant instituted a suit for the establishment of his own title to the office and for the removal of the respondent from it. The suit failed both in the Assistant Commissioner's Court and in that of the Deputy Commissioner. Hence this second appeal.

3. There is an allegation that the appellant is the adopted son of his grand-father's brother's son Javaregowda, to whom the office is said to have originally belonged and on whose behalf Dodda Ankegowda was doing the duties of the same. That the office ever belonged to the appellant's alleged adoptive father or that Dodda Ankegowda ever held it under him as a gumasta, has not been proved. Another adoption is referred to in the papers in the file, *viz.*, that of Doda Ankegowda by an uncle of his of the same name. If these adoptions are true, then the relationship between the parties would be thus: the respondent would be the registerdar's father's brother's grandson, while the appellant would be the registerdar's grandfather's brother's grandson.

4. For the proper understanding of the case, a genealogical tree is attached.

5. That the registerdar's application of 1885 amounted to a relinquishment of the office in favour of the appellant, is a contention which the Government decline to accept. Not only was no private transfer admissible unless duly officially recognized, but it is also evident that the request regarding the transfer was withdrawn before final orders could be passed. The proceedings of 1885 to 1892 cannot therefore be successfully relied upon by the appellant as substantiating his title.

6. If there were no adoptions, the respondent was undoubtedly more nearly related to Dodda Ankegowda than the appellant. Likewise, if the adoptions were true there was the same propinquity entitling the respondent to succeed in preference to the appellant. The latter cannot ask that his own adoption be ignored and Dodda Ankegowda's adoption alone

taken into account. The probabilities are that the term "adopted son" has been loosely used in the case of both and that one of them was fostered by Javaregowda and the other by Dodda Ankegowda. However that may be, and whether there were adoptions or no, the fact is clear that the appellant is not entitled to be preferred to the respondent.

7. It is a question whether the suit itself was maintainable in the face of the Sub-Division Officer's order of 1893, which was not set aside either in appeal or in revision and which therefore stands good. Government, however, do not propose to go into this point as they find that on the merits the appellant's claim is wholly unsustainable.

8. The appeal fails and is dismissed.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 19 *of* 1905-06.

Appellant—Timmegowda, son of Appugowda of Bannur village, T.-Narsipur Taluk.

Subject.

Appeal against the order of the Revenue Commissioner, declining to interfere with the order of the Deputy Commissioner of the Mysore District, affirming the order of the Jamabandi Officer fining the petitioner Rs. 2, and directing his eviction from a piece of land encroached upon by him out of the Government land reserved for Mysore-Malvalli road in the Bannur village, T.-Narsipur Taluk.

The facts of the case appear sufficiently from the following order.

Order.

The shanbhog reported that the appellant had encroached upon the margin of a road to the extent of two guntas. On the strength of this report and of a sketch prepared by the Tank Inspector, the Amildar recommended that the appellant be suitably fined and evicted. The Assistant Commissioner (Jamabandi Officer) accepted this recommendation and passed orders accordingly. In appeal both the Deputy Commissioner and the Revenue Commissioner declined to interfere. Hence this appeal.

Government hold that the procedure adopted in this case was not a sufficient compliance with Section 37 of the Revenue Regulation which requires a formal enquiry by the Deputy Commissioner before he could direct the resumption of the part encroached upon. The proceedings, being *ab initio* irregular, will be set aside and the case remanded to the Deputy Commissioner to be dealt with *de novo* in strict accordance with law.

No. R. 6805—*R. M.* 683-04-4, *dated 6th December* 1905.

Copy of the above is forwarded to the Revenue Commissioner in Mysore, together with the records received with his letter No. 1542, dated the 10th August 1905.

Appeal No. 22 of 1905-06.

Appellant	*Versus*	Respondent
Chinnasawmia		Hakeem Shabal *alias* Ali Peer.

Subject.

Appeal against the order of the Deputy Commissioner of the Mysore District, cancelling the revenue sale of land Survey No. 234 of Hebbadi village, Seringapatam Taluk.

The facts of the case appear sufficiently from the following.

Decision.

The khatedar of the land in question (No. 234) is dead. The respondent seems to be in possession of one-half of the number as a purchaser. In the other half too, he appears to have had some interest in virtue of a decree. The assessment due on the land for 1903-04, having fallen into arrears, a notice of demand was issued in the usual course. That notice was offered to the respondent though he was not legally entitled to it. He declined to pay up the assessment of one-half of the land on the ground that he had not yet become the purchaser thereof in execution of his decree. His request that only one-half of the land should be sold or that the sale should be postponed until the result of the Civil Court sale could be known, was rejected by the Amildar who directed the forfeiture and sale of the entire number if the whole of the arrear were not paid up at once. The forfeiture order and the sale proclamation were duly shown to the respondent who however made under them the same endorsement as under the demand notice. The default continuing, the land was sold on 4th August 1904, *i.e.*, five months after the service of the notice and one month after the service of the forfeiture order and sale notification, upon the respondent. The sale was confirmed by the Assistant Commissioner nearly three months afterwards, *i.e.*, on the 30th October 1904. That officer held that there were no irregularities in connection with the sale and that the respondent who had ample notice of it and opportunity of satisfying the demand as in the previous year, was not entitled to have the sale postponed or set aside. In appeal, the Deputy Commissioner saw no reason to question the correctness of the Assistant Commissioner's finding. He however, thought that the Assistant Commissioner might have waited for some time as requested by the respondent and that the case was a hard one. And on this ground he interfered and set aside the sale which had

been duly confirmed by the Assistant Commissioner. The purchaser to wit the appellant contends that the Deputy Commissioner's order is erroneous and unsustainable.

2. From the above brief statement of facts, it is abundantly clear that the circumstances of the case did not warrant the cancelment of the sale by the Deputy Commissioner either under Section 184 or under the proviso to Section 185 of the Land Revenue Regulation. There was no irregularity, mistake or fraud. Mere hardship was not a justification for the cancelment of a sale regularly conducted and properly confirmed. After all, the hardship if any was one of the respondent's own creation and he is himself responsible for it. Admittedly, he had saved the land from sale in the previous year by paying up the assessment of the whole land. He had ample notice and time to do likewise in the year in question. He had no right to ask that the land be subdivided and his half of it left alone, especially when the law prescribing the minimum did not admit of any such division. Nor was his application for an indefinite postponement of the sale pending his possible or probable purchase of the other half of the land at the Court sale, entitled to any consideration. Government hold that the sale should not have been interfered with by the Deputy Commissioner and that for the reasons stated above, this appeal must be allowed.

3. The Deputy Commissioner's order cancelling the sale is accordingly reversed, and that of the Assistant Commissioner confirming the sale is affirmed.

No. R. 6968—R. M. 81-05-4, dated the 8th December 1905.

Copy of the above is forwarded to the Deputy Commissioner, Mysore District, together with the records received with his letter No. 239, dated 26th August 1905.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 133 *of* 1904-05.

Appellants	*Versus*	Respondents
1. Lingegowda 2. Thejuregowda 3. Hutchegowda 4. Marigowda } sons of Lakkegowda		1. Lingegowda, son of Devegowda 2. Hutchegowda 3. Javaregowda 4. Hutcha 5. Lakka 6. Maria } Minors. 7. Thejura

Subject.

Appeal against the Mysore Deputy Commissioner's order dismissing their appeal against the Assistant Commissioner's judgment in their suit for the declaration of their right to the pateli office of the villages of Kuppe, Muddanahalli, Chikkakoppal and Nalahanta in the Yedatore Taluk.

The facts of the case appear sufficiently from the following decision :—

Decision.

This case relates to the pateli of the village of Kuppe with certain hamlets attached to it. The office in question formed the subject of certain proceedings in 1894 and 1895 with the result that the Government in their Order No. 1532 – Pet. F. 20-95, dated the 1st August 1895, held that the 1st respondent had been rightly registered as hakdar in succession to his deceased father Dyavegowda, and that during his minority the 1st appellant Lingegowda should continue as his gumasta in preference to the Deputy Commissioner's nominee Hutchegowda. This was a final pronouncement not open to revision by a regular suit. It is true that the Deputy Commissioner in passing the order then appealed from had preferred the 1st appellant to such a suit for the establishment of his hak. The Government, however, did not endorse that reservation, and no suit therefore lies to set aside the orders passed by them finally disposing of the matter. The appellants seek to put upon the order of Government an interpretation which it clearly does not admit of. Their further contention that because a civil suit is inadmissible under Section 221 of the Revenue Regulation, therefore a suit on the revenue side is by implication maintainable, is on the face of it untenable and must be rejected. On this ground Government hold that the appeal must fail.

The appeal is accordingly rejected.

No. R. 7270—*R. M.* 667-04-4, *dated* 14*th December* 1905.

Copy of the above is forwarded to the Deputy Commissioner, Mysore District, together with the records received with his letter No. 959, dated the 29th April 1905.

Appeal No. 158 *of* 1903-04.

Appellant (Defendant)	*Versus*	*Respondents* (Plaintiffs)
Kapinaiya of Huluvanahalli, Magadi Taluk		1. Tippaiya (since dead) 2. Kariyanna, brother of (1) (sons of Kempe gowda).

Subject.

Appeal against the judgment and decree of the Deputy Commissioner of the Bangalore District, reversing the order of the Assistant Commissioner and allowing the claim of the respondents to the pateli office of Huluvanahalli, Ganapathihalli and Madapatna villages in the Magadi Taluk.

The facts of the case appear sufficiently from the following :—

Decision.

This case relates to a pateli office. That the hak belongs to the plaintiffs' (respondents') family has been clearly and satisfactorily established. From the Assistant Commissioner's finding on this point, supported by the Deputy Commissioner, Government see no reason to dissent. The plaintiffs' father held the office until 1878 when he was removed from it in consequence of his complicity in a case of dacoity. The offence was not one which under the

Rules entailed a forfeiture of the hak. Nor did the then Deputy Commissioner pass any order depriving the man's family of the hak. On the contrary the record shows that he intended that one of the sons of the dismissed patel should succeed to the office on his attaining majority and that till then the Amildar's nominee, the appellant's deceased brother Nanjundaiya be appointed to act. The sannad given to Nanjundaiya, did not operate either to confer on him a heritable right or to exclude the plaintiffs' family from the pateli for all time to come. It evidenced a personal appointment which naturally terminated on Nanjundaiya's demise in 1895. The plaintiffs' lost no time in asserting their title to the office on Nanjundaiya's death. One of them further held the office for a few years during Nanjundaiya's suspension. Under these circumstances the Deputy Commissioner has rightly held that the claim is entitled to prevail and that the appellant has no valid answer to it. The Government are of opinion that the appeal must fail and it is accordingly dismissed.

Memo No. R. 7408—*P. F.* 272-03-8, *dated* 16*th December* 1905.

Copy of the above is forwarded to the Deputy Commissioner of the Bangalore District, together with the records received with his letter No. 268, dated the 18th September 1905.

Appeal No. 5 *of* 1905-06.

Appellant	*Versus*	Respondent
Hanumappa, minor, represented by his adoptive mother and guardian Mudiyavva.		Gurulingappa.

Subject.

Claim to the pateli office of Alur village in the Davangere Taluk.

The facts of the case appear sufficiently from the following decision :—

Decision.

The pateli in question was held by one Murigappa who died issueless in 1902. His widow Mudiyavva claimed the office on the ground that she was his rightful heir and had further been authorized by him to take a boy in adoption. Her claim was opposed by the deceased's divided step-brother the respondent. The Deputy Commissioner gave the office to the respondent. Shortly afterwards Mudiyavva adopted the appellant Hanumappa, a lad of about twelve or thirteen years. The adoption is admitted. Its validity however is questioned on the ground that the alleged authority is false and that there was also no consent from the *gnatees* of the deceased. An issue was sent down to the Deputy Commissioner with instructions to receive evidence and submit a finding. The Assistant Commissioner to whom the case was referred by the Deputy Commissioner has admitted all the evidence produced by the parties and after a careful examination of it recorded a finding that the adoption was one made both under the deceased's authority and with the consent of the *gnatees*, one of the latter being the adopted boy's natural father himself. With this finding Government are in entire agreement. The evidence is conclusive. What more natural and probable than that, being plague stricken and apprehending that his end was approaching, Murigappa should have summoned his near relatives and friends to his bedside and in their presence asked his wife to adopt a boy so as to perpetuate his family and prevent its extinction? The respondent's statement that he was not given an opportunity of adducing all the evidence available or that the Assistant Commissioner was prejudiced against him, is wholly devoid of foundation and must be rejected.

The respondent's appointment made in spite of Mudiyavva's protest and when the adoption by her of a son pursuant to her husband's authority was in prospect, cannot be supported and must be set aside in favor of the appellant who should be appointed in succession to Murigappa and during whose minority suitable arrangements should be made by the Deputy Commissioner in consultation with his adoptive mother and guardian for the proper performance of the duties of patel.

Ordered accordingly.

No. R. 7249—*Mis.* 697-04-7, *dated the* 14*th December* 1905.

Copy of the above is forwarded to the Deputy Commissioner, Chitaldrug District, together with the records received with his letter No. 274, dated the 16th November 1905.
